SPRING BRINGS NEW FRATERNITY GROWTH

April, May, See Gilbert Initiation And the Texas and Carnegie Chapters Established.

It will be the spring of 1924 that will stand for some time as the period in which three major advancements were made by Alpha Rho Chi.

April was marked by the installation of the eighth chapter, Dinocrates, at the University of Texas, Austin; and May by the initiation of Bro. Cass Gilbert as Master Architect and the establishment of the ninth chapter, Polykliitos, at Carnegie Institute of Technology, Pittsburgh.

While Mr. Gilbert was elected to the Master Architechtship two years ago, unfortunately arrangements had not been completed for his initiation until after the death of Dr. Nathan Clifford Ricker, University of Illinois, Alpha Rho Chi's first Master Architect.

Ricker's Memory Honored

However, during the course of the initiation, which was in charge of Mnesicles Chapter actives, the afternoon of May 22, and again at the banquet that evening, the spirit of Dr. Ricker's life seemed to pervade the atmosphere and add dignity and character to the occasion as his physical presence would have done.

That our Brother Gilbert accepted the honor and fellowship with all sincerity and good will was apparent at once to all the members present. From the first to the last, his interest never waned. A spirit of comradeship prevailed and all was over only too soon.

Perhaps it was the cares and earnestness with which the Mnesicles actives entered into their parts together with new sets and costumes, suggested at the Ninth convention, which helped to make the Cass Gilbert initiation one to be long remembered.

(Continued on Page Two)

BEST WISHES IN ORDER

Brother H. G. Overend, Anthemos, ’17, was married April 19th to Miss Pearl Stewart of Wichita. Their residence address is 2625 E. Douglas Avenue, Wichita, Kansas.

ARNAL REFUSES OFFER

Prof. Leon E. Arnal, honorary member of Mnesicles, recently declined an offer from the Massachusetts Institute of Technology, thus expressing his desire to remain at Minnesota. Brother Arnal came to the University of Minnesota in 1919 as Professor of Architectural Design. He will spend the summer months at his old home, 97 Boulevard de Plombiere, Marseilles, France, returning to the Gopher school this coming fall.

ILLINOIS BROTHERS LEAD IN CAMPAIGN

Spontaneous Responses Mark Start Of Life Subscription Drive Following Announcement

Although the actual campaign for life subscriptions to THE ARCHI was not fully under way last month, the announcement that subscriptions would be received brought forth such spontaneous responses that no doubt remains as to the success of the plan.

In the May issue of THE ARCHI it was suggested that sooner the brothers “kick in” with their subscriptions the less it will cost to promote a campaign among the men of the fraternity. Figures were quoted to show that 10 per cent of the receipts of the past year had to be spent for promotion.

With all members ultimately becoming life subscribers this 10 per cent will be saved annually, thus permitting the publication of a better paper. It was also stated that the sooner the brothers subscribe for life the sooner income will be available from the endowment fund.

French Brother Responds

"Sit down tonight," was the challenge, and write Bro. T. J. Strong, W. G. E., 10 Coventry Court, Dubuque, Iowa, telling him whether or not you feel that THE ARCHI should be made a permanent institution in Alpha Rho Chi."

Almost immediately Brother Strong heard from Bro. Leon E. Arnal, Mnesicles honorary: “Why, that is what I am doing. I am sitting down and sending you my life subscription check for THE ARCHI, plus my best wishes for the success of one of the best moves made by Alpha Rho Chi.”

Brother Arnal's volunteer subscription was the second to come in, the first

AN A. I. A. SCHOLARSHIP

A travelling scholarship of a thousand dollars has been established by the Los Angeles chapter of the American Institute of Architects open to all seniors and graduates at the University of Southern California. The chapter also gives a medal to the best all-around Senior graduating each year. Bro. George C. Andersen, Past W. A., won the medal this spring.
SPRING BRINGS A FINE  
NEW FRATERNITY GROWTH  
(Continued From Page One)

paid high tribute to the work of the Minnesota boys.

