ARCHI CONTINUES EXPANSION POLICY

Nystrom and Townes Co-operate
With Toussley in Campaign of Archi Improvement

While many of the brothers may have noticed the changes in the masthead of the editorial page, they have not heretofore been advised of the reorganization of the staff of "the little newspaper."

In the beginning all mail was addressed to the home of the Managing Editor who handled all the editorial work the last two years and part of the business since the Minneapolis convention. Now the work has been divided with one view ahead, the improvement of THE ARCHI.

Since the beginning of the current school year we have had the cooperation of Paul E. Nystrom as business manager. Since then Brother Nystrom has received his degree and is now practicing in Duluth, Minn., his home city. All subscriptions and matters relating to finances should go to him there.

Much of the regular detail connected with each monthly issue of THE ARCHI has for three months been cared for by William T. Townes as associate editor. Brother Townes during this time has had entire charge of the editing of chapter news from both active and alumni chapters. Such mail is now directed directly to him.

All other matters relating to changes of addresses, special features, data for the directory and matters of policy should continue to be addressed to the Managing Editor who at the present time is a field man for an Illinois architectural firm. See editorial mast head for addresses of staff members.

ANOTHER GOOD MAN

"The inquiring reporter" recently paid a visit to the Anthemos chapter and while there heard rumors about one George A. Whitten, Ex '22, who will receive his degree this spring.

The facts to date are that Brother "So" Whitten is minus both his pin and a diamond ring. Miss Irene Spiker, U. of Wisconsin, '22, of Gary, Ind., is the lady in the ring. Our future sister is teaching physical education in the Kalamazoo, Mich., high school. "The other ring" is due this fall.

INTRODUCING NEW GRAND LECTURER

Joseph J. Patterson

As was announced in the last issue of "the little newspaper" Brother Patterson, Anthemos, is now the Grand Lecturer of Alpha Rho Chi. "Pat" received his B. S. at Illinois in '17.

He entered Oklahoma A. & M. College as instructor in architecture in October, 1917, was made Assistant Professor in 1920 and Associate in 1923.

Brother Patterson married Madeline Elizabeth Gammel, June 24, 1919, at Danville, Ill. They have a daughter Patria Ann. Princess Pat was born October 3, 1922.

NEW IKTILOS ARRIVAL

A recent mail brought the announcement that Robert Warren Rindge came into the home of Bro. and Mrs. Warren L. Rindge on March 28th. Son Warren weighed nine pounds nine ounces. Brother Rindge, a charter member of Iktinos graduated from Michigan in '17 and is now practicing architecture in Grand Rapids, Mich.

Mnesicles men seem to take almost as much pride in the infrequency of their "dates" as the men from other houses around the campus take in the frequency of theirs.

CHARTER ALUMNI DETAIL PROGRESS

Older Brothers' Response Show
A P X Advance in Professional World

April eleventh marked the eleventh anniversary of the founding of the Alpha Rho Chi fraternity. Ordinarily a decade and a year does not produce startling achievements, yet a perusal of the list of charter members of the original chapters brings forth records of real progress.

Men who conceived our national architectural fraternity and in the early days guided the destinies of these two chapters are now doing things worthy of note. True some have not achieved the results that others have accomplished, but the eleven years since Arcus and Sigma Upsilon became Anthemos and Iktinos chapters are rich with honor and advancement.

Letters coming in from time to time have brought us bits of news of many of the older alumni. Finally with Founders' Day in the offing the staff wrote each brother asking him to lay aside his reserve and tell about himself. In the paragraphs which follow, many of them are from the pens of the brothers while in other instances we have been obliged to fill the gaps with the last information at our disposal.

Adams and Bailie Silent

While Alpha Rho Chi was founded April 11, 1914, the first charter, Anthemois, was not instituted until May 22; Iktinos, the other chapter playing a part in the founding, established their charter June 6. In the personal notes which follow, the first are those of Anthemos men followed by those of Iktinos.

Eugene P. Adams has not been heard from since last year when he was with the Omaha, Neb., board of education as an architectural engineer. Bro. Adams, who by the way was a charter member of old Arcus itself, at that time was married and had a small daughter.

(Continued on Page 2)
A year ago Robert Mills Baille also reported one wife and one child. Bro. Bob is a member of the architectural firm of Kimball, Baille & Cowgill, Ames, Iowa. All three are A P X men and teach at Iowa State College where Bro. Baille is Associate Professor of Architectural Engineering.

Former W. G. A. Has Own Office
Not much is known of John Solomon Bartley, although we do hear of him once in a while. Brother Bartley may or may not be married, we are not sure, but he is practicing architecture in Waterloo, Iowa, and is doing well in his own right.

Leo M. Bauer, our first W. G. A., is heading up a successful office of his own in Detroit. Brother Bauer married Eva Stroh in June, 1917, three years after receiving his degree. They have a son, Leo Michael, Jr., who will be five years old the 30th of August.

