KECK TALKS TO THE
CHICAGO ALUMNI MEN

And Starts Lively Discussion On
Modern Architecture.

Chicago’s recent alumni meeting, (Octo­ber’s) turned out to be one of the most interesting they have had.

Bro. Geo. F. Keck, Anthelios ’19, gave a talk on “Modern Architecture” which stirred up considerable enthusiasm. Not all were in favor of modern architecture, but rather pro and con.

He set up Frank Lloyd Wright and Louis Sullivan as men who had courage of their convictions and dared to do things different. Bro. Henkel, (Andrew Ex 21) sat next to Keck and was much of the same mind.

Argument Refreshing

Ralph W. Hammert, Mnesicles, ’19, and C. F. Baker, Paeonios Honorary, took the more conservative side and maintained that no progress or development came about without respect to tradition, that men shooting out wide projections over openings or doing illogical things for the sake of being different were living a hundred years beyond their time. They felt that a new development in style should be evident, say in a matter of not less than ten years.

Everyone took part in the argument and all went away feeling refreshed and benefited by the meeting. Brother Keck made a statement that the engineers were responsible for the modern development in architecture, this of course resulted in an “enlightening discussion.”

Harford Field, Chicago A. A., is working up a debate between Hammert-Baker and Thorud-Henkel combinations. The former to take the affirmative of “Resolved that the Architect determines the architecture of the modern skyscraper.”

P. S.—When in Chicago register at Bro. F. E. Dunlap’s office, 30 No. La Salle St., Chicago.

—Paul E. Wicklund, A. S.

JIM PURCELL WEDS

A recent mail brought to us the announcement of the marriage of Florence Alice, daughter of Mr. and Mrs. Andrew Anderson of Chicago, to Bro. James Sheldon Purcell, Anthelios ’24, on Thursday, October 14. Brother and Mrs. Jim will be at home after Dec. 1st at 6234 N. Irving Ave., Chicago.

Mnesicles Occupies New Home

By Frank S. Moorman

Mnesicles Chapter of Alpha Rho Chi, located at the University of Minnesota, is the first chapter to plan, build and occupy a new house of their own. The development of their housing project has been phenomenal. The president of the Alumni Association writes the following story.

EXTERIOR OF THE NEW HOME

Yes, ours were extravagant dreams, but certainly no one who has seen the results can make the statement that they were not realized in their entirety.

Mnesicles has had many ups and downs in her building program with shining examples of patriotism in its ranks, and mutiny among the rank.

However, our new house now stands because of the wisdom of the older men who started the house on its way, and the wonderful manner in which the alumni have come to the rescue. A lesson has been learned which can be imparted to other chapters that may need a house; that is, “set your man,” and if so, your troubles are over.

Best at Minnesota

It is not hard for us to wax enthusiastic; but to hear men from other fraternities pronounce Alpha Rho Chi house the finest though not the largest house on the campus of the University of Minnesota gives you a better idea of what has been done.

The history of the manner in which we originally procured our original property, drew up plans and commenced work on our original “homesite,” and then how we sold our land and our base­rnent to the University for a handsome sum is an old story. This article will be confined to the house as is.

Our new house is on Nineteenth Ave­ue S. E., round the corner from University Avenue—Fraternity row. It is directly across from the future field house which will take up a square block and part of which, by the way, will cover A P X’s original property.

Stadium Half Block Away

Seventeen houses on this square block are being condemned and will soon be torn down to allow for the commencing
of operations. The new stadium is but
half a block away, and added to that, the
fact that we have a nice cosy location
of over a hundred feet frontage off from
the bustle of University Avenue, we feel
more and more that a wonderful loca-
tion for a house was selected. We
pioneered in lot hunting, but as all suc-
cessful pioneers pioneer, we also made a
success.

