PLANS FOR FALL RUSHING VARIED

Care in Bidding Brings Good Material Into Fraternity At Start of Year.

Reports on pledging activities from the various chapters show that there is no single plan used by all of them. However, if there is a mark of similarity, a common plan, it lies in the personal contact idea. The first methods of approach differ however.

While the plan used by Demetrios is not original, the results are such that their plan deserves consideration by other chapters. They made use of the Y. M. C. A. "big brother" system and each man was assigned two prospective matriculants as "little brothers."

This plan enabled them to get in touch with most of the men entering the department this fall before the summer was over and keep them lined up until school opened. Each man arranged for his two prospects to be present at a smoker given the evening before registration day.

Andronicus Invites All

Our California brothers make their first real point of contact with their prospects when they hold a smoker at the chapter house to which all the other members of the department are invited. Some thirty-nine new frosh are on hand at the University of Southern California this year in addition to older prospects from the disbanded department of the Southern Branch of the University of California.

On the night before the opening of school Pres. Burton speaks at a con- (Continued on Page 3)

MEXICO INVADED BY CALIFORNIA BROTHERS

Bro. Bill Lundeberg is busy denying rumored rumors around the campus that he was a member of a wild party that trekked down to Ensenada, Old Mexico, to view the eclipse and started a riot at Tin Jamna on the way home.

Brothers Baker and Cundiff, who were on the party, both corroborate Lundeberg's story and state that it was another Lundeberg. The brothers report that sleeping accommodations in Mexican jails are very much below the standards of those on this side of the border.

SUBSCRIPTION CAMPAIGN STARTED AMONG THE BROTHERS EXPOSING LIVE WIRES AS BOARD OUTLINES HOPES AND ASPIRATIONS

Last Year's Work Hailed As An Advance In Right Direction; Plans Under Way To Make Publication Better; Experience Dictates Some Changes.

Answers to two general letters to the Alumni and inactive men of Alpha Rho Chi have shown which men were keenly alive to the interests of their fraternity. So far the campaign has brought hearty responses from both married and single men.

Steps taken by THE ARCHI staff last year have been endorsed repeatedly by old subscribers, and the new staff has

been challenged to keep up the good work. In general it is agreed that the transition from a magazine type of quarterly (?) into a "little newspaper" has been a happy one, as it seems to supply the needs of the fraternity to a greater degree. This issue marks another step forward as a newspaper in content and style.

In order that THE ARCHI of 1923-24 may be better in its service than its immediate predecessor, it is imperative that THE ARCHI be published each month of the college year and on time. To accomplish this, it is necessary to have practically a 100 per cent subscription list and a staff free from the usual scholastic handicaps.

Considering the fact that members of the Minnesota staff of actives all carried fall programs last year, their accomplishments were remarkable. A survey of the situation by the Minnesota Alumni chapter showed that it was inexpedient to expect any active chapter to assume full responsibility for THE ARCHI and keep up their design courses without one or the other suffering.

According the alumni chapter has agreed to sponsor the destinies of our "little newspaper" this coming year. Brother Harold R. Peterson, W. G. S., called to his home one evening this fall Brothers R. F. Hennessey, A. A., Wallace C. Bonsall, W. A., Howard B. Gilman, Horace W. Tousley and Ralph W. Hamnett (Mrs. "Pete" served wonderful angel food before we left.—Editor.)

Copies To Be Mailed Direct

These men considered the problems of the previous administration. It was felt that a better system of mailing was necessary, and it was decided that copies be mailed direct in envelopes to each man at his residence. In the past copies were mailed in wrappers and in the case of actives, in bundles to the chapter houses.

A division of labor was also made with the board assuming the responsibility for the fall subscription campaign. Brother Peterson will care for the business affairs while Brother Tousley will devote his attention primarily to the editorial policies for the betterment of the fraternity.

Toward the goal of a 100 per cent subscription campaign, the board, under Brother Hennessey, drafted and mailed a general letter to the Mnesicles alumni and inactives. This was followed in a few days by the Gilman-Bonsall letter.
to the alumni and ex-men of other chapters.

Bakken Year's First Subscriber

The Mnesicles letter was hardly on its way when—bang—back came Larry Bakken’s check for one dollar and a half. He said, “Hope THE ARCHI will be a big success.” Larry is a happily married man, but he is no procrastinator.

Next day Don Campbell’s subscription arrived from New York City. I am pleased to inclose check in this letter for THE ARCHI. I have enjoyed the paper whenever it came and look forward to the next issues.

Glen H. Lyon wrote, “I am glad to do my bit by enclosing a money order for one dollar and fifty cents for THE ARCHI for the coming year and want to say that I think the ARCHI Board did very well last year.” He suggested we write Walter W. Pearl, a Michigan inactive whose name was not on the roster last year. Such suggestions are appreciated.

Melander Wishes Archi Luck

After Glenn’s letter came a message from A. R. Melander with a check. Bro. Melander added, “Best of luck—may the coming year be a successful one for Alpha Rho Chi.” Melander is in Dubuque. Harvey M. King got his check to us in the same mail with Melander’s. The professor wrote, “It is a pleasure to enclose my order for another year’s subscription to THE ARCHI. I have been delighted at the news which came from our own paper. One likes to keep in touch with the fellows he knows best. THE ARCHI seems to be one of the finest agents for making that possible.”

A subscription from J. Gordon Clark, “the granite man” from Rockville, Minn., was the next to come in.

Paul Patterosn wrote as follows, “I am inclosing a check for $3.00 to cover Ruben’s and my subscriptions to THE ARCHI. Must say that we both enjoyed the newspaper very much last year. Will be setting for the first issue of THE ARCHI and wish the board success during the year.”

“The Snappiest Thing”

Temporarily inactive, H. F. MacKenzie showed his colors, “Just a line of congratulation and my contribution to THE ARCHI. There is no doubt in my mind but what THE 23-24 ARCHI will be the snappiest thing that five A R X men ever picked up. If there is any way for me to be of service other than this mere subscription do not hesitate to command.” Mac is placing a load on us, but at the same time he calls upon all “ARCHI” men to be alive and send in their subscriptions.

Brothers Eddie Holien and Elving L. Johnson, last year’s editors, sent their checks in from Fargo, N. D., and Huntington, Va. Milton L. Anderson, Los Angeles; G. Brooks Deane, Minneapolis, and Fritz O. Elfstrum, Carlson, Minn., also got their subscriptions over before the checks started to come in from other than Mnesicles men.