Chicago and a partnership in the practice of architecture keeps Arthur R. Benson in the Windy City. The last we heard of him was still single and fancy free.

More Private Offices
Michigan City, Indiana, is the home of Samuel P. Boonstra, his wife and daughter, whose son is a practicing architect. While Brother Boonstra spent a lifetime in the profession this year he hasn't committed himself personally since last year.

Budina, Adolph O., hasn't been heard from this year. Last we knew he was married and had a daughter as has Sam. Adolph was then practicing architecture in Chicago while living in Winnetka.

Associate Professor of Design is the title of Clinton E. Well, who with Allen H. Kimball, first G. L., and Bro. Baille before mentioned, is teaching and practicing in Ames, Iowa. Brother Clint is married, but we have no further information.

Three Benedicts Here
"Peene" (Francis E.) Dunlap has a very busy practice in Chicago and is the picture of energetic prosperity. Bro. Dunlap married Maud Hines, Sept. 25, 1920, four years after receiving his degree. They have no children.

Elsewhere in this issue we chronicle the arrival of a son in the home of Bro. and Mrs. Mathew E. Dunlap in Madison, Wis., where Matt is an engineer in the Forest Products Laboratories. He married Mary Lawson in October, 1919.

While Clarence P. Griffith did mail in his subscription this year, he did not add to his personal record which we obtained last year that he was in the hands of Denver, Colo., representative for the American Bridge Co. Yes, he is married.

California Gets 'Em S. or L.
After being out of touch for some time, we recently established contact with Halbert N. Mattern, who is manager of the quantity survey bureau of the So. California Plasterers' Association, with headquarters in Los Angeles. Brother Mattern married Bessie McKinley of Dallas, Texas, on Founders' Day three years ago.

For some reason or another we haven't heard from Harrison G. Overend for a year, or, let's see— it seems to us he was married a while back; he is a member of the architectural firm of Schmidt, Boucher & Overend of Wichita, Kansas. Lorentz Schmidt is an Archaic man also, but came in after the charter was granted as he graduated in '13.

Patterson Anthemiou Charter
Our new Grand Lecturer is a charter member of Anthemiou and his picture appears in this issue with a story of his progress in life. Oh yes, his name is Joseph Julian Patterson.

Burlington, Iowa, is now headquarters for Charles L. Ritts, who is an architect and superintendent for Temple & Barrows of Davenport. Chuck is married and has two kiddies last we knew, Charles S. now seven and Margaret going on three.

Fred G. Rounds, Anthemiou '16, writes that after graduating, he worked a while in St. Paul, a summer in Billings, Mont. and after returning from Army service, he was with Crot & Boerner, Minneapolis, for five years, until in 1923, he became Assistant Professor of Architecture at the State College of Washington, and Assistant, to College Architect.

Bro. Rounds goes on to say, "I formed a partnership with Stanley A. Smith for private work, primarily residences and fraternity houses. We are also acting as resident architects for Whitehouse & Price of Spokane, in their local chapters. I must also state that I am married, and have one youngster, four years old, a girl, and still have most of my hair."

Well Known Grand Council Man
Among all the Anthemiou charter men the name of Truman J. Strong our Worthy Grand Estimator is perhaps the best known to the present generation of A P X men. T. J., who is married and has a son, is the resident superintendant at Dubuque, Iowa, for Rorer, Damely & Smith, Urbana architects. Brother Strong has been with them since the war is highly esteemed.

The last heard from John R. Tanner of Springfield was from Paris where a year ago he was studying and practicing in between times. No other female had captured him at that time.

One man from whom little has been heard for years is Glen H. Thomas. From other sources we know that he is a practicing architect in Wichita, his home town.

Mnesicles' Favorite Is "Waddy"
"Four Queens" have come into the hands of Bro. and Mrs. Winthrop M. Wadsworth who live in Minneapolis. "Waddy" is in the real estate game and

is largely responsible for the tip given to Mnesicles which paved the way for their new chapter home.

Turning to Iktinos
So much for the charter men of Anthemiou. Now to turn to Iktinos. Alphabetically the first is Arnold B. Berg who is married and lives in Duluth with his wife and child. Brother Berg is in the profession.

On the other hand we don't know a thing about Clarence B. Brewe except that he is living in Detroit, he doesn't answer mail and it doesn't come back.

Montana, Billings to be specific, is where Chandler C. Coghan, the first W. G. S., is practicing in an architectural partnership. Brother Coghans is married.

Another Michigan man we can't tell much about is Abram B. Corry, who we understand is "somewhere in Detroit."

The same is true of Don. M. Cottrell.

When we heard from Charles A. Crowe a year ago, he and his wife had two kiddies in their household which Brother Charles maintains as a practicing architect in Grand Rapids.