The photographs indicate the char-
acter of the exterior—English with
brick, stucco and half timber. The land
has already been sodded, and just re-
cently landscaped. If we can't claim the
distinction of having distinctly the most
distinctive exterior on the campus, then
we don't guess. But, really, it is the
interior that gets the exclamations.

The first impression after going in to
the entrance hall from the vestibule is
the rustic, rugged picturesque appear-
cance from the cloister-like effect of the
three pointed arches, leading to the stair
hall, to the light stained woodwork;
massive entrance doors, rough plaster,
and iron hand hammered light fixtures
and hardware. Two small Oriental rugs
are placed on the floor of the hall.

A Spacious Lounging Room

Our lounge room at the left, running
the full depth of the house, having a
low ceiling with heavy, rough, stained
beams and a battery of six ceiling lights
hanging therefrom. The fireplace is at
the west end with a mantel over-covered
with various trophies. A nook is cut in
the wall at either side framed with
Gothic arches.

In front of the fireplace is a deep
seated davenport backed up with an
antique looking, twisted legged, nicked
up, knocked down (no) davenport
bought after reductions totalling sixty
per cent in price were placed thereon.
The store selling this could not find

any one crazy enough to buy this—we
did—and it fits in nice with the scheme
of things.

A new Wilton rug was purchased and
the drapes also are new—as they are
for the whole first floor—and very
beautiful, by the way—with twisted iron
hanging rods. A new Orthophonic
shrieks its ap-or dis-approval of things,
and various other furniture—chairs, the
new Grand, are strewn around on the
floor. The card room is very cosy in
times of dance as several will blearily
testify.

The studio is at the north end of
the house to the right of the entrance hall
with a fireplace, also, trophies, etc. In
fact, the trophies strung through are very
cumbersome, also graceful in design.
A bridge lamp, bookcase, table and
davenport help complete this very home-
like room. A door opens off to the fire
stairway. No buddy nose nothin' of the
maids and matron's quarters, so the only
way we can instruct you on this is to
look at the plan.

Of course, after leaving the first floor,
we naturally fall in to the dining room
in the basement. This room certainly
whets your appetite. At present, its
walls, including the walls of the Chapter
room, (the Chapter room, by the way,
is also being used as a dining room,) are
plastered with paintings and sketches of
Ralph Emmett—No, I mean graced, be-
because they certainly are beautiful, and
they have attracted much favorable
comment while on exhibition here and
at the architectural department.

The kitchen is very compact with a
Frigidaire system included; and over on
the other side besides the girl's coat and
wash room is the boiler room—with a
steel boiler and Sundstrand oil burner.

Bed Rooms Now Full

On the second floor one finds the bed
rooms, nine of them, all occupied—with
at least two men apiece—some more.
The corridor separating the various en-
campments is covered with cork flooring
on which bands of checker players can
be seen at twilight considering their
play.

The toilet has besides other thin' a
tile floor, three lavatorie~
and TO
sprinkler systems for the
which
by the
ray
have marble partition.

A Spacious Lounging Room

Our lounge room at the left, running
the full depth of the house, having a
low ceiling with heavy, rough, stained
beams and a battery of six ceiling lights
hanging therefrom. The fireplace is at
the west end with a mantel over-covered
with various trophies. A nook is cut in
the wall at either side framed with
Gothic arches.

In front of the fireplace is a deep
seated davenport backed up with an
antique looking, twisted legged, nicked
up, knocked down (no) davenport
bought after reductions totalling sixty
per cent in price were placed thereon.
The store selling this could not find

in the attic things are unfinished, but undoubtedly we will have to do something soon in the way of fixing it up as a dormitory to take care of additional men.

And now we come to the conclusion. The house, inclusive of the lots, sodding, landscaping, various fees, a lot of new furniture has cost us approximately $45,000.00—altho a considerable amount of money was saved on refunds from material concerns.

Only a First Mortgage

The only obligation standing is a $15,000.00 mortgage, which, together with the interest, will be paid off at the rate of $1,000.00 per year by the active chapter in the form or rather the equivalent of rent.