Three Anthemios alumni from Chicago were present for the affair. Arthur E. Benson, Past W. G. A., represented the W. G. A., while George L. Lindeberg, Chicago A. A., and H. M. Thorud, represented the Chicago Alumni chapter.

In the evening nearly fifty actives of Mnsecles and alumni of Anthemios and Mnsecles chapters sat down to the banquet, in Brother Gilbert's honor, at the Maryland Hotel, Minneapolis. At this affair Brother Benson served well as toastmaster.

First upon the program was the bestowal of the Degree of Master Architect for the fraternity by Bro. Harold R. Peterson, W. G. S., a Mnsecles alumnus who lives in Minneapolis.

Gilbert Wins His Auditors

In his response and acceptance Brother Gilbert spoke straight from the heart and completely won his auditors with his simple brother to brother message for a greater architecture and a greater Alpha Rho Chi working for it. The substance of his message is to be found in a letter from him printed on page five.

Bro. Leon Arna, Mnsecles honorary, welcomed Brother Gilbert to the fraternity, with a stirring talk in which he told of the esteem in which country France held our new Master Architect. He wished to our new brother the same joy and fellowship in Alpha Rho Chi which had been his own honor to have.

Next in order, George E. Freeberg, Mnsecles W. G. A. extended the greetings for all the active chapters and accepted Brother Gilbert's challenge to Alpha Rho Chi to maintain standards of purity in design and thought. Prof. E. M. Mann, Mnsecles honorary and head of the Department of Architecture at Minnesota, summed things up in a brief closing word.

KALLIKRATES, IKTINOS AND DEMETRIOS ASSIST CARNEGIE:

Two days later, on May 24, Saturday, Brother Leo M. Bauer, Detroit, first W. G. A., with the assistance of a formidable delegation from Columbus installed the Polyklitos chapter at the Carnegie Institute of Technology, Pittsburgh.

As has been mentioned before credit is due Bro. Alfred R. Naser, Iktinos, for piloting the Carnegie men along the road toward their union with Alpha Rho Chi. However, it must not be forgotten that Kallikrates men, friends of some of the new brothers, first pointed out the road for them to take.

Assisting Brother Bauer, who officiated as Acting Grand Lecturer, were

Lundquist Relates Events

Bro. C. A. Lundquist, Polyklitos correspondent, tells the story as follows: "The initiating team arrived at 8:10 a.m. and work was under way at 9:30, and the team continued steadily without a pause until 8:30 that evening. The good work and impressive services reached the heart of every member of Polyklitos. "Following the initiation all assembled at the Schenley Hotel and enjoyed our first banquet. At this function Brother Bauer installed the initiates as a chapter. The W. G. A., Brother Ely, then told us of the history and facts pertaining to Alpha Rho Chi.

"Brothers Ronan, Carter, Eggert, Kennedy and Fanning contributed to our fund of information regarding our national organization. The ideals of Alpha Rho Chi as told us by these men were deeply imbedded in our minds and as a chapter, and as individuals, we shall endeavor to uphold them.

"It was midnight when the party at the hotel broke up. A few of the visiting brothers remained over Sunday with us and found some interest in the International Art Exhibit at Carnegie Institute."

DIONOCRATES CHAPTER STORY

ARRIVED TOO LATE FOR MAY:

Details of the Dionocrates chapter installation at the University of Texas, April 18-19, were late in reaching the editor due to sickness on the part of the correspondent, Bro. Cameron D. Fairchild, W. G. A., who has been in France and thought Prof. E. M. Mann, Mnsecles honorary and head of the Department of Architecture at Minnesota, summed things up in a brief closing word.

KALLIKRATES, IKTINOS AND DEMETRIOS ASSIST CARNEGIE: II

THE ARCHI

(Continued From Page One)

$10.00 having been paid by Bro. Leo R. Campbell, Demetrios, ’13, while on a business trip to St. Paul in March. All actives initiated since Jan. 3rd, 1924, are required to pay upon initiation, all other subscriptions being classed as "voluntary."