Former Worthy Grand Architect
Perhaps one of the best known of the Michigan charter men is Clair W. Ditchy, Detroit. The Ditchys have no children.

Forsaking the path of architecture, George P. Everson is a tool engineer for the Maxwell motors in Detroit. Last we heard from George he was the daddy of a daughter.

Another man who departed from the drafting table is Robert C. Hall who is in the auto sales game in Albany, New York. Bob is manager of his concern but we understand his wife manages him. Here's a Florida Man
Florida and the particular inspiration of St. Augustine is Chester Henninger's where he lives with his wife as he pursues the elusive coin as a draughtsman.

When we heard from Samuel L. Holmes last year he was busy in the landscaping game in Detroit. At that time he was still single.

As far as is known only two men of the entire charter membership of the two chapters has been called to join the great fraternity beyond. Mail was received in May, 1915 marked "deceased." Nothing definite has been learned to date. Any information is wanted by THE ARCHI.

Oh. These Contractors
Contracting claimed Lester J. N. Keiller who is the head of his own company of general nature in Little Rock, Arkansas. Bro. and Mrs. Keiller, when we heard last year were the parents of a daughter. We haven't heard from Les in quite a while.

Howard Crane's office in Detroit is the refuge of Dixon B. Kellogg, who is (Continued on Page 9)
THE ARCHI

(Continued From Page 2)

another one of the fellows who doesn't answer mail. Who is she?

Associate Professor of Architecture is the title of George M. McConkey, Alpha Rho Chi's first W. G. E., Bro McConkey is at his alma mater teaching. He married Eleanor E. Eberle, Sept. 23, 1900. They have three children; Ruth, Florence, and George Jr., 2.

Year Old News

Walt Pearl, a year ago was a draftsman for H. L. Mead, Grand Rapids, Michigan, architect. Brother Walter is in a married man but we know little else of him.

Ferndale, Detroit, is the center of activity for Raymond C. Perkins, who is architect and contractor for a real estate corporation, and has had him in both Washington, D.C., and Chicago, where he wrote a year ago. The house of Perkins had one heir at the last writing.

Supervision of construction, from the standpoint of the architect, interest Geo. L. Richardson, who lives in Memphis, Tennessee. There is one child in the Richardson family. Brother George hasn't written us this year.

A Texas Worker

Elsewhere in this issue we tell the latest about Bro. and Mrs. Warren L. Ride, Warren is practicing for himself in Grand Rapids, Mich. Malcolm G. Simons, who figures very prominently in the establishment of Democrats' chapter in the University of Texas, Austin, is a member of the firm of Scotts & Simons, architects, San Antonio. Last we heard Brother Simons was still single. But for how long?

The second charter man on the list to answer the last roll call was Arthur L. Sloan of Coldwater, Michigan, who met his Maker Oct. 17, 1918. Brother Sloan died of pneumonia in France following exposure at the front.

Where Is Brother Trum?

Unless we are misinformed, Franklin C. Stanton is now in Olympia, Wash. Just what he is doing or what his station is in life we do not know. THE ARCHI has heard nothing from him in three years.

Numerous efforts to locate Herman J. Trum, Jr., have been of no avail. Rumors have had him in Washington, D.C., and Chicago, but addresses available bring negative responses from the postal authorities.

Janke, Vennman & Krecke is the firm of architects with which L. Vennman is associated in Detroit, Michigan. L. Vennman is president of the architectural firm of Geo. D. Mason and Co. David, the third, had arrived some time ago.

A Convention Officer

Another Williams, George H., who was secretary of the recent convention of A.P.X at Ann Arbor, is still among the single men. George won his B.S. in Arch. and is doing graduate work in education.

The Chapters

ANTHEMIOS—ILLINOIS

Willard E. Fraser, Correspondent

Our new pledges are William Crane, 27, of Evanston, Ill., and F. A. Cierling, 26, of Chicago. Bro. Horace Tousley, editor of THE ARCHI, visited these recently, while on his way to Cairo, Ill., where he is superintending the construction of several high schools.

In the recent Beaux-Arts judgment, Bro. H. F. Pfeiffer received a first mention on "A Water Gate." By receiving this award he won the Van Dort prize, which is given annually by Mr. Van Dort of Chicago for the best solution of the Class A fourth project. Bro. Rolleston received a mention on his esquisse-equisse, "The End Pavilion of An Art Museum," and Bro. Fraser was awarded a second medal on his archæology project, "A State Bedroom in the Empire Style."

Easter vacation took most of the boys away. "Spence" Spencer took about the longest trip, going to Denton, Texas. Our spring dance, the last of the year, will be held on April 25th.

Uncle Peewee Dunlap dropped in one night recently announcing that Brother Matt up at Madison is the father of David Lawson Dunlap, born March 30. F. E. by the way is more than busy in his office, and advises that it is pretty strenuous going at times. Matt was a '14 man while Peeeve graduated in '16.