An inventory of matters as regards the Building Committee reveals a lot of used up gasoline, meals away from home, some good feelings from some alumni, some darksome looks by others, and a clean conscience on our part, for we did our best notwithstanding.

Aside from the splendid help given by Ai Flegal and Chet Carjola of the actives, the Building Committee including Arnold Raugland, Chairman, Larry Bakken, V. P., George Poulsen, Secretary, and George Freeberg, Treasurer, worked with a right good will. And also Harold Peterson, W. G. S., before his departure for the N. P. These men deserve a mighty lot of credit from someone, for the past two years has meant a whole lot of hard work. And then we must not forget Brother Professor F. M. Mann, who drew up the plans. Last but not least stands Winthrop W. Wadsworth, Anthemos '14, dealer in finances, and real estate whose vision more than anyone else made the house possible. So the house and this article are done—and an invitation is hereby issued to all men from other chapters, to see what we have, and—to use our new phonograph, showers, and door mat.

THE CALENDAR

Oklahoma Aggies vs. Grinnell, Stillwater

NEW INITIATES

Not until the W. G. E. receives (1) yellow directory card, (2) triplicate certificate of membership order, (3) the required fees and (4) badge approval stub does a man's name appear in this, the official Grand Council list.

Paonios Chapter—Oct. 3, 1926
Rayle, Herschel H., Osawatomie, Kan.
From The Editor's Mail Box

We recall things and thoughts which come to our attention.

Well, folks, here we are, off for another year. First of all several of the chapters have new houses, but as yet we have but one picture to publish and since we must have another picture this month we refer to the letter which came from the W. G. A., Brother Ely, this summer. Says he:

"I have noted with interest likenesses of various Fraternity celebrities appearing in The Archi from time to time and I think it quite likely that the members at large would be interested in a glimpse of Ye Editor. No doubt a natural modesty and lack of circumstance have caused this neglect, but you may feel free to mark it 'by request' and is not the recent matrimonial venture a sufficient reason? Hoping that you may see your way clear to favor us."

There, that's the boss' orders, written by the mailed fist with a glove on it. According to Hoyle it is poor taste free to mark it 'by request' and is not the recent matrimonial venture a sufficient reason? Hoping that you may see your way clear to favor us."

Incidentally we do know some of the non-subscribers better than we used to! Why? You know.

"But to get down to business of the mail box. Today the October Pencil Points came and it is full of interest for A P X men. First of all there is a splendid article about Bro. Cass Gilbert, Master Architect. The story is one of the series of Master Draftsmen and should be read by every Arochi man, alumnum, active and pledge. Brother Gilbert is keenly interested in our Fraternity and every man therein has a right to be in him. A number of his water colors are reproduced, he is our Master Architect.

Another story, by Bro. Thomas E. O'Donnell, Anthems '13, is about the Rickers Manuscript Translations. Pencil Points plans to give the gist of many of our late Master Architect's works according to their announcement. Watch for them. Dr. A. Clifford Ricker, former head of the department at Illinois, who died two years ago, was a strong backer of A P X when organized; we owe much to him that we can never repay. Brother O'Donnell, who worked under Dr. Ricker in the department, is well fitted to handle the matter as he is one who learned much under the magic spell of the Old Master.

Two water colors by Homer "Sig" Pfeiffer, Anthems '23, of "Como" and "Cairo" are published in the October Pencil Points.

Received word from Ralph H. McKee, Theron, '26, the other day. Brother Ralph is working for E. J. Peters, Shawnee, Okla., architect. The young man is contemplating marriage, having become engaged to Miss Clement Baker of Shawnee. Miss Baker is an accomplished musician and a graduate of the Oklahoma Baptist University.
A letter from Business Manager Nystrom states that he and A. B. Berg, Iktinos '26, are working for Thomas Schefelik on plans for the new Duluth City Hall.