Anthemios Brothers Alive

On the heels, as it were, of Brother Arna’s subscription came one from Fred A. Rohn, Anthemios, ’16, who is with the Interstate Fireproofing Co., in Detroit, Mich. His letter reads:

"Just a few lines as it is time to go home to bed. Got THE ARCHI today and found you were receiving checks for $10.00 for life subscriptions to the national publication so am enclosing my check. It sure is a dandy paper and well worth the investment."

Another Anthemios man, Harold L. Parr, ’21, now located in Jackson, Mich., next responded with his life subscription remittance as did H. C. Cheever, Anthemios, ’21, who wrote from Bozeman, Mont., as follows:

"So I am Strong"-

"I surely have enjoyed reading the issues since coming out into this isolated section of the country because I never have a chance to get back to my Alma Mater nor see any of the old gang whom I used to know so well. So I am strong for THE ARCHI."

Thus the Anthemios men are taking the lead in supporting the campaign for life subscriptions. Not only has their alumni response been the greatest but the collections from initiates has been the most prompt. The messages quoted are typical of the spirit of THE ARCHI supporters.

Briefly, the life subscription plan is this: Life subscriptions start with the October issue this fall. On and after Jan. 3rd each initiate is expected to pay his subscription upon entering the fraternity rather than when leaving school as is the plan with most of the college alumni publications.

Put Money To Work

Present actives, alumni and honorary members will be called upon to pay their subscriptions voluntarily. Receipts from all alumni will go into an endowment fund, the proceeds only being used for expenses. A portion of the $10.00 paid by each new initiate will go toward the expenses and the balance will be used to swell the endowment fund.

NOW is the logical time to pay your subscription. 1. Because the campaign is now on. 2. The membership has faith in THE ARCHI. 3. Every dollar put to work between now and the 10th of July will draw full five months interest Dec. 1st. Write Strong at once!
TWO MORE BROTHERS MEET THEIR MASTER

Webb Family Wiped Out By Train; Andronicus Man Loses In Fight For Health.

This month we are obliged to record the death of two APX brothers—Bro. Gervase Kerr Wenzell, Andronicus, Ex '24, and Bro. Brent Grider Webb, Anthemos, 20.

A special wire from the Louisville (Ky.) Courier-Journal to THE ARCHI advises that on the morning of May 24 Brother Webb, his wife, Josephine Downing Webb and his parents, Mr. and Mrs. Alves Webb were all killed when their automobile was wrecked by a Baltimore & Ohio train near Holton, Ind.

At the time they were returning from a motor trip to Washington, where it is believed "B. G." as he was known around the house, attended the convention of the American Institute of Architects. As a senior he received the A. I. A. medal for excellence in his four years' work.

Made a Good Record

Brother Webb, since his graduation had gained a reputation of being a splendid designer even as his artistry was outstanding at school. After leaving school "B. G." went to Louisville, where he was employed first by B. B. Davis, and later by Jacobs & Jacobs, architects.

His student record includes notation concerning work in the field artillery and officers training corps of the U. S. army. Brother Webb was only 26 years old.

"Jack" Wenzell, as he was popularly known, had trouble with his eyes due to depression of his younger brother, Dr. W. I. Wenzell of San Diego. He contracted pneumonia and being of a delicate constitution, had trouble with his eye about this time.

Son Had Father's Skill

Jack was one of the first pledges of Andronicus chapter, being initiated in December, 1922. He was the son of the late A. B. Wenzell, famous artist and illustrator, and Jack inherited much of his father's remarkable ability as an artist and a draftsman.

He was born in Yonkers Park, N. Y., twenty-two years ago and received his preliminary training at Central High School, Washington, D. C. Soon after the death of his father he and his mother moved to Los Angeles, and Jack entered U. S. C. in architecture in 1920.