Brother Anderson extends his greetings to the bunch and good luck to THE ARCHI. Brothers Holien and Elfstrum both sent $2.00 apiece for their subscriptions, saying that THE ARCHI was worth that. The staff says “thank you”; we do not expect to raise the price however—it is still $1.50 per year.

Jewell of Iktinos On Job

“You have a difficult job on your hands, and I trust that you will have the unanimous support of the members of Alpha Rho Chi,” writes John B. Jewell from Detroit. Brother Jewell was the first man to reply to the second general letter of the board.

Wm. Stuhr, Rock Island, III., a former Anthemos man in sending his check, in part said, “I know THE ARCHI always seems to involve a lot of hard work, for this one reason I could wish you much success.” Brother Bill’s expression is sincerely received.

“By all means count me in.” This is the demand of Jos. J. Patterson, teaching at the Oklahoma A. & M. College. “Please give my regards to the brothers of Mnesicles chapter and to those old friends of mine from Illinois.”

Subscriptions and kind greetings came the same day from W. G. A. Ely and W. G. E. Strong. R. H. Thiele, Anthemos man from Ramsey, III., and Bro. John C. Wells, Demetrios Alumnus from Cleveland, accompanied their checks with personal expressions.

Chicago Alumni Show Spirit

The week ended gloriously when a letter from George L. Lindeberg, Chicago Chapter Alumni Architect, sent in eight subscriptions at one time. “We extend to THE ARCHI board and all its stuff our fraternal greetings and hope that you are working the coming year will be successful. We will be glad to do anything we can to help you. Let us know what we can do to help.”

There is but one response to be made to the Chicago alumni and that is to keep up the good work until the chapter is 100 per cent on the subscription list. This challenge also goes to the other three alumni chapters, Detroit, Minnesota and Columbus, which have not been heard from as such. Gentlemen, be true to Alpha Rho Chi.

Space forbids the repetition of all the messages that came in as copy for this issue was in preparation. To every man that has sent in his subscription goes out a message of thanks. To those who have not yet responded goes the appeal to all “ARCHI” men to be alive and send in their subscriptions.

Brother Anderson mentioned the progress of his fraternity, but he is not doing right to put off any longer the mailing of your subscription. Do now! Alpha Rho Chi needs THE ARCHI. Its future is in your hands.

NEW YORK RECEPTION COMMITTEE ORGANIZED

Brothers Campbell and Loye Broadcast Welcome.

Don Campbell and Ed Loye of Mnesicles stand ready to see that “Archie” men are given a welcome when visiting in New York City and Brooklyn, according to a message we received the other day from Campbell.

Campbell writes that he and Loye “ran into one another on the street this summer and have lumped together several times as well as visiting Ed's home in Brooklyn. It was also my good fortune to have Brother Eddie Holien look me up while he was here spending Mr. Moorman’s prize money on Messrs. Ziegfeld’s and George White’s naughty shows. It was fine to see a face from home and really the shows were very good.

“I hope next year the prize winner or any one who is a stranger in New York will warn us that they are coming so that we may see that they are get located in a good yet not too expensive a place. Please broadcast this for Brother Loye and myself, all brothers in Alpha Rho Chi will be cordially received by us on their visits here. We will feel slighted if you come to town and don’t say hello.”

ALPHA RHO CHI

OFFICIAL SONG OF THE FRATERNITY

Words by Prof. Herbert R. Cross

Tune: “How Can I Leave Thee”

Alpha Rho Chi, to thee,
Our dear Fraternity,
Sweet songs of Loyalty
Glady we raise,
As in our mystic band
Hand grasping brother’s hand,
Heart unto heart we stand,
Thy name we praise.

What though each one alone
Helpless and weak be shown
As in the arch each stone,
Useless apart;
But with his fellows met
And in the fair curve set,
Each mighty aid shall get,
Each strength impart.

Alpha Rho Chi, all hail!
Thine arch shall never fail,
How'er the world assail
Its fabric high;
Founded on pillars strong,
No force shall do thee wrong;
Sound shalt thou stand and long,
Alpha Rho Chi!”
PLANS FOR THE FALL
RUSHING ARE VARIED
(Continued from Page 1)

vocation primarily for new students at Michigan. "That night we always plan to have as many Freshmen as possible at the house for dinner and after giving them as good a time as we possibly can with songs and fellowship we accompany them to the convocation.

"We have some faculty member at the house every time we have a prospect, if possible. Some of the faculty are very active during the rushing season and do all they can to assist us. We have had stiff competition from the general fraternities this year because they started about a week before we did, but Ikinos has some good men in view."

Alumni Meet Rushers

Mnesicles chapter was slow in starting as were the brothers at Michigan. The plan was for the chapter to act as a committee of the whole under a rushing captain. A program of lunches and dinners at the house, theatre parties, and a smoker to which alumni were invited to meet the rushers were the chief points of contact. An effort was made to have each Mnesicles man become acquainted with as many newcomers in the department as possible, assisting them in registration, etc., and seeing that they attended the first football games.

No special plan of campaign was reported by either Anthemos or Paeonios chapters. However, the Illinois chapter announced the following men before this issue of THE ARCHI went to press: (Note that the following lists are preliminary up to press time. Watch next month’s issue.) George F. Beam, Robinson, Ill.; Hodge Jackson, Mt. Carmel, Ill.; Boydston Satterfield, Raleigh, N.C.; Homer Le Tissier, Bath, Ill.; Donald H. Hunt, Chicago; H. G. Guiney, Sioux City, Ia.; C. R. Paulson, Riverside, Ill.; Willis Earl, Kansas City, Mo., and Buford Pickens, Oak Park, Ill.

George Beam is a brother-in-law of W. S. Arrasmith, alumni member of Anthemos. He is taking straight architecture, in which we know he will make good. He’s a live, wide-awake chap from whom we look forward to big things: "Jack" Hanson is registered in architectural engineering. He has had a little practical experience in architecture, although he came directly from high school.

Two Transfers To Illinois

Boydston Satterfield is a transfer from North Carolina State, registered in straight architecture. "Sat" is a track man, has played some football and done some swimming. Homer Le Tissier is a transfer from Oklahoma A. & M. College, where he was registered in architecture. Here he is taking straight architecture. "Tish" rates high as a musician and will be a mainstay in the Freshman orchestra which we hope to organize.

"Don" Hunt has ability as an organizer. We are looking forward to things from him as business manager of something or other. Pledges Guiney, Paulson and Pickens are all registered in straight architecture. Hunt is going out for swimming. Pickens is a tennis shark of considerable ability. Earl is a Junior in the department of landscape architecture. He is out for the intramural tennis championship.