Speaking of youngsters, a card recently came announcing the arrival of Jane Ann at the home of Bro. and Mrs. R. E. Bryan, Bob, an Ex '24 man, and his good wife live at 306 De Quincy St., Indianapolis. "Yes, we, Mother was the date.

A card from Joe E. Wildermuth, 20, of Gary, Ind., informs us of the fact that he is in Cuba for a visit. Hem-m-m. For how long, Joe?

Among the recent visitors at the house was our old friend and brother in crime, Joseph F. Creeden, 18. Joe is now located in Omaha in the contracting game. He visited several places in addition to Illinois to look at stadiums new and old. He submitted a bid on a new Nebraska structure. Go to it, Joe; good luck!

E. G. Spencer, 25, secured an extension on his Easter vacation and slipped down to Havana for a visit. Some how or other we feel that we will not, for much longer at least, number Spence among the "independents."

Last on the roll of Iktinos, alphabetically, is Geo. F. Young, who is a draftsman for E. T. P. Graham, architects, Boston. At least that was the dope when George last wrote he was not married—yet!

DEMETRIOS—OHIO STATE

Newton F. Marvin, Correspondent

Back to school again! We have just finished our spring vacation. Most of the boys are glad to get back to the old grind once more.

The Pledges of Demetrios chapter gave a "Sailor Dance" for the active chapter. It was quite a clever idea and the dance was a success from beginning to end. The dance was held in the chapter house and Mother Ulrey was patroness.

Bro. McMurchy spent the most of his spring vacation with the University Glee Club when it made its Spring Concert Tour. Bro. George Merkel went along as stage manager. From the reports we understand that George had the time of his life. For particulars, ask George.

Pledge Bro. Lindersmith, "Lindy," has acquired a "collegiate" Ford. He has christened it "Leaping Lena," a very appropriate name. On the road you can't help but notice that he didn't miss naming it. But at that it runs and what more do you want. "Jerry" Beem is back to school again this quarter. He has been out in California for the past six or seven months. He returned by the way of the Panama Canal, Cuba, and New York. "Jerry" says he had a wonderful time. He also says Havana is a great town, architecturally and otherwise.

MNESICLES—MINNESOTA

K. A. W. Backstrom, Correspondent

We celebrated the end of the winter quarter with a "Red hot party" at the house on March 21. Brother Molander was in charge of the affair and by diligent work it made it a wonderful success. The beautiful decorations attracted a great deal of attention and were highly praised by everyone at the party. The music also was very fine in every way, the orchestra showed plenty of pep and endurance. Dancing began at 9 o'clock and continued until 12:00, when time out was taken for a light lunch. After the lunch dancing was resumed and continued into the small hours of the morning. A good-sized crowd attended and all enjoyed themselves very much.

The beginning of the new quarter finds a few old men back in school again and some leaving school. Bro. C. J. Olsen has returned to school, and taken up his residence at the house. Brother Chester Carjola is also living at the house now, he having just returned from a long stay in California. He left plans to start school next fall. William Olson accompanied Chester back from California, but went straight through to his home at Carlsbad, Minn. Billy has been sick for some time and has been (Continued on Page 5)

Editorials and Notes

ON WHICH SIDE
In every chapter one finds two classes of followers. One group is made up of "good fellows" who are content to drift with the tide and let the other men carry on. Such men are detrimental to Alpha Rho Chi and to themselves.

But the other class of men, if it were not for them there would be no Alpha Rho Chi. This group may be depended upon for anything; some time the group seems small. These are the true blue men who are after all potential successes in life.

These two classes of men are like two lakes in Switzerland—separated only by a few hundred feet of water shed, one ultimately empties into the Black Sea and the other into the sparkling deep blue Adriatic.

Are you black or true blue? Are you alive to your opportunities and responsibilities? On which side of the water shed are you?

OUR POLICY—SERVICE
If a group of men were asked the greatest word in the English language no two would, perhaps, agree. In a recent magazine article in "The World's Work," Edward W. Rok discusses "The Greatest Word in the English Language."

"It isn't Love. It isn't Brotherhood. It isn't Friendship. It is a word that embodies the spirit and the meaning of all three of those words. The three words and by the same token the one word embodies the spirit of Alpha Rho Chi. Our policy is the spirit of Alpha Rho Chi."

"The word is: Service. Not the service that serves self, for, like lip service, that accomplishes nothing. But service in the true and intended meaning of the word—the service that labors for the service of others, that confers an advantage, that benefits, that avails. Then we give the greatest, highest, and most directly profitable service to ourselves.

The man who puts the most into his fraternity receives the most, directly unmeasurable profit.

WHAT SAY YOU
Under the caption "At the Round Table" we publish this month a letter from the Grand Lecturer. Part of it was intended for the personal consideration of the managing editor. However, the letter may express the spirit of other Arochi men. Because it may, and because it tells the problem first hand better than we can, the letter is published in its entirety. Think it over. Shall THE ARCHI establish the type of service Brother Patterson suggests?