Donald B. Ewing, Demetrios '16, mailed us a wee card bearing the glad tidings that Barbara Joan was born August 22nd. Mrs. Ewing was Irma Kuener before her marriage to Don in September, 1920.

Speaking of marriage, Ogden F. Beeman, Mnesicles, a member of the architectural staff at Washington State college, Pullman, was married to Miss Floy Fay Bean, Tri Delta, of Pullman. Mrs. Beeman is a teacher of voice and a Washington state grad.

Another announcement came from Herbert Dale Schnitz, Iktinos '26, who was married Sept. 4th to Miss Frances Sutton, a Michigan U girl from Detroit.

And another was the announcement of the marriage of Elton K. Crowell, Mnesicles '21, to Miss Eleanor Stanchfield, a Minnesota Sigma Kappa. Both are from Minneapolis.

To all of them, we extend congratulations and hope they will be as fortunate and happy as your editor has been since June.

Oh yes, we got another announcement, our friends Burr, Patterson & Co., official fraternity jeweler, are joining forces with Auld's, Inc. under the new firm name of Burr, Patterson, Auld & Co.

The good old egg, Chuck Sutton, Iktinos '21, dropped us a line from New York, where he is with Vitale & Geiffert, landscape architects. He reports having met Eddie Newcomb, Andy Phillips and "Sig" Pfeiffer of Anthemios, MacMillan of Polk-Kittes, Axline, Black, Lovejoy and Williams of Decemus and Backstrom of Mnesicles.

Chuck is of the opinion that they will have a good time together soon. Eddie Newcomb arrived there a short while ago and is with Upjohn. "Sig" is with Walker and Gilette, Charles, look up Ed Loye of Mnesicles.

Speaking of chuck. Chas. Barnum, Mnesicles '24, instructor in architecture at Bradley Poly, at Peoria for two years, has joined the U. of Mich. staff. Look him up Iktinos. He has some good hell week stunts.

An epistle from Wm. T. Townes, who left Florida before the last big wind, gives a number of new addresses for men in Florida. Bill, Mnesicles Ex '26, is now in Knoxville, Tenn., in the office of Barber & McMurray.

Bill Ingemann, Mnesicles, copped another house prize this summer. One offered by the Conrete Products Association of St. Paul. The house is under construction and is entirely a concrete structure.

Bro. Warren L. Rindge, Iktinos '16, sent us the address of Cecil A. Northrup, Iktinos '19, recently. He adds: "Not much news in Grand Rapids. Things are progressing nicely. My brother Ken is with me and we hope some day to make 'em sit up."

ANTHEMIOS—ILLINOIS

"Burr" Patterson, Correspondent

We all became uncles this July when Brother "Windy" Parks became the proud father of a ten-pound boy. He is named Loren Ernest.

Fredolph Cerling '26, embarked sea last June upon the off-mentioned sea of matrimony as skipper in company with Miss Mary Sparks '23, a Delta Zeta of considerable prominence in campus activities. The "fair domicile" blossomed forth during the summer with a double coat of paint for which Brother Searcy is largely responsible.

Boydston Satterfield has just returned from Europe, where he spent the summer after a year's absence from school. September also witnessed the return of Bob Mayberry and Otto Winn, who left as Satt did last year. "Otey" rated publication in a Beaux Arts Bulletin, which was delivered this summer as did W. A., Bob Mitchell.

Burford Pickens was down to captain our rushing, but as fate would have it, he is not to be in school until the second semester. Brother Costello, however, is back to delight the music loving public at Bradley and become cultured in a course in L. A. & S.

The vacation brought the news of "Sig" Pfeiffer, placing second in the Rome Fellowship competition. That's mighty-good work, we think.

We're also proud of "Tin" Hall '26, and "Kewpie" Beidler '20 who passed their state exams last spring. Rolleston, '25, writes that he is sojourning in Italy at present, but will return about Christmas to make his abode with Sutton '22, in New York.