He was compelled to drop out in the spring of 1923 because of ill health, and since then had worked when his health would permit, for various architects in Los Angeles.

COMEBACK OFTEN

Not only will many seniors end their school days this spring, but some of the fellows, undergraduates, will not be back in the chapters in September. Thus, many different ones of course, financial and what not. But to all there goes the message to come back, come back when you can, come back often, for the gang at the "house" will always welcome you. True, there have been differences of opinion and what not, but after all the real spirit of Alpha Rho Chi and the element of time elapses those things and good fellowship prevails. Come back off, brothers, the acts will keep the home fires burning.

A PROGRAM COMPLETED

It is not very often that your editor permits himself to become personal. He has habitually tried to keep himself in the background because THE ARCHI and Alpha Rho Chi must go on no matter who the editor. But as the first year of my service draws to a close I want to be personal.

In the first issue of this volume of THE ARCHI last October we announced our policy as follows:

"First and last, it is the aim of the editor of THE ARCHI to exert every means possible to make "The little newspaper" an instrument through which the men of Alpha Rho Chi will be forged into a living chain of fellowship which will guarantee for the future a united and growing fraternity.

"To this end we believe that it is imperative that every man ever initiated—whether he is now an alumni member, a man who was unable to finish his course and become inactive or an Pi Sigma graduate—be kept in touch with his brothers in Alpha Rho Chi.

"Elsewhere in this issue, the first of the 1923-24 college year, we explain some of the features of THE ARCHI, which we hope will be distinct steps in the right direction. The cooperation of every man will develop the closer relationships and out of that will grow the greater fraternity."

That, my brothers, was the policy, aim and objective of the staff and the board. Has the policy been effective? has THE ARCHI hit the mark? are you more interested than you were a year ago? do you know more of the activity of your fraternity? are you better informed as to the whereabouts and welfare of your former classmate? have the memories of the past been recalled, those good times never to be repeated? do you feel that Alpha Rho Chi is a living reality today in your heart—then THE ARCHI is serving its purpose.

Last year THE ARCHI, under Bro. Elving L. Johnson, had its biggest year up to that time. Faith was established, with five monthly issues, before funds were exhausted. The 264 subscribers on the roll increased to 432 this year, until practically 70 per cent of the membership were readers of "The little newspaper." And when the year is over and the books balanced THE ARCHI will practically have paid for itself.

NEXT YEAR'S ARCHI

This year we hoped to publish at least nine numbers, alternating eight and four page issues. Subscription returns however were prompt, and with a $1.50 rate we have published nine full issues totaling 74 pages, better than eight pages per issue.

Once the Life Subscription plan gets the same proportion of support from the membership as THE ARCHI has had this year the total number of pages will gradually increase as the income from the invested endowment fund grows. But during the next year we do not propose to attempt any great increase in the number of pages. We propose to be conservative, build the endowment fund with life subscriptions and keep to our present eight page per issue average with a larger edition occasionally.

Think the matter over, brother, and you will agree that this is the thing to do. Remember that the sooner you send the $1.00 the sooner it will be at work for a bigger and better monthly publication. If you can not pay all the $1.00 this coming pay-day send five dollars at once and another five next month. Remember, it is the income only that will pay the bills.
Dear Brother Tousley:

Your letter of June 3rd reached me on the 6th instant, but I have been under such pressure since then that I have been unable to answer it.

I have been intending to write to you in response to the verbal request which you made after the initiation banquet and also to write a special letter of appreciation of the honor which Alpha Rho Chi has conferred upon me.

I must ask you to accept a very brief expression of the cordial feeling which I have in my heart, for the simple reason that the day has worn along so far that it would be impossible for me to get a letter of any length into the mail tonight, and I note from your letter that if the letter is mailed tonight it will reach you in time for the press of the June issue. I must therefore, as I have said, limit this letter to a very few lines.