The first three Ikinos pledges are Russell Radford, Jackson, Mich., an end on his high school football team and at present out for the All-Frosh; Robert Moore, Bellevue, Ohio, whose accomplishments will come to light later; and Allan A. Stewart, who has been at Kalamazoo College for two years.

Ohio State With Nine

In announcing their first nine pledges of the fall the Demetrios chapter correspondent says: "We are counting on several more men, but feel that the results of this fall’s pledging are very satisfactory. The Demetrios pledges are Paul C. Kuck, New Knoxville, O., a freshman who participated in track, baseball and basketball in High School; Karl F. Franz, also a three-letter man from the New Richmond High School; Carl E. Kendall, who is a Freshman; Karl Woditsch, Dayton, O., Sophomore from the University of Cincinnati; George H. Ferrenz, Springfield, O., a Sophomore from Wittenberg College; Carl F. Wehler, Lima, O., a Sophomore; Louis Klingel, Bexley, O., a Sophomore; I. Richard Lee, Charleston, W. Va., who has had much office experience, and William Reed, Toledo, O., who we have just pledged.

As THE ARCHI went to press Mnesicles had pledged six men—Kenneth Backstrom, Pipestone, a younger brother of Emil; John ("Jack") Witherspoon, St. Paul, a Sophomore from Penn.; John Grisdale, Minneapolis; Ai Flagel, Powder River, Mont.; Herbert Jenning, St. Paul, and Vernon E. Peterson, Minneapolis. Pledge Peterson has a job cut out for him at the piano.

Andronicus chapter pledges are Francis Morehead, Dick King, Noble McVay (Sophomore), Rodney McClelland (Junior), Francis Parsons and Roswell Allison.

Paeonios, our baby chapter, writes that seven men have been pledged so far this year, three Sophomores and four Freshmen. The Sophomores are: Gerald Ibach, Ponca City, Okla. Ibach attended Oklahoma A. & M. last year; Ben

FROM THE W. G. A.

To Horace W. Tousley, Editor:

We wish to assure you of our hearty co-operation in your new work and to wish you for the best of success. A healthy national publication is one of the most necessary means we have of building a strong and united fraternity. The progress made on the paper last year was very encouraging, and if further progress can be made this year, we will have an Archi of which to be exceedingly proud.

To the Active Members:

Although a good beginning does not insure a successful ending, I believe you will agree with me that it is a very desirable asset. This is the time of year when each chapter must attack its problems in earnest if it is to live up to the standards demanded of it by Alpha Rho Chi. If your chapter has been deficient in morale, in enthusiasm, in finances, now is the time to meet and overcome these difficulties before they become too deep-seated to be adequately remedied. This year we complete our first ten years as a national fraternity. The only goal which it is possible for us to set for ourselves as a successful climax to these last ten years is the goal of seven strong, solid chapters, a strong, active alumni organization and a strong, efficient Grand Council. We can gain this objective if each of us assumes his proper responsibility to the fraternity and obtains for himself a proper realization of the high ideals for which Alpha Rho Chi stands.

To the Alumni:

It seems that there is right at this time just one outstanding responsibility resting on us alumni, and that is to send in our Archi subscriptions. The most of us as alumni members, realize what the fraternity means to us and what it has done for us, but we have not had very much opportunity to render it a service since we left the chapter fireside. Here is something we can do for our own good as well as for our fraternity's, sit down immediately and send a paltry $1.50 to THE ARCHI at the address given on the subscription blank (a few words along with it will be appreciated).

—D. P. Ely.

The 1923-24 Archi

As the humble editor sits in his room under the blazing gas light he is confronted with a problem that leaves a pleasant sensation in his heart. Too much copy for the October issue! He has cut, boiled, slammed and cut again and still this greeting must be limited because of space.

But we must call your attention to some of the service features of this issue which we feel should mean something to the fraternity. The Who Knows' column, "The Calendar" and "The Betterment" corner were inaugurated to fill distinct needs just as much as the fraternity directory on this page.

Many men have lost touch with the fraternity and the fraternity with them because of address changes. A desire for some campus news has been expressed by some alumni. We do not propose to take the place of any school alumni journal, but "The Calendar" and later on news on campus building is to be offered in answer to this plea.

In the corner devoted to the "betterment" we propose to encourage the revealing of the inner problems of the
At the Round Table

Under the above heading it is the expectation of THE ARCHI STAFF to present from time to time matters in which the whole fraternity is concerned, matters under consideration by the Grand Council, which will in time come before the local chapters for their attention.

This month we are pleased to present two communications from men who have in the past done much for the good of Alpha Rho Chi. The first is from Brother Leo Michael Bauer, who has the distinction of having been the first Worthy Grand Architect and who with Brother Chandler C. Cohagen perfected the early organization of the fraternity which we are proud to call our own. The second letter is from Brother Newcomb, Grand Lecturer. We look forward with a good deal of anticipation to the culmination of Bro. Newcomb's plans.

Bro. Bauer's letter was intended to be published in a Founder's Day edition of THE 1922-23 ARCHI which unfortunately did not materialize. However, the spirit and content is pertinent as the various chapters are in the midst of their fall growth. Alpha Rho Chi was nine years old last April 11th.

CONCERNING THE RITUAL

Men of Alpha Rho Chi, Worthy Brothers:

I make my bow in recognition of my appointment to the office of Grand Lecturer of Alpha Rho Chi. The aims and ideals of the Fraternity and their correct interpretation into symbolic and inspiring lectures I take it comprises a

just the organizations we represented at that memorable meeting in Chicago, April 11th, 1914, long since passed. We tried to foresee and to visualize just the condition which is apparent today. We attempted to build a foundation of brotherhood and fraternity for you who are worthy, that you too might enjoy the union of brotherhood in a fraternity of men. We, as others, have passed on, and those who have followed have built on that same foundation until today we see a wonderful structure, enthusiastically built, and immeasurably greater in stature and achievement than was ever imagined by the first Grand Council, or those charter members of the first two chapters.

I congratulate most heartily those men who are privileged to be members of this fraternity. See to it that you will ever honor her, those principles and ideas for which she stands, just as she has seen fit to bestow them upon you. Truly a solidarity of intent and purpose—our fraternity of men—Alpha Rho Chi.