Don H. Ellison, Mnesicles Ex '20, has left Minneapolis and is now in the Madison Law, Law & Potter, where he reports the beginning of a son George Prentiss, born June 6th.

Good luck.

And so goes the record of life. Drop us a line, boys. We have moved since the last issue was out. We are now at Alton, III., where we are supervising work on another high school plant planed by Royer, Danley & Smith of Urbana. We left the Polo job in the hands of Duke Strong of Freeport, who makes an occasional trip when he can get away from his Freeport and W. G. E. jobs.

-H. W. T.

Now as to the class of '26, suffice it to say that Ken Helms is with Graham, Anderson, Probst & White of Chicago. Jim Marshall is making golf courses under Pirie of Milwaukee; Joe Ganschinetz and Hal Kniebusch are employed in St. Louis by the Missouri Bridge and Iron Works and Frain & Coleman respectively; and Gas Garns is working (part time) for Howard Garns of Indianapolis.

At the time of the Ohio game, November 26th, we are throwing a house dance in honor of the Ohio chapter, as always the Alumni are most cordially invited.

IKTINOS—MICHIGAN

Harper P. Fowley, Correspondent

Iktinos has decided to drop its inter-fraternity athletic program and to devote more time to campus activities. The competition in athletics is so keen between the leisurely generals that a professional fraternity has little time to compete successfully with them. The chapter feels that the time spent in athletics could be used more advantageously in the pursuit of campus activities.

Karl Kulm has been appointed chairman of the Fall Party, which is to be held November 5th, the Friday before the Wisconsin game. Red Philpott and Junior Rouse are assisting.

Connie Johnson and Jerry Watland moved to Chicago after Summer School to work for Talamadge & Watson, who are living in an apartment (with kitchenette and Murphy bed).

Brother Osner Wild '26, is now a married man. Mrs. Wild was formerly Miss Lora Belle Corson '25, a Sigma Kappa at Michigan. "Oc" is working for Warren Holmes Powers, Architects, of Lansing, Mich.

LeRoy Kiefer '26, who won the Booth Competition last May, is now in Europe with Brother "Ing" Elder. Ken Black '25, who won the competition a year ago, has returned from abroad and is now working in New York.

Wirt Rowland has been in Europe since July. We expect him home before the end of the month. Brother Wirt is one of our most popular honorary members.

"Shorty" Naser is now boasting that he is an uncle. The lucky child is Nancy, born June 16th to Brother and Miss Al Naser, East Liberty, Pa. Al is a '23 man.
We just received an announcement of the marriage of Miss Edythe Belle Gowen, Roseville, Mich., to Brother Fred Schottley, on the 9th of October.

Iktinos boasts (should we?) of something unique—a newly married pledge. Pledge-brother Snyder passed out the cigars a few nights ago in celebration of his marriage last June to Miss Edith Dullaban, Philadelphia, Pa.

Brother Julian Cowan, 24, and Miss Kitty Broadhead, both of Detroit, were married this summer.

DEMETRIOS—OHIO STATE
Robert D. Ayres, Correspondent

The announcement of the engagement of Miss Georgiana Moore to Max L. Worthley, 26, has recently been received by Demetrios. Miss Moore is a member of A X, Sorority and was President of the Women's Ohio while in school.

Willard Lindersmith, 26, has joined the ranks of "The Many." His marriage to Miss Evelyn Carr, of Toledo, Ohio, was announced early in the summer. Mr. Lindersmith is a member of A X, Sorority and was President of the Women's Ohio while in school.

Demetrios Chapter wishes to extend an invitation to the Actives and Pledges of Iktinos, to the Alumni of Demetrios chapter, and to all Actives and members of Delta Chi, to the Ohio State Homecoming game and to the dance to be held at the chapter house Nov. 13.