HASTY LEGISLATION
A few instances of hasty action on the part of some of the chapters have come to our attention recently, and seemed worthy of comment. The examples in themselves were trivial, but if allowed to multiply, would prove a serious bar to chapter progress.

We refer to motions which are made, seconded, and passed in a flurry of excitement and parliamentary speak, which possibly seem desirable to a majority at the time, but which on mature consideration may fade into relative insignificance, and later on seem even foolish and unnecessary.

Changing conditions, indeed, may show the need of legislative action as regards house rules, finances, entertainment, or any of the numerous activities of a chapter. In such case prompt action is commendable; meeting the situation fairly and squarely and adjusting the chapter code to fit the need is desirable and proper. No advantage will be gained either by aimless controversy or indifference on the part of the brothers.

Occasionally, however, a bill or even a large number of bills may slip through in a whirl of excitement, and their true content and effect not be noted until the cool perspective of the afternoon is reached.

A multiplicity of regulations, especially in a small group, may prove embarrassing and ridiculous, and as it may be impossible to observe all, so all will be ignored. "That government is best which governs least."

A little serious thought, free from partisan enthusiasm, will show what is necessary and what is useless, and we may still make rules for the betterment of the Fraternity.

FRATERNITIES
The rituals of nearly all fraternities are based upon religion. No true fraternity can rest upon another conception. It is for these reasons that they are supports of the true aims of society, strong reliance of ordered government according to public law, able advocates of the cause of righteousness and religion, and effective promoters of peace and good will among nations.

Not to have faith in our fellow men is not to have faith in ourselves. It is to deny our mutual dependence upon each other and upon divine power. We live in an ordered universe ruled by law and by the guiding power of providence. Not to hold faith appears to me to attempt to fight against the stars in their courses. Such resistance must end in destruction. Faith in God is the beginning of religion.

—CALVIN COOLIDGE—.
At the Round Table

For the uninitiated or misinformed we state that this space is devoted each month to matters of fraternity business and betterment. Under this head the Grand Council members present matters for the serious consideration of the brothers and particularly the officers. Subject matter is not confined to the policy and routine as one might suppose.

PATTERSON COMES ACROSS

Dear Brother Tousley:

It is with a great deal of pleasure and intrepidity that I enter upon my duties as the Grand Lecturer of Alpha Rho Chi. Pleasure, because I have found, from the shore of the sea, already sense at the work, that it will be exceedingly interesting. Pleasure, too, because it may be the best opportunity for me to be of service to my fraternity. Of course, because I feel my own shortcomings compared to the outstanding qualifications of the splendid man whom I succeed, Prof. R. E. Newcomb of Illinois.

However, with a strong resolve to do all my best, I realize that I might be able to make some contribution to the fraternity's welfare and make a most helpful young member of unselfish devotion to a cause.

Since leaving the University of Minnesota at the close of the winter quarter, Bro. Tousley has been doing field work for a Chicago firm of architects, but has continued his connection with THE ARCHI and intends to return to school at a not very distant date.

The fraternity extends to him the right hand of brotherhood in appreciation of his labors and of the high standard he has set for himself.

To Complete Ritual Revision

Already I have set myself to the task of becoming familiar with what is already perfected and of obtaining the most exact and detailed information possible about that which is not yet completed.

It has been the desire of the Grand Lodge to make the ritual of Alpha Rho Chi free from defects of English, anachronisms, improbabilities, and so on. What has been accomplished along this line is without a flaw. My purpose is to pick up the thread where it was relinquished and follow it through to the end—merely completing what was so admirably begun.

So much for the Grand Lecturship. Now, I have a suggestion for another avenue of service which THE ARCHI can open to the members of the fraternity. I allude to an employment service.

My suggestion is that if a brother wishes to change his location, or if he wants to hire somebody, let him insert an advertisement to that effect in THE ARCHI. Although I do not believe in giving a man a job simply because he is a fraternity brother, yet—everything else being equal—certainly would prefer to employ an A P Xer if possible in place of a man who had not trod the same path as I.

ARCHI EDITOR MOVES

ARCHI EDITOR MOVES

SEAT TO ILLINOIS

THE ARCHI regretfully announces the absence, temporary, we understand, of Horace W. Tousley, our Managing Editor. A competent man of affairs, he has since taking up THE ARCHI work given lavishly of his time and effort to the betterment of the fraternity.

Brother Tousley is today probably better informed on Alpha Rho Chi than any of the rest of us, and he appreciates its needs and tendencies with sympathetic insight. Ever diligent in his purpose of building up THE ARCHI and knitting our national organization into firm union and more complete understanding through the medium of THE ARCHI, Horace is a living monument of unselfish devotion to a cause.