NEW DIRECTORY LIST
PROSPECT NEXT TIME

Only the Immediate Cooperation

Of Every Man Will Make

Plan Successful

It is of the utmost importance that every member of the Alpha Rho Chi fraternity be accounted for on the rolls of the fraternity. In order that updated information may be had a blank is supplied on this page. Fill out and mail it to THE ARCHI.

Alumni members kick every year because the local chapter does not keep them posted, and usually the local chapter can not do this because it is impossible to keep the address lists correct without the cooperation of those same alumni.

Let each man, alumni, honorary, inactive, or active, fill out the blank below. Those men who have not yet sent in their subscriptions will also please fill out the other side of the data blank. If you have subscribed do not neglect this side of the form.

If IMMEDIATE cooperation is given by each and every member, the November issue will contain a complete revised directory; that is, if YOU do your part. If you know the whereabouts of any of the men listed (page 3) please let THE ARCHI office know. We are cooperating with the Grand Council and will relay new addresses to the local chapters.

Fill Out Both Blanks

DATA BLANK

In order that local and national records of Alpha Rho Chi may be brought up to date EVERY brother is expected to fill out this form, even if he has previously subscribed to THE ARCHI. Mail to THE ARCHI:

BERKELEY, Calif., Oct. 11, 1923.—In answer to your editor's request for a little dope on the Berkeley fire I'll give you a brief description. The morning of the 17th of September there was a sixty-mile easterner blowing. That is common in our country, but for California it is unusual, as are all things that do not coincide with the boastful tales of the natives regarding the ideal climate of California.

By noon the atmosphere was hazy with smoke from grass and brush fires in the hills just east of town. At two o'clock the smoke became so thick we could no longer see the sun and the uptown section only began to realize the situation when we heard ten or twelve fire companies going out to North Berkeley. I called my mother, for my home was in a section out of the path of the smoke, and she told me the whole North Berkeley section was afire. We closed the office and went to meet the fire.

A majority of the houses had shingle roofs and had either stucco or shingle walls. Fire fighting apparatus was useless in the path of the fire, and could only be used along the edges to keep it from spreading out. From the roof of an old frame church, where a dozen or so were working with wet rugs, and an old-fashioned bucket brigade, I saw the entire block ahead of us take fire inside of five minutes.

By four o'clock every spare company from this side of the bay along with seven from San Francisco that had been ferried over were arrayed along Shattuck Ave., the widest street, and the street that is considered the main business district.

A truck of dynamite had arrived from the Hercules Powder Co., ten miles above town. The combined effort of their men, the assistance of fully half of the male population and a change in direction of the wind managed to check the flames. Had the wind not reversed it would have swept a path through both Berkeley and Oakland to the bay.

Fully ninety per cent of the people in the fire district fled with only what they could carry in their hands. We moved furniture and clothing out into the streets and vacant lots only to see it smolder there. I saw nearly all the valuable things of an elderly lady friend by moving them into a vacant lot and then covering them with rugs and bedding that I had soaked with water.

When darkness fell I went up to what is known as Inspiration Point, a point overlooking the entire burned area and about fifty blocks of our best residences were just a glowing furnace of fire and chaos. The loss aggregated ten million dollars, only fifty per cent insured.

Since then we have been working almost day and night on reconstruction. A week after the fire we had a $50,000 apartment rebuilding. And last week we turned out a hundred thousand dollar apartment, and I am working on two more now. We also have some dozen or so residences too. I serve in the capacity of chief draftsman and am superintending about three hundred thousand dollars' worth of construction at the same time.

Fill Out Both Blanks

LYONS USING SLIP STICK

Alpha Rho Chi has a number of men located in Grand Rapids, Mich., according to Glenn H. Lyons, Mnesicles, who is so busy again in the architectural game, after having been out of it for a year, that he was unable to accompany his good wife on a pilgrimage to Minneapolis. In part Glenn says, "Since the former engineer for Turner & Theband, school architects, left last winter I have been taking care of the structural engineering work in the office. We have been very busy this summer and have prospects for a busy winter ahead of us. However, I hope to be able to run back to Minnesota for a few days and renew acquaintances before next summer."
THE BETTERMENT
Of The Fraternity

We brothers of Iktinos had, for some time back, been developing the habit of either working in the drafting room or watching football practice until such a late hour that we were late for dinner. We used to come stringing in from five minutes to half an hour late every night, and because of this the dining room began to have the appearance of a boarding house. To remedy this condition we imposed a fine of ten cents for every lateness, providing further that the only excuse acceptable should be one given to the head of the table before the meal. Needless to say the fellows have been lined up outside the dining room door waiting for it to open at every meal since then.

A feeling came to the men of Mnesicles that for some reason their table manners and talk had become a little lax, in other words not what it had been at home. To offset the tendency it was proposed that if the blessing were said at every meal that it would tend to remind fellows individually to watch out. As one of the brothers expressed it, it is now safe to take a lady to the house unannounced. As a step farther in maintaining the home atmosphere the matron is to be approached with the proposition of eating with the fellows at least part of the time.

Iktinos has a Father's Day near the close if the school year, at which time most of the “Dads” spend a week end with us. In that way we all get acquainted and at that time we try to have an exhibition of the work the fellows have been doing through the year.

We of Iktinos have also formed the habit of singing various college and fraternity songs between courses at the dinner table. Our song “Once there was an A.P.X” is very popular, and each year the pledges are required to make up a new verse to be added to it. They spring this new verse on the rest of us during our traditional “Hell Week.”

THE CALENDAR
For Alumni Use

October 27
Illinois vs. Northwestern, Chicago
Michigan Aggies vs. Michigan, Ann Arbor
Iowa vs. Ohio State, Dad's Day, Columbus
Minnesota vs. Wisconsin, Madison
Mnesicles Halloween Dance, Minneapolis
So. California vs. Stanford, Palo Alto

November 1
Demetrios, All Architects Smoker, Columbus

November 3
Chicago vs. Illinois, Stadium Home coming, Urbana
Michigan vs. Iowa, Iowa City
Dennison vs. Ohio State, Columbus
Northwestern vs. Minnesota, Minneapolis
Missouri vs. Kansas Aggies, Home coming, Manhattan; Paconios House Dance, Manhattan.