Again Demetrios shines forth. Within the last six months, three members of Demetrios Chapter have won scholarships abroad and we feel that all the benefits and work in the chapter have not been in vain. Clarence Dale Badgley 23 is now in Rome under the Prix de Rome; Russel M. Krob 23, winner of the McKim Prize, accompanied "Budge" as far as France. Franklin Scott and George Perrenz, who won the Lake Forest Scholarships last spring, arrived at the tape first and second.

Scott won the Final Four week competitive problem and received a one year scholarship abroad. Perrenz received a mention in the same competition. Scott will sail for France Oct. 28.

Bro. and Mrs. Galen F. Oman have returned from abroad, having spent most of the summer in France. "Doc" was accompanied home by several antique chairs and a number of French books on Architecture.

Prof. Ralph Fanning has returned from a summer abroad spent in sketching. His summer's work was on exhibition in the Fine Art Building.

MNESICLES—MINNESOTA
Glynne Shifflett, Correspondent

Brothers Alvin Jansma, Milwaukee, C. J. Olsen, Muskegon, Michigan, and Harold Dower, Staples, Minnesota, have returned to school and are living at the house.

Wallace C. Bonsall, 24, and Miss Verna Smith were married Oct. 12th. Brother Walter Kendall, 25, was 'best man." "Bonny" is the winner of the last "Robinson Prize" from Harvard. Good luck and best wishes, Bonny. Sister Verna is an A A F and an Interior Design major from Minnesota. It was a lovely wedding.

Sunday, Oct. 3, Mr. and Mrs. H. B. Leach of Faribault, Minn., visited their son, Bro. Stowell.

Demetrios Chapter, who graduated this summer and is now in with his brother at Mankato, visited us the same day. With him was Arminon Kleinenschmidt, 22, and Miss Boise.

Alvin Kriges, 24, has returned to North Dakota U. to resume his teaching. Bro. Herman Frenzel and Gust Naslund, winners of "Moorman Prize," are leaving for a tour East next week.

Mnesicles chapter is grateful to Bro. Harold Fridlund for filling that space above the studio fireplace with an appropriate plaque. There are other open spaces on the walls of our new house (hint).

October 15th saw a big, successful open house for Mnesicles. To make things even better the father and mother of the Hostess sent over a beautiful bouquet of flowers.

Another occasion, but of a different variety, was a nice little robbery of about $70 from the chapter house last evening. The money was in cold cash.

Richard McGee is now teaching in Minneapolis and taking graduate work at the U.

Bro. Leon Arnal, faculty member of Mnesicles, took a trip to France this summer. Professors Leon Arnal, R. C. Jones and R. Robertson had dinner with the active chapter last week.

Bro. Ralph Hamnett's exhibit is now being shown at Minnesota. These works are mighty fine and Mnesicles is proud of you, Ralph.

KALLIKRATES—VIRGINIA
Ralph Little, Correspondent

Kallikrates Chapter began its activities of the season by giving a smoker for the entire Architectural Department, Thursday night, October 7. Prof. Laurence Kocher, the new head of the department, gave us a very good talk outlining his policies, also giving us some mighty good dope on different things pertaining to the profession.

Every one here is sorry that Bro. Joseph Hudnut isn't back with us as head of the department this year. Before he left though, he succeeded in getting a very good man to take his place. Mr. Kocher, formerly Head of the Department of Architecture at Penn State.

We also have a new instructor in Design. Mr. Von Stork, who was graduated from State and has been working in New York. Mr. Von Stork has an enviable record in Beaux-Arts Design work.

Brother Maurice Holley breezed in a few days ago from an extensive tour of Europe. His trip was in the nature of a sight-seeing tour, and in his travels he touched the principal countries from Italy to Spitzbergen (wherever that is).

In the way of marriages, Marshall Wells, 25, promised to love and obey a very charming young lady with a very charming name, Dixie Love. Miss Love will be remembered by the older men here as a student of Art at the University in 1923-24.

