Theron Chapter Established at Oklahoma

Engineering Hall, Oklahoma A. & M. College, Stillwater, Oklahoma

Alpha Rho Chi on May 22nd and 23rd added to its ranks a tenth chapter by the initiation of members of the Theron Club at the Oklahoma A. and M. College as Theron Chapter.

Joseph J. Patterson, Grand Lecturer, made the installation with the assistance of several members of the fraternity. The proceedings started Saturday and culminated with a banquet Sunday.

Saturday morning was given over to preparation of the hall. During the afternoon the installation team met and rehearsed. Members of the team were H. G. Overend, Anthemos '17, and Paenonios brothers, Merle L. Padgett, '23, Lawrence W. Byers, '22, and Myron H. Soupene, Ex '25.

The initiation began at 7:30 Saturday evening and lasted until nearly 2:00 a.m. Sunday morning. The installation banquet and fellowship get-together was held at the Tee Pee Tea Rooms Sunday evening, followed by the formal lecture and explanations by the G. L.

Brother Patterson writes: "We were all highly gratified with the showing the boys are making in their work. They are first in scholastic standing in the college (oh that some older chapters were!) and are as fine a set of hard-working boys as I've ever seen. There isn't a jelly-bean in the lot.

"As for the faculty we are particularly fortunate. One of these was not initiated at this time because he is on a European trip, but he will come in later. Another, Bro. V. L. Annis, a Pennsylvanian man, is a hustler. In less than a week's time he had parcelled out the paraphernalia to the active men, a piece to a man, and had it all ready when I arrived, even to the draperies and stage settings.

See Directory List

The list of men initiated is given in the directory published in this issue. Several alumni are expected to take the work later in the summer or later in the fall. One of the petitioners, an active man, was absent with the track team and has taken the oath of allegiance and will be initiated later. Four pledges are being carried over for next fall. Several Freshmen are being closely watched for next fall and great things are expected by Brother Patterson from the chapter.

(Continued on Page Eight)
The Grand Council's Directory

CORRECT TO JUNE 15, 1926

Only such men as have been initiated and have a directory card in the Grand Council file are listed in this directory. To all men, we suggest, that you scan the whole list for men of other chapters in your vicinity, forge the links of friendship in Alpha Rho Chi.

Norris, Paul, 29, 1857 Oregon Ave., Chickasha, Okla.

THEORON CHAPTER IS ESTABLISHED NOW

Continued From Page 1
Bryan W. Nolen was president and Hugh W. Brown, Jr., secretary of the old Theron fraternity which is now the Theron chapter. Perhaps due to the fact that both Patterson and Brown thought the other fellow sent us the list of officers elected we haven't found out anything except that Brother Hugh is W. S.

Original organized to petition Alpha Rho Chi the Theron Club at the Ann Arbor convention presented a wonderfully illuminated book of facts supporting their first petition, incorporated therein. That petition could not muster a unanimous vote at the convention so that none was taken, but the convention went on record favoring and encouraging the Theron Club to maintain a house and authorizing the Grand Council to present more information as to the department of architecture at Oklahoma.

Petition Second Time
Finally following the Virginia convention last January a second petition was received and this with data was relayed to the chapters. In the interval the two petitions the department was materially strengthened. The actives were pulling down good awards in the Beaux-Arts society and the Theron Club at the University of Oklahoma is given below. Where a man's home is not in Pittsburgh, his school address is given second.

* Bastian, Max Wilford, 28, 913 Virginia Ave., Lancaster, Pa., 5510 Forbes St., Pittsburgh, Pa.
* Bradley, Herold, 28, 4200 S. 23rd St., Omaha, Neb., 605 Clyde St., Pittsburgh, Pa.
* Davis, Robert, 28, 64 Wilson Ave., Pittsburgh, Pa.
* Edmonson, Herbert S., 28, 305 W. 38th St., Austin, Texas
* Klein, William S., 25, who knows whereabouts?
* Markle, Willard G., 24, who knows whereabouts?
* Simons, C. Clifton, 23, c/o Phelps and Dewar, Gunter Bldg., San Antonio, Tex.
* Wright, Chester C., 24, who knows whereabouts?