I cannot undertake to re-state what I said at the banquet, the talk there was very intimate and from the heart. I recall laying down a few general propositions that we should always keep in mind that our first duty was loyalty to our country; we should take a part in its real interests and in its up-building, and that we should so conduct ourselves in our professional lives that we would deserve the support and recognition of the public and be entitled to the confidence of our clients. I recall emphasizing the great importance of the Alpha Rho Chi as a Fraternity which upholds the highest ideals of personal life, of purity of thought and of high-minded professional endeavor. I also recall appealing to those present to maintain standards of purity in design as well as purity of thought.

I most cordially welcome the fellowship into which I have been admitted.

I regard it as one of the greatest honors that has come to me, for the confidence expressed in me by the young men who form Alpha Rho Chi means more to me than I can tell you.

Please give my most cordial greetings to the Fraternity, and believe me

Very sincerely yours,

CASS GILBERT.

CASS GILBERT'S LETTER

June 10, 1924.

Dear Brother Tousley:

...and "pep" in Alpha Rho Chi. Although I have been out of architectural activities for the past three years I am interested in what the fraternity is doing.

At present I am touring Europe with my father, but, unlike George Dahl, we have not been favored with "hilly weather." We spent the fall in Sicily prowling among the Greek ruins. Since winter we been working our way through history and have come up to the modern in Vienna and Munich. Italy, by the way, is still in the Middle Ages; the hour of 8 p.m. finds all of the doors locked, barred and bolted. We are working westward now and expect to be in France in July and England in August.

Enclosed find $3.00 to be applied to my ARCHI subscription, whatever its status at the present time. This must do duty until I can get back to the "base of supply" next fall.

Best wishes to Mnesicles,

WM. H. KIRCHNER, Jr., '22.

BACK AT HARVARD

Dear Pete:

...THE ARCHI keeps a fellow in pretty close touch with the active chapters and all the old boys scattered over the world. And when I get a chance I want to pat the staff on the back for making a go of the publication. It brings back memories of the times we used to have when you were occupying the bunk above me. Of all the four years at school that stands out as the strongest, and I think that when we were having the hardest times we enjoyed ourselves the most.

As you probably know Ralph Hammer, '19, Mnesicles, won the Harvard Traveling Fellowship this spring. "Ham" worked hard last year and did some mighty good work, and Dean Edgell told me that "Ham" would have had it last year were it not for the fact that they could not give it to an outside student, two years running. George Dahl, '20, Mnesicles, winning it the year before.

In regard to starting overtures for establishing an A.P.X chapter at Boston Tech. I have been too busy to do very much, and after the feeling out some of the fellows I did not think the time was ripe this past year. There is a chap here who was a member of the new chapter at Carnegie, and next year if I come back to do my thesis after Christmas we plan to work the matter together, and I think if we are tactful we may meet with success.

Fraternally,

HARRY J. KORSKUND, '20.

WORD FROM GERMANY

Munich, May 13.

Dear Brothers:

I have been reading with interest the numbers of THE ARCHI which have been following me about Europe. It is a fine, live publication and should be an important factor in the making for unity and unity of purpose in the making for unity and "pep" in Alpha Rho Chi. Although I have been out of architectural activities for the past three years I am interested in what the fraternity is doing.

At present I am touring Europe with my father, but, unlike George Dahl, we have not been favored with "hilly weather." We spent the fall in Sicily prowling among the Greek ruins. Since winter we been working our way through history and have come up to the modern in Vienna and Munich. Italy, by the way, is still in the Middle Ages; the hour of 8 p.m. finds all of the doors locked, barred and bolted. We are working westward now and expect to be in France in July and England in August.

Enclosed find $3.00 to be applied to my ARCHI subscription, whatever its status at the present time. This must do duty until I can get back to the "base of supply" next fall.

Best wishes to Mnesicles,

WM. H. KIRCHNER, Jr., '22.