Of the Alumni is a little bit limited at present. Henry Browne, 26, is working with Brother Stan Webster's father in Waterbury, Connecticut. Merle Browne, our W. A. last year, is with W. E. Hunter in High Point, N. C.

Oscar Flannagan, 26, is back in Havana, Cuba. Godwin Draper, 26, is doing Architectural work with the Government in Washington, and Ralph Guldenbaken, 26, is working in the chapter last week.

Kallikrates has obtained an option on a lot from the University, and we are now making plans for raising money with which to build. We are in need of a house that we can call our own for quite a while and now that need seems almost a reality.

The University will give us a thirty-year lease on the property at the rate of $1,00 a year. They will also advance us at the rate of 6% fifty per cent of the cost of the house. We will probably be able to get heat from the central heating plant besides our light and water at a minimum cost of several dollars a month.

ANDRONICUS—U. S. C.
Carl Denney, Correspondent

Andronicus Chapter started out with a big splurge by opening the semester with a new house at 245 James Park. It is considered to be the most beautiful house on the campus and after the dance we threw on the twenty-fourth, there is no doubt of its being the most ideally situated, as there is a park just across the street.

Most of the active alumni were there with the exception of Noble McVain and Kenny Wing who, sad to say, will not grace the portals of our "maison" so often due to the fact that they have taken the fatal step from bachelordom. Ruth Wendell, A T Z frm U. C. Southern, is now Ruth McVain, while Kenny's bride was formerly Mildred Winters. Good luck and lots of happiness to the "departed" brothers.

Hey, by the way, yonse guys, wat cha think of Bro. Stadelman? He came to our beach party last May 21 and introduced his girl friend as Miss Slater, and last week we received a wedding announcement stating that he was married May 26. Joe to unto him when he shows his features in this vicinity.

News of the death of Mrs. Frank Lemon was received with sorrow by the Andronicus Brothers. One whose interest and friendship was constantly with us, a mother to us all. Bro. Mel Lemon's loss is our loss.

To go back a few months to summer we find that Bros. Green, and Hagarman
spent the summer in partnership designing residences for our beautiful Southern California. What’s that, Florida? Their studio, which is above the garage in back of the house, is one of the show places of the chapter.

Brothers Latta, Geiger, Fry, and Chambers, helped the profession of Architecture by rendering criticism to some of the leading architects of the southland. Thomas spent the summer fishing for tuna off Catalina and breaking the world’s record for fish stories. Wilson ground the saxophone to the tune of Valencia, and Thorne did most of the work on a million-dollar structure.

Patrick told the surveyors of this end what he thought of their system, but it did not faze them in the least, as they still go about it in the same old way. Ellis was down on the farm haying tomatoes. But we’re all back at work willing to give the profession another genius or two.

Congratulations go to Curtis Chambers, who was elected to his traditional office of Senior Massier. Bro. Chambers has been class president since his class entered school.

PAEONIOS—K. S. A. C.
Verol P. Gehring, Correspondent

We have talked Mother Hughes into postponing her California trip and she is at the head of our table for another year.

Frank “Pinky” Johnson, ’24 grad, and wife was up from Tampa, Florida, for rush week and tells us that his orange grove is looking fine, but we are wondering what it looks like now.

The weak-hearted boys for this fall. That is whose pins have slipped from their vests to a place over some fair lady’s heart: “Cap” Sanders, “Goldberg” West, “Bobbie” Koon and “Helmansman” VanVranken.

Frank Gross, ’26, Grad, has taken unto himself a wife, and was duly attended at the ceremony by “Al” Heisterman, and is understood that living in Chicago is not so good.

It is also reported that Volney Chase is looking for a furnished apartment in Cincinnati, Ohio.