Since leaving the University of Minnesota at the close of the winter quarter, Bro. Tousley has been doing field work for a Chicago firm of architects, but has continued his connection with THE ARCHI and intends to return to school at a not very distant date.

The fraternity extends to him the right hand of brotherhood in appreciation of his labors and of the high standard he has set for us in word and deed.

Mutual Benefit Suggested

The idea of this service suggested itself to me just the other day. I have for some time been more or less dissatisfied with the idea that it would be nice to get into the practical work full time again. Of course, I have been practicing a little on the side and it simply gives me the desire to do more.

My first idea was to purchase an interest in some firm and work toward a partnership. The next idea was a development of the first—that perhaps some other Alpha Rho Chi man felt the same way and that we might get together.

As far as I am concerned, there is nothing imminent in the matter, but I certainly expect to make a change sooner or later, and if some brother and I can be of mutual help why not let it be known thru the medium of the 'little newspaper'? As we older men might get together on such propositions, we might also get in touch with the younger generation seeking employment.

I've rambled on very disconnectedly and I suggest that you stop the letter, if you publish it, right after the words "admirably begun." Simply consider the rest as a suggestion for your perusal and meditation.

Very fraternally yours,

JOS. J. PATTERSON.

CHAPTER NEWS

(Continued From Page 3)

ordered by his doctor not to do any work for some time. We hope that Brother Olson will regain his health and be back in school again next year.

During the course of the last month we have had visits from a few of our illustrious alumni. First came Paul Nystrom from Duluth, and peculiar enough, the Delta Zetas were having a party the night after Paul arrived. Brother Nystrom reports that business is very good in Duluth and that he is prospering. Not long ago Anton John son of Milwaukee, Wisc., came in for a couple of days. We saw his travelling bag sitting around the house, but we didn't see much of Tony; of course, there is a reason for that. Most everyone feels sure that both Tony and Paul came here to make a few preparations to take the fatal step. Henry Gerlach of Mankato dropped in one evening for dinner and a short visit; he was in the cities on business.

On the evening of April 9th the wedding of Charles R. Barnum to Miss Mabel Glasgow took place. This tells only half the story, for it was a double wedding—Dr. William C. Bailey married Esther Glasgow at the same time. The Barnum and Bailey two ring circus is what they called the occasion. Chuck graduated last spring and is now an instructor in architecture at Bradley Institute, Peoria, Ill. Miss Glasgow is well known to A P X men who have been in school during the last three or four years. The wedding took place at the home of the bride's parents, Mr. and Mrs. George Glasgow, 1494 Capitol avenue, St. Paul. Both couples have the heartiest good wishes of the chapter.

Athletics for the spring quarter consist of baseball, kitten ball, track, tennis and golf. We expect to put a good baseball team in the spring position, but the strength of the kitten ball team is uncertain, for the same men cannot play both kitten ball and baseball. In tennis and track we will be well represented, while in golf there are some hopes for a championship again. The whole chapter has turned to golf for recreation and some good players ought to develop.

"I am teaching this year in the Technical high school here in Omaha," writes Howard N. Haines, '22. "Have all mechanical drawing classes and enjoy this work much more than I did my teaching of previous years in Iowa. Now I have a chance to 'push a pencil' once in a while myself."

Brother Martin Elkan is among those missing this quarter from the active chapter. Due to poor health he has been forced to give up school for a while. Martin plans on moving to California for the benefit of his health and to finish school. It is another case of California profiting at Minnesota's expense.
We had a card a short time ago from Ralph Hannett, '19, mailed from Pomppei, Italy. He tells of having a very interesting trip about the city and of meeting Don Campbell and Bill Inge- man; the three spent some time together in Rome.

Recently, in a letter written on stationery of the Scullin Steel Co., St. Louis, Phil Didrickson, '20, dropped the information inadvertently and not for publication that he was facing a big job as superintendent of the rolling mill. It is not very often we hear from Phil, but we wish him the best.

From the Duluth Herald we recently gleaned the following: "An announcement was made recently at the A.S.A. house at Wisconsin, the engagement of Gladys M. Norford, Albany, N. Y., to Milton J. Anderson, Duluth. Miss Norford is a senior at Wisconsin." Bro. Milt is a Minneapolis '20 graduate who is with W. C. Agnew, Duluth architect. Milt promises some extra fine Duluth cigars on his return trip to the house. Mail 'em Milt, don't wait!

Speaking of Duluth, Bill Ellingsen, Ex '17, a member of the firm of Gullison, Ellingsen & Erickson, architects, was recently married, we understand, but W. E. has kept still about it. Smatter pop?

PAEONIOS—K. S. A. C.

Al Hiesterman, Correspondent.

Prof. Paul Weigel, head of our department, has recently been elected president of the Kansas A. I. A. Besides having spent some time in Europe Prof. Weigel has practiced the profession in New York City, and has done government work in the Panama Canal zone. He is also recognized in Who's Who in Architecture for the educator that he is.