November 10
Wisconsin vs. Illinois, Dad’s Day, Urbana
Quantico Marines vs. Michigan, Ann Arbor
Ohio State vs. Purdue, Lafayette
California vs. So. California, Home coming, Los Angeles

November 17
Mississippi A. & M. vs. Illinois, Urbana
Michigan vs. Wisconsin, Madison
Ohio State vs. Chicago, Chicago
Iowa vs. Minnesota, Home coming, Mpls.
Arizona vs. So. California, Los Angeles

November 24
Illinois vs. Ohio State, Home coming, Columbus
Minnesota vs. Michigan, Home coming, Ann Arbor
Iktinos Annual Fall Party, Ann Arbor
Idaho vs. So. California, Los Angeles

AN INTERESTING CORNER OF THE MINNESOTA CAMPUS
FOR DELEGATES TO THE COMING A P X CONVENTION

As the primary point of interest there is the stadium which is to be completed in time for the games next year. Bro. Frederick M. Mann, head of the Department of Architecture, has been commissioned architect to design the stadium. Bro. Leon Arnal of the department staff, we are advised, will assist.

Directly across University Avenue, between 19th and Oak, is the property owned by the Mnesicles chapter, Fraternity Court, where the home designed by Brother Arnal will, they hope, soon be built. The present house is at 16th and University.

In the “engineering group,” the U-shaped building facing Church street is the Main Engineering building, the third and fourth floors of which are occupied by the architects. The building toward Union street is the Experimental building, while that toward “the house” is the proposed Electrical-Mechanical building. That portion lined off next to “M. E.” is the electrical wing, which is now under construction.
ANTHEMIOS
University of Illinois

Anthemios chapter lost two men by graduation last June. Andrew Phillips is with Mountijay and Frewen, Patterson building, Denver, Colo. While Bro. E. V. Gauger is with E. T. Hutchins, architect, Louisville, Ky. His address is 125 Kentucky Ave., Louisville.

The opening of the new Illinois Stadium will make homecoming at Illinois, Nov. 3, the most memorable homecoming in the history of the school. Brother W. I. Hamby '25, is in charge of decorations for the Stadium. A large number of Anthemios men are expected back for that week end. We are out for the house decorations cup this year.

A studio party was the plan formulated for the first house dance of the year Saturday night, October 13. George Olcott, '25, was chairman of the committee in charge of arrangements. Other members of the committee were Charles R. Sutton and Chris Bergman '25.

Bro. J. A. Boyd, '25, has been mentioned for preliminary honors for scholarship.

Fifty new students in the department of architecture attended the annual smoker given by Anthemios chapter Thursday night, Sept. 20, at the chapter house. Talks were given the new men by Prof. L. H. Provine, head of the department of architecture, T. S. O'Donnell and G. F. Koch, instructors in the department, and all members of Alpha Rho Chi. Refreshments were served.

Current officers of the Anthemios chapter are Raymond C. Olson, W. A., of Chicago; Harford Field, W. A. A., of Racine, Wis.; Paul S. Hall, W. E., of Champaign, Ill., and Albert W. Wenthe, W. S., from Effingham, Ill.

G. F. Kech, Anthemios, '20, has been appointed an instructor of architectural engineering design in the department of architecture. Bro. and Mrs. Kech have taken an apartment in Champaign. Brother T. E. O'Donnell has been appointed an associate professor in architecture.

After having been away from the architectural game Bro. R. H. Thiele, Ramsey, Ill., is planning to pull up stakes and set forth in the interior decorating game. He will leave his old stamping ground, about Jan. 1 for San Diego which struck his eye when he was out there last winter.

Guiney brought down the house with a mean dance. "Sat" came back strong with a clever reading in Negro dialect,—in fact all of the plows showed up well Wednesday night, Oct. 10th, when Anthemios men entertained Phi Kappa Tau actives and pledges at the chapter house following the first pajama race of the year. Phi Kappa Tau freshmen won the relay race by an easy margin, after which cider and ginger bread were served at the chapter house. Following this freshmen of both houses were put through a series of stunts.

Fill Out Both Blanks

IKTINOS
University of Michigan

Attention of the College of Architecture, and for that matter the attention of the whole campus, was focused on the annual Architects' Ball, which was held in the Armour Gymnasium, on May 11th. The decorations were Egyptian in character.

Nov. 24 is the date of the Home coming game with Minnesota and of our annual fall party. If any of the Mnesicles brothers come over for the game, you are heartily invited to enjoy the occasion with us.

"Ed" Kline spent a hard summer on the tennis courts and has returned to school in order to take up some advanced work in design under Mr. Eliel Saarinen, who is to give a course here for advanced students this fall. Bro. Kline is also "assisting" in the mechanics courses.

Bro. "AI" Naser came back to Summer School for some advanced work and is now out in the wide, wide world.

Bros. Howard Farley, "Morrie" Rogers, and Ralph Denmon, spent their summer wrapped around some architect's drafting table, helping to make more money for "The Boss."

After spending at least part of the summer taking an inventory of all the pretty girls in Albany, and at the completion of his work deciding that his education wasn't yet complete. Bro. Fred Morse has returned to school to take some Post-Graduate work in the Literary College.

During the last two weeks of school last June we held a special initiation at which time three new men were taken into the Fraternity. These men are Brothers Orrin Griffith, Mount Clemens, Mich., Harold Pine, Detroit, Mich., and Gilbert Richley, Greensburg, Ind. These men are all in school this fall and are taking an active part in the fall rushing.

In a vain attempt to get ten seats in a row for the Ohio State game, ten days after the stands had been sold out, Bro. Harold Kiefer lost nearly ten pounds of weight! He hasn't missed it yet, however, because the other 220 are still there!

Nearly all the Alumni who are within traveling distance expect to come to the Ohio State game on Oct. 20th, so the old house will probably see a grand reunion that night.

Bro. Arnold B. Berg is now located at 318 25th Ave. W., Duluth, Minn., but we can't find out anything else. Drop us a line old man.

Fill Out Both Blanks

DEMETRIOS
Ohio State University

Demetrios held its Founder's Day banquet April 14th at the Chittenen Hotel. In an outburst of expectation places were laid for sixty, eight failed to arrive keeping us from having the largest banquet ever. Prof. Rexford Newcomb, Grand Lecturer, helped make the banquet memorable.

Our formal March 16th was a very passable dance. We base our decision on the fact that none of the brothers objected very strenuously to the customary fee for such occasions. Is this not a fair criterion?
We held our Greenwich party on May 25th. Of course King Tut was represented and a tomb was newly constructed in his honor.

Juniors were represented on April 7th at a dinner and house dance. Due to the efforts of Bro. McMurphy every kind of noise-maker ever invented, including the rattling co-ed, was on deck, and the party went off with a bang.