Associate Members
* Elkins, E. F., 27, 115 Dickson St., Chattanooga, Tennessee
* Jurek, T. J., 25, 1609 E. 11th St., Austin, Texas
* Martin, W. B., 26, 164 Avenue F, Beaumont, Texas
* McEwan, Mike, 28, Trinity, Texas
* Mills, Joseph M., 27, 727 West Page, Dallas, Texas
* Murdison, Herman, 28, 305 W. 38th St., Austin, Tex.
* Olson, Carl R., 28, Cisco, Tex.
* Story, Donald C., 27, 5554 Lexington Ave., Chicago, Illinois
* White, James E., 28, 423 E. 10th St., Crowley, Texas

Pledges
Burke, M. A., 28, Floydsada, Texas
Gleesock, Fred E., 28, 401 E. 24th St., Austin, Tex.
Millhouse, Chaas. A., 28, 505 W. 38th St., Austin, Tex.
Nagle, Fred S., 27, 2624 Sedalo St., Austin, Tex.
Phinney, Edward T., 28, Brownwood, Tex.
Pressler, Paul E., 27, 162 E. 30th St., Austin, Tex.
Wylie, Orval L., 28, Cleburne, Texas

Deacon, Glenwood A., 24, 2572 Poplar St., Lynchburg, Va.
THE ARCHI

Knapp, president, was given absolute authority to secure the best man available for the architectural department regardless of the salary to be paid. Indicative of the growth of the college, three new buildings have recently been added to the campus.

Organized Seven Years

Theron chapter was organized in 1919 with the avowed purpose of petitioning of Alpha Rho Chi. At present they have twenty-four alumni, thirteen active and four faculty members, of which number two were initiated. None of the alumni have as yet been initiated, but the actives have.

The architectural department now consisting of 54 members was organized in 1912. At present there is a faculty of five members devoting themselves wholly to architecture.

Of the signers of the second petition four were initiated at this time. One Andrew Balfour, track man, has signed the oath of allegiance and will be initiated soon. It was felt that he owed his loyalty to his school as a member of the squad, hence the action in his case.

What They Do

W. V. Harber dropped out of school in February because of health. Orville R. Walker, who will be remembered as one of the first petition signers, graduated at the end of the winter quarter and is working in Oklahoma City. Charles Thompson married and dropped out of school temporarily about three weeks before the installation. Walker will be initiated later, and Harber and Thompson when they return to school.

Of the brothers initiated, Stricker is an Acacia and active in Scabbard and Blade. McKee is an R. O. T. C. captain and wrestles some. Nolen sings in the Glee club, while Holyfield plays in the band. The latter is a Kappa Kappa Psi. W. A. Brown is an R. O. T. C. officer and is now working in New Orleans, La. It is rumored that he will soon be back in Texas again. The band man, Summer, is a Sigma Phi Epsilon member and Bossard a Kappa Kappa Psi as is Flood.

MOLANDER MARRIES MUNE

They say that when the minister pronounced a couple, man and wife, that the two arc one. However, in Minneapolis, on June 29th, there were two smiles that while united in matrimony, we are sure will continue to shine as two.

We have an announcement from Mr. and Mrs. George E. Boynton, of the marriage of their daughter Maye to Bro. Edwin W. Molander, Mnesicles '25, at the First Congregational Church. They will be at home in Minot, N. D., and Ed is in partnership under the firm name of Bugenhagen & Molander, architects.

The Boyntons stand high with Mnesicles chapter, for when the University blocked the first start on the new Mnesicles house, they gave up their River Road home to Mnesicles chapter; hence the well wishes are stronger than ever for "Sister" Maye and Brother Ed. Keep smiling, both ave yez.

The Chapters

DINOCRATES—TEXAS

J. W. Law, Correspondent

Within the last month, we have lost two active members—Jimmy Buchanan was forced to withdraw from school because of his health, and Don Story went to Chicago to go to work.

Gerald Decker, '25, has left Florida and is now working in New Orleans. It is rumored that he will soon be back in Texas again. The latter is a Kappa Kappa Psi. Brother Vosper of San Antonio has recently been organized with the avowed purpose of giving Dinocrates some reinforcement. The members of the chapter thus far are S. C. P. Vosper, Malcolm Simons, William Kleine, Colonel Simmons, and Raymond Everett. The fact that the graduates are behind us gives fresh encouragement.