DINOKRATES—TEXAS

Cameron D. Fairchild, Correspondent

The officers of the Delta Club continued in their usual capacities until the last meeting in April, at which time the following were elected: W. A., Cameron D. Fairchild; W. A. A., George H. Harker; W. C., William K. Kleine; W. S., Gerald G. Decker; W. E., Benjamin P. Bailey and W. Upt., Herbert S. Cannaway.

A house committee has been appointed and expects to have a suitable place arranged for at an early date.

Initiation for Chester C. Wright was held a few days ago as he was unable to attend the installation ceremonies because of an accident, the afternoon of the 19th of April.

POLYKLITOS—CARNEGIE

Cal A. Lundquist, Correspondent

Polyklitos chapter wishes to thank the brothers of Alpha Rho Chi for their good wishes received by telegram, also for the hearty cooperation of the members of the Grand Council and members of the initiating team.

At the last meeting of the year plans for the ensuing year were made. A complete schedule for activities, both social and professional, was arranged. It might be of interest to note that the money received from the sale of the Carnegie Arch. Year Book will be used for a scholarship. Another new plan is to encourage our members and fellowwomen in the department to go in a body to Europe, next summer. Already several men have signed up to go.

William Simbol and M. Bastian were the first two men to become members in our new organization. Both men are sophomores and are enthusiastic workers for A.P.X.

Bro. "Jerry" Tillitson, W. A., elect, is not yet over his good fortune of two successive first mentions, placed, in class B, Beau Art Design. He's in a daze and who wouldn't be!

"Lou" Turcotte, our musical songbird, and by now an alumnus, will start his career in Cleveland. We'll sure miss his songs and his happy company.

"Beany" Lawstutter, another senior, has just landed a big job at his home town and is a-rearing to go. We think (and are quite sure) that he's planning marriage, and we'll agree that this is a big job.

"Art" Bracey will practice in New York and John Woods has a position in Cleveland.

Our friend "Will" Perkins, instructor in design is now on the high seas. He intends to visit the Latin countries and return to school in time for the opening of the fall season.
ANTHEMIOS—ILLINOIS

Willard E. Fraser, Correspondent

Bro. and Mrs. David E. Postle, Jr., interrupted their auto tour from New York to California long enough to take dinner with us one evening the last of May. "Dave" looks no different than he did when he was a student here and a star member of the swimming team.

In the annual competition for the Ricker Prize in architectural history we were not fortunate enough to take first place, but Bro. E. G. Spencer was second with his paper on the development of vaulting.

With Commencement Day on June 9, we lost four of our seniors, while Brothers Purcell and Bergman will receive their degrees at the end of the summer and fall terms, respectively. Chicago will claim graduates Olson, Young and Purcell; "Dave" Kendall will work in Cleveland, and "Rube" Pfeifer leaves us for X.P.X. to go to Sheboygan Falls, Wis. (The last I saw Rube he wasn't sure himself.

Word coming from out of the West advises us that H. C. Cheever, '21, is to take unto himself a wife on June 8th. However "Rip" does not advise us as to just who "she" may be. Bro. Cheever has taken a year's leave of absence from the U. of M., Montana State College at Bozeman, where he has been in the office of the supervising architect. In the year he hopes to line up work in the central states. Send suggestions care the W. G. E. whom he expects to see shortly.

Harvard University Summer Session will be the mecca for "Chuck" Sutton and "Satt" Satterfield. Chuck finds taking two college degrees a little irksome after the first hundred years, especially when combined with teaching mathematics to the underclassmen at Champion High.

IKTINOS—MICHIGAN

Orrin K. Griffith, Correspondent

The men here will be anxious to be back on the old "Stamping Ground" next fall. One reason being the project of remodelling the present chapter house. A Competition which was open to the active chapter was held recently, in which plans to provide larger quarters and better accommodations for the men, were submitted. With the staunch backing of our Alumni, whose decision we are now awaiting, we expect great things.

Our fall rushing program this year promises to be one of the most successful. In order that no time will be lost then, a committee has already been appointed under the leadership of Bro. Kressbach. Carl has got to get busy and fill up the new addition to the house, with good material.