From the above paragraphs it would seem that Demetrios does nothing but play. We plead not guilty. We do find time to get Saturday's problems in on Monday, and even consider getting sketches in on time. In evidence of the fact that we have some men who are holding up the scholastic record we might add that Clarence Badgley has annexed a new smart tag, i.e., Tau Beta Phi. We always wondered what "Badg" stood for—now we know.

Brother Eggert attended a convention of Pi Delta Epsilon at Lawrence College, Appleton, Wis., last spring.

Two of our wandering brothers, Herman Lovejoy and Bill Mullay, have returned to Ohio from far off California. Mullay is for the present with Miller & Reeves of Columbus.

Brother Ralph Fanning has returned from abroad and has resumed his duties as Professor of Art History.

We have with us again this year Bro. George Crambley, who has been absent from school for a year.

Our house was open all summer as several of the active chapter remained in Columbus. Brothers Thomas, Kaltenbrun, Badgley were in school for the summer quarter, Brothers McMurphy, Williams, Jones, Legge and Eggert had summer positions in the city.

Demetrios entertained with a pledge dance at the Seneca Hotel on Friday evening, Oct. 12th, in honor of the new men.

Oct. 27th will be observed as Dad's Day. The Iowa game, and a dinner and smoker at the chapter house will furnish entertainment to such dads as will be able to spend the day in Columbus.

An all architect smoker, under the supervision of the Architect's Club, of which Brother Bill Williams is the president, is on the calendar for the first of November.

The annual Smock Dance, arranged as a reception to the new students in the department, will be held about the second week of November.

Nov. 24th is the date of the Homecoming Game. Illinois is the party of the second part, and we are expecting many men from Anthemios to make the trip. Plans are under way to in part repay them for the wonderful hospitality they extended to those of us who made the trip out here last year.

Ohio State's new quarter plan gives only one day of vacation Thanksgiving, so most of the boys will have to remain in Columbus. A Thanksgiving party with all the fixings is promised to make the day complete. According to all reports he will be indeed a hero who manages to get his eight o'clock the following morning.

A Christmas Dance and the class parties will enliven the holidays, and our formal will in all probabilities be the last week in February.

Demetrios has a lot of new furniture this year—the gift of the alumni. It has sure peppe up the appearance of our house.

Brother George Fraser, Mnesicles, has accepted a position on the architectural teaching force of Cornell University. "Doc" Oman '20 is filling the place vacated by Brother Fraser in our department.

**Ohio Chapter House**

"We Have a Lot of New Furniture"

Brother Joe Black, ex '22, is now studying at Columbia University.

Demetrios announces the marriage of Paul L. Wood '23 to Miss Helen A. Pickerell, and Howard E. Leto '21 to Miss Coletta Kelley.

C. D. Badgley and E. F. Eggert, who received their degrees last December, are both with Miller & Reeves, Columbus.

Demetrios graduates of June are now engaged as follows: J. N. Arnold, in the offices of Wysong & Jones, Architects, Charleston, W. Va.; P. L. Wood, with H. D. Smith, Arch't, Columbus; M. F. Ross, Boyjohn & Barr, Contractors, Columbus; B. F. Benick, contracting at Cambridge, Ohio, and R. M. Krob, with Howard Dwight Smith, Columbus.

Men leaving school last spring were: Bro. H. L. Schenck, now with Gars, Architect of Indianapolis; C. H. Bacon is studying music at Fon du Lac, Wis., while M. L. Worthley, J. T. Beani, J. W. Green, and R. D. Ayres, who spent the summer in North Dakota and points west, were unable to get back to school for the fall quarter.

Brother J. E. Thomas, Jr., of Marion, O., is guiding the destinies of Demetrios chapter as W. A. this fall. With him are associated the following officers: D. F. McMurphy, W. A. A., New Richmond, Ohio; D. H. Early, W. S., Van Wert, Ohio; J. A. Kaltenbrun, W. C., Columbus; O. D. Coston, W. E., Bessemer, Ala.; G. H. Birch, W. Supt., Springfield, Ohio, and F. J. Abendroth, House Manager, Bueycus, Ohio.

**Fill Out Both Blanks**

**Mnesicles**

University of Minnesota

For the past two years Mnesicles has won the cups offered the winner of the professional division in the fraternity bowling league. This year we not only intend to win the local tournament but also the "Big Ten" Championship when the telegraphic meet is held. Last year we also won the basketball cup and are out for it again this coming season.

As a part of the rushing program we gave a smoker at the chapter house which was attended by alumni as well as rushees and actives. The committee in charge procured splendid outside entertainment in the form of singers and a dancer. Some of the stickers were much subdued when the dancer devoted all her attentions to Prof. Leon Arna.

The first of the month we also held a theatre party at the Shubert, and of course wound up at Child's "cabaret."

Every year some of the fellows feel the call of the west, north, wild or something and feel that they must travel. Roy Boxmeyer '23, Chet Carjola '25 and Merrill Madsen '26 left this fall for the west in Maddy's car. Their first month on the road included visits to the Yellowstone, the Universities of Montana, Washington, and British Columbia, at Vancouver. As THE ARCHI goes to press the boys will be in Frisco, but we hope that this warning gets to Los Angeles before the Andronicus gang is taken in by the motley crew. Howbeit, gentlemen, judge for yourselves. While at the U. of Washington the fellows saw "Prof. Ham."

Of the June grads, Dick Hennessey is with the architectural department of the Minneapolis school board, Elting Johnson (last year's managing editor of THE ARCHI) is working in Huntington, W. Va., while Richard Magee is teaching at the North Dakota State Normal.
Plans are under way now for a Halloween dance, Oct. 27th, at the house. All men in the Twin Cities are directed to govern themselves accordingly.

On May 11th, Brother Chet Carjola was responsible for our most enjoyable formal. We journeyed out to the Interlachen club of Minneapolis and in spite of a belated cold spell we had that week-end, everybody enjoyed themselves even forgetting that it was a "soup and fish" occasion.

Just before the close of school we bought—emphasis on the bought (as Brother Nystrom)—stole or borrowed conveyances enough to carry the crowd out to the Weequah Canoe Club house on the shores of Lake Phalen, St. Paul, for our annual picnic. With swimming and canoeing to help, make it a line place we had a hard time keeping the crowd together. In fact it was difficult to get the gang gathered long enough to eat. The day is also memorable because Brother Nystrom swears that he made his first payment on a Chevrolet. Anyhow, we want to go out there again, eh,what?