In our election held the first meeting in May, Brother Joe Mills was elected president, and Brother Harold Jessen was made Secretary-Treasurer. These boys have lots of plans and ambition. We are expecting great things from them.

To celebrate Founders' Day, it was attempted to have all the alumni in Texas here at the chapter house. The attempt to get all fell a little short of the goal set, but a very good representation was here. Brother Vosper of San Antonio offered a prize for the best design of a chapter house for Dinocrates. Brothers Simons, Simons, and Kleine, also of San Antonio, prepared the program for the competition and set the date of Rendu and of judgment for that of the Founders' Day celebration.

The actives of the chapter grew quite interested in the problem, and a number of good solutions were submitted in spite of the fact that everyone was forced to work early and late on Beaux Arts problems at the same time. Brother Buchanan, now in Fort Worth, won the prize of twenty-five dollars.

POLYKLITOS—CARNEGIE

James Paul, Correspondent

At our last meeting in April the following men were installed as officers for the coming year: Lee Twolig, W. A.; John Ropp, W. A. A.; Commodore Weinert, W. C.; Bernard Wagner, W. E., and Thure Leivo, W. S.

The other day when the seniors were on charette we were all surprised and greatly pleased by an unexpected visit from Brother Weatherhead of Andronicus. He came out to look the school over while changing trains, but we were very sorry we were all so busy. We rounded up most of the fellows as soon as we found who our visitor was, and then we had a short but interesting time talking and asking questions.

On May 4th we had our meeting at the Acacia house. Our speaker was C. M. Stotz, who gave us a very interesting talk on Europe and showed us some of his sketches made while abroad. Brothers Forsythe and Beldry are sailing on June 23rd for a visit of four months, and we surely do envy them.

Polyklitos is losing eight men with this year's class, but the new men are capable of carrying on with a bigger and better chapter than we have ever had before. We are gradually working toward a house, and it should not be long now until we can hope to be able to support one.

The competition for the A P X cup for the best decorated fraternity house was at a high pitch now and at present they all look like winners, but we are leaving that up to the judges.

THERON—O. A. & M.

Hugh W. Brown, Correspondent

We wish to advise you of our list of officers of Theron Chapter; they are as follows:

Bryan W. Nolen, W. A.
John Stricker, Jr., W. A. A.
Hugh W. Brown, W. S.
Harold F. Flood, W. C.
Carl F. Holyfield, W. E.
Harold L. Redding, W. S.

I am trying to be prompt with all my business correspondence while here in camp at the summer training camp at Fort Sam Houston, San Antonio. Find it hard to quite do so as we are busy all day long with drills and many formations, the most important of which is mess.
From The Editor's Mail Box

Whither We Recount Things and Thoughts Which Come To Our Attention.

Remember last month we said that we didn't know why we had not heard from Brother J. J. Patterson, G. L., with his story about the old architects, after whom our chapter is named, if only we found out that there was a good reason—Mrs. "Pat" and their babe were both sick with flu or something.

Our worthy friend however has been busy since he only turned out the required yarn but he also directed the installation of Theron Chapter at Oklahoma. You see, Brother Pat was on the faculty there for several years and really planted the seed for Alpha Rho Chi so that it was more than fitting and proper that he install them. However as G. L. that was his job anyway.

P. S.—We learned another thing about the Grand Lecturer the other day. Bein' as how your editor is not far from Duke Strong's abode we drop around now and then to see the W. G. E. and his wife. Mrs. Strong is responsible for the information that Brother Patterson has a splendid voice. A little detective work revealed the fact that he is soloist for St. Andrew's Episcopal church, Fort Worth's largest.

A recent mail brought an announcement of the installation of XI Chapter of Sigma Phi Sigma at the University of North Carolina.

Another letter from the South came from Malcolm G. Simons, Iktinos, '14, one of the chapter men of that Michigan crew and prime mover in the establishment of the Dinocrates chapter. SI is in a partnership at San Antonio and is strong for The Archi. We're glad, he says:

Of Real Value

"A little example of the real value that our publication serves, not only telling of the chapter activities at the several universities but also what the old-timers are doing and where they are located."