At the close of school our only Pledge was Ramon Rudolph. Hope we have at least six others like him when initiations take place next fall.

Two men whose addresses will remain unchanged during the summer months are Gilbert Richey and Carl Kressbach. Summer school is the reason.

DEMETERS—OHIO STATE

Lot H. Green, Correspondent

The officers of Demeters chapter for next year: W. A., Robert V. Wade; W. A., Clifford E. Jones; W. E., Donald F. McMurchy; W. E., Newton F. Marvin; W. S., Franklin G. Scott; W. Supt., George H. Ferrenz; Doyt Early was re-elected steward and J. Wallace Green, house manager.

At a recent meeting of the Architec Club Bro. Doyt Early was elected president for next year. Bro. Scott was elected junior representative to the Engineers Council and Bro. Jones was advanced to senior representative.

The Ohio State Men's Glee Club elected Bro. D. F. McMurchy president for the coming year.

Joseph E. Thomas, past W. A., is our only senior who graduates this quarter, but his future plans are not yet completed.

MNESICLES—MINNESOTA

K. A. W. Backstrom, Correspondent

Milton J. Anderson, '20, Duluth, writes that since he last saw us he has made a change. He is now with William C. Agnew, Jr., Duluth architect. Both Mr. Agnew and Brother Milt were with German & Jensen prior to Mr. Jensen's death. "Have a little interest to spur me on to renewed efforts."

On May 30 the men of Mnesicles hired a large bus and traveled out to the Weequah Canoe Club on Lake Phalen, St. Paul, for a picnic. Although only a few attended a good time was reported. Canoeing furnished the entertainment in the afternoon (swimming was prevented by cold weather), and in the evening dancing was the attraction.

The annual spring formal of Mnesciles was held at Interlachen club on the evening of June 4. Twenty-four couple attended the party which began with dinner at seven-thirty. Dancing started at nine and continued until one. A novel feature of the program was provided when the orchestra broke into a wedding march as "They" rejoined the crowd for the last two or three dances.

Although an A.P.X man did not win the Moorman prize traveling scholarship this year. Our fellows managed to take second, third and fourth places. Wallace Bonsall placed second, Paul Nystrom third, and Charles Barnum fourth, each with a mention.

In the Magney and Tusler prize competition Wallace Bonsall took first prize and George Freeberg took second, each receiving mentions.

"Eddie" Holien, '23, who has been teaching architecture in Fargo, N. Dak., will spend the summer designing college buildings in Pullman, Wash., with Ogdin Beeman.

Flash! At press time word was received that on Wednesday morning, June 18, Myron R. Dassett, 'Ex '17, was married at St. Luke's Episcopal church, Paris, France, to Miss Mildred Chartaine Farnon of Hollywood, Calif. "Mike" and his bride will honeymoon in the forests of Corsica, returning to Minneapolis next spring.

KALLIKRATES—VIRGINIA

Ralph G. Gulley, Correspondent

Fendall L. Gregory, Contributor

We have painted a brick cottage on Carr's Hill for our home next year. Everything about it is fine. The atmosphere on the hill is very refined and salubrious, but it is a bit too restraining to live between "Prissy" and the Supt. of Grounds and Buildings. The house is a literal stone's throw from the department's new home.

Among our recent visitors are Bro. W. L. Dixon, now teaching "math" at William and Mary; W. M. Brown, with Smith and Tardy, Roanoke, Va., architects; E. D. Everhart, who is working architecturally in High Point, N. C., and Brother Kimball, now Professor of Fine Arts at New York University and lecturing at the Metropolitan Museum.

We hope to have Brothers Everhart and Brown with us next year after having been in business the past year.

Bro. H. A. Brown is thinking of going to Carnegie next year. In such an event our loss would be a Polkylite gain. Brothers Ashburner and Loving
do not expect to be back and perhaps not Dent, while O. W. Browne may finish his work for a degree this summer.