With the departure of Chet Carjola, our house manager, it became necessary in the course of human events to elect a new one at the first meeting. Paul E. Nystrom was elected to complete the roster of officers which is now as follows: W. A., Wallace C. Bonsall, Minneapolis; W. A. A., Anton Johnson, Tyler, Minn.; W. S., Clarence J. Olsen, Clear Lake, Ia.; C. N., Aubrey H. Gris- son, St. Paul; W. E., George F. Free- berg, St. Cloud, Minn., and W. Supt. Herman M. Frenzel, St. Paul. P. S. Paul hails from Duluth.

With "Ham" back from Harvard, Harry J. Korslund has got East to hold up the honor of Minnesota and Mne- sicles this year. Don Graf is going on making his debut at "Ould Harvard" next year. Here's hoping "she" holds him to his purpose. Don is located with Alexander Rose, Minneapolis, succeeding Hammett.

By the way "Pete" has relented and now announces the birth of Leonore on April 10th. Harold was disappointed because his second was not a boy, but the second little lady has won his heart and all is well.

Not only did Dan Cupid lay "Kleine" low this summer but he also caused the fall of Harry David, Ex '19, and Edward M. Loe, 20, both of Mnesicles. Ed was married on June 12th to Laura Peck, while a week later Harry became the husband of Mary Maher. Bro. Loe is now with Warren & Wetmore, New York, and resides in Brooklyn. The advertising game has attracted Brother David and he has offices of his own in the Merchants Bank Bldg., St. Paul.

Edgar W. Buenger, Mnesicles, is now located in Cleveland as the resident superintendent for Ellerbee & Co. of St. Paul, on the new clinic buildings. Ed's address is Suite 16, 1743 Eddy Road, East Cleveland.

Cigars were passed twice in the office of C. H. Johnston, state architect, St. Paul, this fall when Brothers John R. Corwin and Stewart V. Wright, both of Mnesicles announced arrivals of the stork. Marilyn and Stewart V. Jr. are extended the greetings of Alpha Rho Chi and their mothers and fathers the congratulations and best wishes.

**Fill Out Both Blanks**

**KALLIKRATES**

University of Virginia

Brother Gregory, by the way, was last year's ARCHI correspondent and aided materially with this issue.— Editor.

We celebrated Easter week in the traditional fashion at Virginia. There were dances every night and dates with girls for something (tea dances, games, lunch or supper) every day. The girls came from all parts of the country, as far as Minneapolis and Texas, if not farther, and they didn't fail to register. Only two of the brothers had girls up, but practically all of us took part in the celebration.

We planned an informal soiree for Thursday, April 12th, the day before Founder's Day, which is the only holiday granted by the University except Christmas. One of the brothers took part in the dancing of the minuet by four couples on the lawn at Monticello, Jefferson's home, Friday afternoon.

During the summer the brothers were busy gaining practical experience and more or less financial remuneration. O. W. Brown worked in the university architect's office, Marshall Wells for R. H. Hunt, architect, at Chattanooga, Tenn., while Harold Via "assisted" his father who is a contractor here in Charlottsville. R. G. Gully was with one of our railroads, while Fendall L. Gregory traveled north to spend the summer with Delano and Aldrich, New York city architects.

Kallikrates, first alumna, Brother S. J. Makielski, is on the faculty here teaching drawing, painting and construction.

Two of our fellows who started work in June have not returned to school this fall as yet. We hope to see them before the year is out. Henry J. (Heine) Lawrence worked for a firm of architects in Bluefield, W. Va., while E. D. (Ek) Everhart drew his stipend from H. B. Hunter, architect, at High Point, N. C.

Bro. W. S. (Dick) Dixon, our only June grad last year, is now teaching in William and Mary College, Williamsburg, Va. He worked in an architectural office in Norfolk this summer.

**Fill Out Both Blanks**

**ANDRONICUS**

University of Southern California

Officers for the current semester are as follows: George C. Anderson, W. A.; Lionel C. Banks, W. A. A.; Lowell Pidgeon, W. C.; Claude Norris, W. S.; Melville Lemon, W. E., and Randall Duell, house manager.

One thing that we have in view for the fall is an upper-class competition, to be fostered and prizes given by the chapter, open to all upper-class members of the department and advertised as such.

We have through hard work and persistence finally achieved the impossible and received recognition from the Allied Architects Association and the Los Angeles Architects' Club. Plans are under way whereby the department will receive a gift of $3,000 for architectural books. This sum was originally slated for the architectural department of the Southern Branch of the University of California situated here in Los Angeles. The Southern Branch department is no longer in existence, and we are to be the recipients. Before the department at S. B. of U. C. was discontinued we had convinced the Allied Architects into giving us half of the amount; now we will receive it all.

Our department here at U. S. C. has been attracting the interest of the local architects. During the coming year we are to hold several exhibits in the quarters of the Architects' Club of Los An-
geles. It is rumored even that the staid and prosaic local chapter of the A. I. A. is interested enough to consider the founding of a scholarship here.

An increase of nearly 100 per cent has taken place in the student body here.

Last year the department had about forty-five majors in architecture and architectural engineering. The third day of school eighty-four had registered, and at this writing they are still coming in. Because of the discontinuance of the department at S. B., we have taken in some sixteen of their best men and as many as were unable to pass the requirements have been turned away.

With many new men in the department this year we feel that our smoker for them and their friends, Ex-Members, is going to be the beginning of friendships with future brothers in Alpha Rho Chi here. A house dance for pledges was on the program Saturday evening, October 6th.

A golf tournament (interfraternity) is to be held this fall prior to which we are to hold a chapter elimination to select a team. Bro. Mark Hallen is conceded to come out high, for he is quite a player.

During the summer the members who remained in town worked for various architects and firms here: E. E. Murphy, Past W. A., landed with Parkinson & Parkinson, one of the oldest offices in the city; C. Anderson, W. A. just now, spent some time in the office of Myron Hunt, but later worked for himself. Bill Lundeberg spent all summer in the office of Summer Spaulding. R. H. Crawford has been a member of the firm of Douglas & Rait, but will continue his work in the department. Randall Dull, our esteemed house manager, worked for the Southern California Clay Products Co., while S. M. Cundiff worked at the Tropical Pottery Inc., which also manufactured architectural terra cotta.

A P X men who graduated from the department last year were Donald Barnett, who is doing very well in the office of Allison & Anderson; Paul Silvius, who is working with his father in the building game, and Glenn Ziegler, Ex-Members, who is employed by the City Park Commission.

In the Santa Barbara small house competition which started the middle of the summer and was judged the latter part of September, three brothers of the local chapter, while not drawing any prize money did receive special mention. They were George Anderson, Randall Dull, and R. H. Crawford.