"It was through The Archi that I learned that Brother Blessey, Mnesicles Ex '20, was stationed at Brooks Field—otherwise he may have been here and gone, and I would never have known it."

Speaking of Mnesicles. That gang are sure humping with their house and they are keeping The Archi advised better than the Iktinos bunch. In fact I am just advised that one of the Mnesicles alumni in Detroit, Anthony H. Grisson, '25, just kicked thru with a check for $100, his full house pledge to aid the new project. We know many brothers better able who haven't done half that good. Perhaps dollars and cents are not gauges of a man's interest in his fraternity, but it is a good indication of which way he is leaning.

A Boy Now

Some of the fellows have greater responsibilities than Shorty, for example Roy O. Papenthien, '21, who announces the arrival of a second child in his home—Thomas Roy. Little Ruth Mary will be two years old this next August. These with his office keep him humping, but Roy says, "My final payment will be in before the house is finished." Somehow the bug gets them all, and when they see the house actually nearing completion it brings in the support from the loyal.

Lec Alberding, Paeonios Ex '25, wrote the other day from Lincoln, Bill Bryan's old home, and said that he is doing architectural superintending on a five-story store building and a fine Gothic church at the time. Great game, this outside "Ding."

There are some hard nuts to crack now and then. We just learned today from a specialty man of a certain Anthropies alumni, class of '16, who was beat up several months ago by a painter larger than he was. The specialty man says our brother was right and a gentleman. If the brother reads this and communicates with the editor we will keep his name to ourselves.

Tom Is Chief

Another man who has had nuts to crack, inside however, is Tom Tanner, Anthropies '17, who is chief draftsman for the Holmes-Powers combination of school architects of Chicago and Lansing. Tom is in charge of the Michigan department. He is married but has no kiddies.

Adolph O. Bodina, Anthropies '15, also wrote us recently and is in charge of a branch office in New Rochelle, N.Y., for John Eberson, theatre architect, with whom he has been since 1920. "At present have seven draftsmen, but none with a good thorough Illinois training." Bro. Budina is married and has two daughters, Margaret Jane S. and Barbara McCravy 2.

Want More Bensons

Thank you, Benny, old top. Do you know that it wouldn't be hard to publish just that kind of an issue every month if we would get the same kind of support from all we write to for information that we do when we write to you. I am thinking now of a couple of old-timers—Dick Crook, of Michigan, and another an Iktinos brother who haven't answered us yet. Personally I think you are busier than either of them, perhaps both. And we will continue to serve you until next October to investigate the past of Olaf Theron.

And speaking of shop talks, among the family so to speak. Our Business Manager, Paul E. Nystrom, has moved to No. 6 Munger Terrace, Duluth. Therefore, gather together your dollars and complete paying your life subscriptions by mailing them to him at that address.

By the way, this bird, Nystrom we heard rumors up and got married recently and kept the information from your editor with the hopes that it would not be broadcast upon the front page of The Archi, if it were not for the fact that we have the issue almost made up at this issue we would sure spread it there.

For upon rumor we wired Bro. Paul and received the following wire in response: "Married May twenty-ninth, congratulations mutual." That wire don't tell a whole of a lot, does it? Let's look into history. The last we knew Bro. Paul E. Nystrom, Mnesicles 24, Duluth architect and business manager of The Archi was engaged to Miss Edith Foster, Minnesota '24, a Delta Zeta from St. Paul. Paul didn't mention the young woman in his wire nor have we heard of any family row, so to speak. Our Business Manager, Paul E. Nystrom, says "Congratulations mutual."

Notice what Paul said about congratulations being mutual? Well better look at the Mnesicles chapter notes, you see you editor to do has an assistant in the person of his better half who is united with him in thanking the Chicago Alumni Chapter for a splendid re-rememberance at the time of our wedding. We are happy that you let us to meet this fine body of up and at em A P X men. Again, we more than appreciate.
1916 — CHAPTER NEWS — 1926

Items in this column are taken from Vol. 1, No. 1, January, 1916; exactly as they appeared in that issue.

Anthemios Chapter Letter

The Fifth Annual Home-come at the University of Illinois was held October 28 and 29, 1915. Since a number of the alumni of Anthemios Chapter indicated their intention to Alma Mater and take part in the celebration, we decided to take advantage of this opportunity and have a home-coming of our own.