Clyde Cless, our former correspondent, has severed relations with K. S. A. C. for the remainder of this year. He gave his reason for dropping out as eye trouble, but we'll be willing to bet it's a bad case of "heart trouble" for Clyde Henry. Anyway we wouldn't blame him a bit if he spent six hours every day in room two with the other school kids of Rossville. Al Hiesterman has been elected to succeed Clyde as correspondent.

Paenios active and pledges decided to quit pushing pencils for awhile Friday night, April 3, and staged a house dance which, as the evening progressed, waxed very hot.

Leo Albertson writes us from Lincoln, Neb., that he has been working in an office at that place, but failed to state the firm name. He likes the work very much. See next address list.

Carl Frederick Hoelzel, our man of numerous talents, has turned his attentions to auto racing. However, it is a long road that has no turning, and Pug picked the motorcycle cop as his victim. The next morning Carl said, "Good morning, judge." And the judge replied, "Fine, $10."

Prof. F. A. Kleinschmidt has received permission to study at Fountainebleau this summer. He will leave for France the latter part of May and return some time in October.

Ferol "Perceval" Gehring attended the Alpha Gamma Delta Spring Formal at K. U. Lawrence, Kansas, last Friday. We feared for the safety of "Fweetum's" pin, but it has returned safely to the fold.

Lorentz Schmidt, Wichita, Kansas, architect, has again offered a prize for the best lettering plate presented by students of architecture in K. S. A. C. and K. U. Last year seven places were given and K. S. A. C. took all seven places, with Harold Souders placing first. Although it is hardly possible to do so everything is working for a repeat again this year.

Robert Osborne won his Numeral sweater for Freshman Basketball. And Carl Hoelzel his K sweater in Boxing. Carl was Captain of the Boxing team and piloted the team through a very successful season.

O. D. Lantz, our Worthy Estimator, has taken up Marine Architecture and Navigation as a side line. O. D. is building a motor-boat which, if it is a success, will rival Uncle Sam's super- dreadnaughts for size and speed. If it should not prove successful it will undoubtedly prove Uncle Sam's submarine (if the water in the Kau is deep enough for it to sink).

DINOCRATES—TEXAS

G. G. Decker, Correspondent.

Pledge Bro. Joe Mills spent several days in the infirmary recently with the grippe, but is now up and around as usual.

Work is steadily going forward on the sets of the Queen Coronation and Ball, which will be the feature of the Varsity Circus, coming on the 23rd-25th. The coronation will be staged with a Burmese pageant by Oscar Wilds, and the decorations are to be all Burmese in character. Pledge Bro. Kindred McLeod is in charge and is being assisted by the chapter. Bro. Cameron Fairchild visited us recently. He has just recovered from an operation for appendicitis.

KALLIKRATES—VIRGINIA

O. W. Brown, Correspondent.

Oscar B. Flanagan has returned to his home in Cuba, where he left his good wife while pursuing his work with us here. Brother Flanagan will return next year for his degree. He is succeeded as W. S. by Ogdin W. Brown, who has returned to finish his work for his degree this June.

All of the Browns are back at Virginia again. Merle, H. A. and L. N. registered at the opening of this session and now O. W. has returned for the last term.

The baseball season is in full swing at Virginia now and according to Brother Makle, '22, the A. T. men must be enthusiastic fans. He teaches an afternoon class and ought to know.

O. W. Brown has been elected W. S. to fill the vacancy made by the departure of O. B. Flanagan. "Finney" Flanagan thinks he can get his degree next year even with the added burden of the subjects he is not taking this term. In the meantime he has gone to Cuba to roll up some more "dough."

On June 2nd, the State Board examinations in Architecture will be held at the University of Virginia. O. W. Brown and H. J. Lawrence intend taking the exam.

Considerable interest has been aroused by the rumor that the architectural School is to give a Masked Ball as soon as the alterations to our building are complete. We intended giving one last year, but Payweather Gym was not turned over to the School of Architecture until too late.

The modest little cottage we rented for our first home suddenly seemed quite so modest when we discovered that we had to carry it through the summer if we wanted it for next year, but Jimmie Law and Merle Brown solved the problem by saving that they would manage it during Summer School.

We celebrated Easter by having holiday on Monday. It so happened that Monday was Founders' Day and was devoted to exercises in Cabell Hall commemorating the event.

Every time we think of the 17th of May our mouths begin to water, for that is the time set for the spring initiation, a big "feed" and general good time.

ADDRESS CHANGES

Anthensios Chapter

Cheever, Hubert C., '21, 415 E. 14th Ave., Denver.
Dumboltton, Carl P., Ex '24, 500 15th St. N., Seattle.
Gausser, Earl V., '23, 4104 A Ashland Ave., St. Louis.
Robb, Jasper P., '17, 1069 44th Court, Des Moines.
Young, John R., '22, No. 2, Y. M. C. A., Indianapolis.