Andronicus is well represented in the offices of the architectural club with brothers holding four of the five offices as follows: Paul E. Murphy, Pres.; Rodney McClelland, Vice Pres.; Roswell Allison, Sec., and Curtis Chambers, chief bouncer.

Brother Norris 25 has been appointed architectural correspondent on the university daily, the Southern California Trojan.

Many prominent and nationally known architects are on the faculty at U. S. C. this year, including Myron Hunt, Bro. Carlton Winslow, Kenneth Carpenter, David Allison, Julian Carnesey (the mural painter), Henry E. Cheney (city planner), Reginald Johnson and others. Massachusetts Institute of Technology has a monopoly on the design staff with Sumner Spaulding, Everett Harman and Kenneth Carpenter all being Tech graduates.

Pledge Bachman of Itinos, who has come to Los Angeles to live has entered the department and has been pledged for Andronicus.

Most of the summer meetings of the fraternity were held at Ye Olde Bull Ten Inn with many of the alumni present. Two mountain parties were put over during the summer.

By the way, a petition is reported to have been sent the Worthy Grand Scribe by some eighteen or twenty alumni from various chapters to form a Los Angeles Alumni chapter. (Note-Brother Petersen is still looking for that aforementioned petition.)

Brother Cundiff, Andronicus was ill the first part of October and Paul Murphy stood by in true fashion and assisted with copy for THE ARCHI.

And the Ancien Spake Unto Them Saying:

1. I am the Ancien, I am thy Lord and Master; thou shalt have no other Masters but ME.

2. Thou shalt not make unto thyself any SMOCK that is the likeness of any smock of the Ancien; thou shalt not wear any smock but a GREEN SMOCK.

3. Thou shalt not enter, unbidden, the sanctum of the Ancien.

4. Five days shalt thou NIGGER and SLAVE for the Ancien, to the end that he shall aid thee in the rendering of thy feele problems.

5. Honor the Ancien that when thou shalt also become an Ancien, thou shalt also have Honor and Niggers.

6. Thou shalt attend with great punctuality the meetings of the SoCIETY OF ARCHITECTS.

7. Thou shalt finish the decorations of the walls of the temple e'er the cold blasts of winter fall upon our land.

8. THOU SHALT NOT BORROW.

9. Thou shalt not QUEEN the UP-PER CLASS WOMEN.

10. Thou shalt not covet thy neighbor's board; thou shalt not covet thy neighbor's instruments, nor his tee square, nor anything that is his.

These things shalt thou do that thy days may be long in the land of the Atelier; for the ANCIEN IS VENGEFUL, and he that putteth on a proud spirit shall surely find himself in the POOL OF SILOAM—AMEN.
DEMETRIOS HONOR MAN TO PRACTICE IN CHINA

Walter A. Taylor To Serve Church Mission Board Five Years

Walter A. Taylor, Demetrios '21, is now on his way to China to serve the Episcopalian church in an architectural capacity for a five-year period. Enroute he will spend six weeks in Europe and continue his journey to the Far East by way of the Suez canal.

Brother Taylor, a Tau Beta Pi by the way, was appointed last summer by the Protestant Episcopal church as assistant architect in the District of Hankow. His work will consist mostly of churches, hospitals and residences and will take him over most of the central part of China.

While in China, his residence will be at Boone University, Wuchang, China, across the river from Hankow. Taylor was connected with the Johns-Manville people with headquarters in Cleveland when he signed up to go into the mission field. Brother Taylor will be at his post about November 1st.

WESTERNERS LOSE PINS

It has been noted that Bros. Glenn Ingle, Mel Lemon, Claude Norris, and Stanley Cundiff have appeared around the house minus their pins (of course, they have plausible stories about laundry and the like), but, nevertheless, these A P X pins are sparkling on the bosom of the like number of U. S. C. co-eds, one of whom lives at the Alpha Gamma Delta house. No questions are being asked, likewise no information is forthcoming along with the cigars, but just the same, then teang is waiting what the heck!! How come? ??

RALPH HAMMETT TEACHES DESIGN AT WASHINGTON U

Ralph W. Hammett, a former instructor in architecture at the University of Minnesota and well known in the architectural profession in the Twin Cities, has been appointed an assistant professor in the University of Washington, Seattle.

He will teach advanced architectural design. Mr. Hammett assumed his duties late in September.

A Mankato man, Bro. Hammett was graduated in architecture from the U. of M. in 1919. Subsequently he was employed in architectural offices in St. Paul and Minneapolis, served two years as instructor at the school from which he graduated. He then advanced to the architectural profession in the Twin Cities.

Dr. Fiske Kimball leaves University of Virginia

Publishes New Book Before Health Makes Return North Best

We suppose it is a well-known matter that Dr. Fiske Kimball, who was initiated into A P X at Michigan before going to the University of Virginia, has published another book called "Domestic Architecture of the Colonies and Early Republic" and that the subject of a very scholarly and interesting fashion, according to the reviews.

It was with the deepest regret that we learned after Christmas that Dr. Kimball has resigned his chair here to accept one next year at New York University. The climate here has had an unfavorable effect on his health, and we hope that the Northern climate next year will restore him to his normal condition.

His successor has not been chosen, but Dr. Kimball believed a very satisfactory one would be secured. In all events we will miss Dr. Kimball very much.

SMITH vs. KLEINSCHMIDT

An announcement arrived at the house not long since which read, "Mrs. James Watson Smith announces the marriage of her daughter Mary Nathalie to Mr. Florain Arthur Kleinschmidt on Thursday, Sept. 20th, at St. Paul," or words to that effect. Klinie hailed from Mankato and he and the "Missis" are now at home in Minneapolis, Kan. Paeninos brothers, do your duty.

BOYS FARmed OUT

G. Brooks Deane, Mnesicles, and Fred C. Round, Anthemios, of the Croft & Boerner offices in Minneapolis, have been loaned to the St. Paul City Architect to aid in the rush on the $5,000,000 school building program.

WELLS OF CLEVELAND SELLS SELF A HOME!

John C. Wells writes very enthusiastically from Cleveland about his work and finally comes to the best part of his letter: the announcement of his engagement on Sept. 15th (not superstitiously) to Miss Sylvia Haxai, an officer of the company with which he is connected.

Friend Wells admits that perhaps he has departed from the stern practice of architecture. He is now selling homes for The Representative Company. Apparently he is making good, for he has just bought a home out Lakewood way. With both of them interested in the same game, and Miss Sylvia a graduate of the Cleveland School of Art, the future promises much.