The old graduates began to pour in Thursday evening, but the majority made their appearance Friday afternoon. After the usual, or rather unusual, greetings and the numerous exchanges of compliments, we had a real "get-together."

Our house was decorated with autumn leaves, corn, jack-o-lanterns, etc. Among the many features on the program was the Senior Hobo Band. It is not for us here to describe the costumes with which these serious-minded and dignified seniors dabbled themselves; in fact, we are sure no words in the English language would suit the occasion. Dancing was on the boards from eight to twelve, with music furnished by a three-piece orchestra.

The following alumni were present: Wadsworth '14, Dunlap '14, Boonstra '14, Wole '13, Benson '15. Chapereones were Professor and Mrs. Provine, Dr. and Miss Ricker and Mr. and Mrs. Santre.

In a recent letter, Brother Bullard (Honorary) of Tacoma, Wash., says that business is picking up in the West and that a marked improvement is anticipated the coming year. Brother Bullard has been devoting himself during the past six months to school building work in rural and village districts, in which the educational and social center ideas are united.

Extra! Extra!
The July Pencil Points just received with the advice therein that A P X men won first and second places in the Prix de Rome and that a third Arochi man won the McKim Traveling Fellowship at Columbia. Clarence Dale Badgeley placed first. Brother Badgeley, Demetrios 23, following his graduation at Ohio State, went on to Columbia University for graduate work. He is now a member of the Architectural League of New York and Tau Beta Pi as well as Tau Sigma Delta. His prize, three years study at Rome, amounts to practically $2,000 per year, as quarters and living are provided in addition to $1,500 per year.

Homer F., (Sig) Pfeiffer, Anthemios 25, placed second in the competition and Illinois men are proud that two A P X men placed at the top even if Sig could not be first. Drawings of both Badgeley and Pfeiffer appear in the July Pencil Points.

Russell M. Krob, a class mate of Badgeley's both at Ohio and Columbia and a member of Demetrios Chapter, won the McKim Traveling Fellowship and sails about the first of August for a year in England, France, Italy, Spain and Greece. Badgeley will sail about the same time.

1926 CONTRASTS

Before he graduated, True blood? Yea, Bo!

Another Tau Sig man is this Harold M. Kieter mentioned in the opposite column. Harold, last we knew was still parking his feet under a Detroit architect's table. He is a brother of Leroy, recent Iktinos active.

Today Lind, Geo. J., '14, is on the west coast (see directory) supervising construction. He's married. J. Darby Kenyon, '17, we understand is practicing in the Donovan building, Detroit, although recent attempts to communicate with him have been unavailing. We hope it's because he is busy.

Irwin, Arthur C., '16, we had the pleasure of meeting recently in Chicago, where he now resides and earns his daily bread. Art is active in his associations with the Chicago Alumni chapter.

DRAFTING AS AN INDOOR SPORT

By F. Cox Stanton, Ikkinos Ex '16

Following the policy inaugurated in the April issue we are continuing to make available material published in the earlier numbers of The Archi. The "Yarn" herewith appeared in the first issue of The Archi. We reprint it so that old timers and youngsters both may enjoy it.

To a youth excessively endowed with architectural ambition, influential relatives and collegiate degrees, decorated with the Honor Society's Iron Cross, possessed of an aesthetic disposition and imbued with an overwhelming passion to work himself to death, it is, perhaps, no small task to leave the warm fraternity fireside, his kind friends and solicitous creditors and journey to unknown and cheerless regions in search of luminous light.

But when one is of the common clay, not averse to a little sleep or an occasional meal, in whom the three o'clock impulse to quit the drawing board for fairer company is strong, and who boasts of no academic honors save a Sunday School diploma—when such an one, I say, suddenly discovers that his monthly joy—giving-check-from-home is no more, a financial crisis, yea, even a panic is imminent.

When the crash came to the author last June his first thought, naturally, was to turn to his chosen profession in the hour of trial. He sought out his kindly professor and faculty adviser and without mention of course, the mercenary, material and pecuniary difficulties, made known his intention to quit, for a time, the academic shades and plunged at once into active practice. The venerable gentleman was both surprised and grieved. A desire to obtain a more intimate knowledge of the profession than could be gotten from books, he pointed out, was both unusual and unnecessary. Neither he nor his colleagues had ever forsaken their cozy study chairs for the sordid practical field. "Why then," he said, "should you?"