**ADRONICUS—U. S. C.**

Stanley M. Cundiff, Correspondent

Lionel Banks turned in the prize drawing which won him the Magret Salathiel Newcomb Prize offered by Bro. Rexford Newcomb, professor of history of architecture at the U. of Illinois. This is to be an annual senior prize, and Brother Banks has the honor of being the first winner. The prize is awarded to the student whose solution shows the best adaption of historic motifs to a Southern California setting.

At the same time Brother Lowell Pidgeon was declared winner of the annual prize offered by Julian E. Garney, well known mural painter, for the best use of color in a twelve-hour sketch problem.

Andronicus announces the pledging of George Patrick and Graham Latta, both of the class of 26.

A special initiation was held at the chapter house Sunday, June 7th, for the newly pledged honorary members, Donald B. Parkinson and Julien A. Garney. Immediately following the ceremonies, the chapter adjourned to the Chateau Cafe, where a banquet was held. Initiatory speeches were given by the new members following which the W. A. Lemon presented Prof. A. C. Weatherhead with a beautiful leather billfold with the fraternity crest embossed upon it in gold as a token of appreciation of the chapter.

Brother Weatherhead, Dean of the local school of architecture, leaves in July on a tour to Europe to be gone most of the year. He will visit England, France, Spain and Italy. On his way back to California from New York he will stop at some of the prominent schools in the East.

The officers elected the 2nd of June for next fall are as follows: W. A., Mel Lemon; W. A. A., Wm. Lundeberg; W. E., Kenneth Wing; W. C. T. L. Pletsch; E. S., Earl Chapman; W. S., Sup. Don Parker, and House Manager, Noble McLvain.

Decoration Day weekend the chapter held a beach party at Balboa Beach. Two houses on the beach were rented and about twenty couples made merry. The chapter house was closed, and the cook and housekeeper were included in the outing. Swimming, dancing and boating were the chief diversion. The following Monday the Brothers displayed beautiful but painful assortments of sunburn.

Two of our brothers brought fame to the chapter and fortune to themselves by placing high in two recent small house competitions. Kenneth Wing, 25, placed 2nd, for a $250 prize, in the small house competition sponsored by the Long Beach Architectural Club. Competitors were limited to residents of Long Beach. George Andersen, our past W. A., won the 12th prize of $50 in the Hillside Small House Competition fostered by the Taft Realty Co., Hollywood.

**PAEONIOS—K. S. A. C.**

N. E. Palmquist, Correspondent

O. D. Lantz, Contributor

Officers for next semester are: W. A., L. Patterson; W. A. A., C. F. Billings; W. E., O. D. Lantz; W. S., C. F. Cless; W. C. A. H. Heisterman and W. Supt.

C. F. Hoolzel.

Bro. Henry Wichers has accepted a position on the faculty at this school. Hank receives his master’s degree as well as his B. S. degree at graduation this spring. He also has been initiated into Sigma Tau Honorary Engineering fraternity. As there is no other honorary engineering fraternity at this college this is the highest honor an architect can acquire.

Our senior party, May 16, at our new chapter house was about the best party that we have ever had. We had to keep getting additional people painted into the "Aggie" army next year.

Brothers Cless, Heisteman and Wol gast are going to Ft. Snelling to infantry camp. They too aspire to majors and captaincies. Watch for them, Minesicews.

We are losing six of our best men by graduation this spring, Hartgroves, Lane, Wichers, Johnson. Chase and Kerr are the brothers who got their degrees. Wichers, however, has accepted a position teaching freshmen architecture here next year and will remain as a faculty member with us.

Bro. Paul Weigel, head of our department, is spending the summer in Europe. He is taking along a large crate of drawings made in the department to put on display in London.

Last but not least, Brothers Chase and Patterson have fallen and two more A. P. X pins are seen linked with those of Alpha Xi Delta and Delta Zeta respectively.