Fred Billings, ’26, is working for Architect Arthur Gorman, Bartlesville, Okla. “Pug” Hoenzel, ’26, and six stripe boxer, and “Cowboy” Palumbi are both working in the office of Boller Bros. of Kansas City, Mo.

Allen Ingle was also sucked into the “Matrimonial World” and is now in Texas for Boller Bros.

Pledge Grime of the Theron, Okla., A. M., dropped in on us for a short visit. He was up for the Sigma Tau Convention at K. S. A. S., and reports everything coming fine at The Arch.

The intramural Horseshoe Tournament is on in full swing. Paeanios has entered ten men in the singles and five sets of doubles. All stars, of course.

Plans back of work for the National Convention here, the first of the year. We are expecting a big bunch of men for this convention, and want to make it one that will not be forgotten. So start packing your grip now for a trip to Kansas State.

DINOCRATES—TEXAS
J. W. Law, Correspondent

On the evening of September 25, 1926, Dinocrates initiated Dr. F. E. Giesecke, (Honorary) and R. L. White, (Faculty). Dr. Giesecke is head of the department of Architecture in the University of Texas and nationally known for his work in the field of heating and ventilating. Brother White is Professor of Architecture and Superintendent of Construction for the University.

We had quite an array of visitors on the occasion of this initiation. Brothers Vosper, Simons, Harker, and Kleine of San Antonio were here. Brother Geo. Dahl, Mnesicles, who is with Herbert M. Greene of Dallas was also here. We expected Brother Patterson, the Grand Lecturer, but he did not arrive.

Brothers Harker and Gannaway received their degrees in June. Brother Harker is working for Ralph Cameron, San Antonio Architect, while Brother Gannaway is working for Giesecke & Harris, Austin Architects.

Pledge Brother M. A. Burke and H. S. I. J. were forced to drop school this year. They are working, but at what and where we do not as yet know.

Gordon Greenwood is with a photographer in Austin.

Dinocrates has for the first time in the history of the chapter started the school session in its own house. We are located at 2715 Neues St., which is only about four blocks from the campus. We have seven men in the house and nine eating with us. Brother Law has been class president since his class entered school.

THRON—OKLAHOMA
Hugh W. Brown, Jr., Correspondent

Well, the Theron chapter is located at 524 Hester Street, in spite of all their difficulties. For awhile it looked as though the chapter would be a campus orphan. However with the return of ten of the twelve actives initiated last spring, the determination of the chapter to be properly housed was soon realized.

There is nothing wrong with what was picked in a house either, with room for twenty or more actives there is plenty of reason to believe that the rest of the campus will hear from Theron.

Thanks to some clever and accomplished pledges with ability in the use of the tools, as well as drawing, much work was accomplished and many miracles were wrought in the new house of Alpha Rho Chi.

Furnishings were gathered in near record time. Every member and pledge proved his worth.

It has become known that a certain Miss Wood of Lawrence, Kansas is wearing Earl Holyfield’s pin. The cigars haven’t been passed, but they are expected. Eleanor is a student at Kansas University.

Brother Harold Redding is now with the football team on their tour to meet Michigan and Iowa State.

Mrs. Bryan Nolen is Hostess of the new chapter house. Mrs. Nolen is the wife of our W. A.

Theron plans to initiate several alumni on November 23rd, the night before the Homecoming game with Oklahoma University.

Many physical changes have occurred this summer in the Architectural School. The department now covers twelve thousand square feet of floor space on the third floor of the Engineering Building.

The enlargement of the department is fully justified since registration has shown a 30 per cent increase this fall.
NEW ADDRESSES

**Anthemios Chapter**
Phillips, Andrew S., '23, 141 W. 4th St., New York City.
Sedgley, Arlo S., '26, 603 Citizens' Nat'l Bank Bldg., Los Angeles.

**Iktinos Chapter**
Barnes, Ernest P., '16, Hon.
Chamberlain, Leo M., Ex '24, Kentland, Ind.