That Made Milwaukee

But in the end I had my way and a day later I found myself being blown about by the rain-scented winds of fast and famous Milwaukee, eagerly assimilating Teutonic kultur, habits and products, and earnestly seeking an employer capable of appreciating a delicately organized, highly susceptible intellect, however feeble.

My original plan was to devote the whole of the first afternoon to the consideration of employment offers, the decision to go out that same afternoon for a burlesque show and a tour of the Palm Gardens afterwards. Later, I saw fit to withdraw my signature from any pay roll for some weeks. In a city whose civilization requires registration of no one save the saloonkeeper and who distributes licenses to none but dogs, architects hold forth in great numbers. Besides, one cannot be too careful about caressing a boss. It pays to go slow. I hope sentimental sophomores will realize this and steer clear of boulevards these spring evenings.

One fault I find with architects as a class—and I have met all the Milwaukee ones—is the absolute lack of any average consistency in their interest for the struggling draftsman. One Stereo they refuse to reply at all to your patronizing "Good morning" or you find that after ten minutes in their company, you have without boasting, of such opulence that the Keeley cure, betrayed Brother Willie's trouble about the bank and told why you, yourself, prefer oranges to bananas, pajamas to nightshirts or the basic day garment furniture for the drawing board. The Ideal Employer

So it was that the summer slipped by and yet no glimpse of the ideal employer. Some half dozen times I thought I had found him, but in each case the disillusion came within a few days and we parted, as much in anger as in sorrow. Along towards Christmas, I was beginning to think of hiring out as a choir singer, bar tender or something or else to transfer my sole allegiance to the Baltimore Lunch, where I scrubbed floors nightly and for which I and my tape-worm received abuse and nutriments. But at last I found him, my Perfect Man.

From Rome to Pompeii

"Good morning" or you find that even though you are some 6,000 miles away from home and continuously moving about you are still able to get your monthly copy of The Archi as usual, this is certainly worth commending.

"We arrived in Cherbourg, May 5th, after a very enjoyable ocean trip. After a few days and a stay in Paris I started south through France, arriving at the Riviera in time to have a very enjoyable birthday party at Nice with a crowd of Americans we met at Marseilles.

Lindeberg in Europe: Writes of Travels

Enjoying The Archi Abroad; Expects Rolleston In July.

It is with a great deal of pleasure that we publish, almost intact, a letter from Bro. Geo. L. Lindeberg, Anthemos '18, who is now traveling in Europe. If all the subscribers would keep us advised when they travel we could give them 100 per cent delivery on their Archi as we do with Lindy.

"My Archi came to me while in Rome, and you can take my word for it, I thoroughly enjoyed every word of it. The Archi staff is certainly to be congratulated in the efficient way in which they are handling the work. It certainly is a grand and glorious feeling to know that even though you are some 6,000 miles away from home and continuously moving about you are still able to get your monthly copy of The Archi as usual, this is certainly worth commending.

"We arrived in Cherbourg, May 5th, after a very enjoyable ocean trip. After a few days and a stay in Paris I started south through France, arriving at the Riviera in time to have a very enjoyable birthday party at Nice with a crowd of Americans we met at Marseilles.

"Again we were on our way this trip across the Mediterranean on one of the most enjoyable moonlight boat trips you can imagine to Palermo, Sicily. It was getting quite hot by this time, so we decided not to linger longer, and in the few days we were on our way across the sea again to Naples and then our trip north was started.

"We found better weather in Rome this time, so spent ten days there. Then on to Florence, where we are now located. During our stay here we took a ten days trip through the hill towns of Central Italy which was very enjoyable.

"In a few days we will be on our way again, this time to Venice, then the Italian lakes, up into Switzerland, and then it is a question whether I continue on up through the Rhine valley into Paris or short cut back from Lucerne and then into France again.

"A letter from Rolleston, W. A., Anthemos '25, states that he will be Paris, July 13th, where I expect to meet him; also a letter from John Tanner, Anthemos '16, states that he is now in Switzerland, but hopes to be in Paris some weeks in July."