MNESEICLES STARTS NEW HOUSE DRIVE

Response to Alumni Challenge Raise Hopes of Chapter Action Impeding

With the Founders' Day banquet at the Radisson Hotel as the rallying point and April 11th the date letters coming in from alumni scattered all over the world indicate that they "are all for it." Preceding the banquet officers of the Mnesicles Alumni association sent letters of explanation and inquiry to all members. To acquaint all with the events of the past few months the letter went into detail.

"Most of you know that thru the foresight and efforts of Waddie Wadsworth, Anthimous, 31; Dernetrios, 22; 8200; and others, the fraternity acquired a tract facing the then proposed Stadium at University and Oak. The property was purchased for about $12,000."

An Excellent Investment

"Shortly afterwards an undesirable portion was sold to the University for $5,000 and the balance divided into five sized lots. Two of the lots at the west of the court were sold for $9,500. The two lots on the east we are holding for about $10,000. The larger lot for we are going to build upon ourselves."

"Last fall when a house seemed possible, the Mnesicles Alumni association was formed and incorporated for the purpose of handling the transaction. The organization has been perfected and monthly meetings held. After consultation with our honorary Prot. F. M. Mann was asked to prepare sketches."

"These sketches have been prepared and submitted our statement of needs. They will form a basis of work, but will be changed, for the active chapter, did the unusual and submitted revisions calling for less space, a smaller house, than we gave Brother Mann to believe they needed."

Chapter Makes Headway

"The active chapter has never been in such good shape, financially, they are improving scholastically and are prominent in campus activities. The old house can not accommodate those who wish to eat or live there. The present house is run down and it would be a waste of money to repair it."

"Several hundred dollars of old debts, incurred before their time, have been cleaned up by the actives. To assist the Alumni association has taken over several old accounts, owed by brothers, for collection, by legal means if necessary."

"Naturally the actives are much in favor of the building project, and point out that with sufficient room to take care of members who would like to live in the house they would be even better off than now, and now the house is a "going" concern. We have been convinced that with this added income they can take care of interest on mortgages and other expenses incident to the proposition, all of which has been checked up."

"The letter then went on to challenge men who made the old $30.00 building pledges to increase their to $100 as have all men the last few years. A second challenge was for how much cash by a certain date, if we build this fall? It was the answers to this letter, many with checks for large portions of pledges, that gave the men the spirit of bulldog determination for the success of the project, and made them say, "We'll build this house or die in the attempt!"

OVER THREE THOUSAND

Here is presented a list of the largest colleges and universities of the United States, ranked according to attendance as reported in the 1924 World Almanac:

Banta's Greek Exchange.

DOWN NEW YORK WAY

Comes now Columbia with plans to put herself "up in the air" by erecting a fourteen-story Students' Building at 114th Street and Amsterdam Avenue, to cost five millions.

The ten upper stories of the proposed Students' Hall will be devoted to rooms for students, according to the plans. Nearly 1,000 rooms will be provided. The lower four stories will be used for a large dining hall, accommodating 600 diners, a grill room, a row of private dining rooms and offices for the student organizations and publications.

COOPERATION NEEDED ON DIRECTORY CARDS

The following is a statement of how the Fraternity stands with regards to the directory cards. Brother Strong is attempting to get them all straightened out by next June, and we hope that after reading his letter below, the various chapters will take immediate steps toward cleaning up this piece of business.

Dear Townies:

The chapters have shown some activity toward completing the new directory cards, during the past month, but there is not the evidence to indicate that all of the chapters will have the work completed when school closes this June. Mnesicles has shown the greatest interest, and consequently the best results, and when the fact is taken into account that they have to circulate the cards among one of the largest alumni bodies they certainly deserve the most credit for the cooperation they have given the Grand Council in completing our records.

Younger Chapters Slow

Some of the younger chapters with a comparatively small alumni body who would have a very simple task in completing their new directory cards, have not responded as wholeheartedly as we expected.

Allow me to advise THE ARCHI of the status of the respective chapters: Anthimous, 31; Dernetrios, 22; 8200; Mnesicles, 103; Kallikrates, 15; Andromews, 31; Paeonios, 29; Diocrates, 3; Polykleitos, none.

It is truly hoped and urged that the Chapters enter into this work enthusiastically so that we may have as completed work when school closes this June.

Yours very truly,

T. J. STRONG.

A CARNEGIE RIVAL

Chancellor John G. Bowman of the University of Pittsburgh on November 5th announced that plans were completed for the erection of a fifty-two story building at the entrance to Schenley Park which is intended to house the major part of the activities of the university.

The new structure is to be known as the Cathedral of Learning and will cost ten million dollars. It will be 360 feet long, 260 feet wide and 680 feet high and will accommodate 12,000 students. It will provide classrooms, libraries, shops and laboratories, and construction will begin on it in 1925.
