RETIRING W. G. S. IS GIVEN APPRECIATION

Wrist Watch From Fraternity As Good Will Token.

As the first issue of The Archi for the school year 1928-29 reaches its readers there will be in the office of the W. G. S. a new man succeeding Bro. Harold R. Peterson, Mnemonics '18, who retires after a long and valuable service to Alpha Rho Chi.

Prior to "Pete" going west and burying himself on a big railroad job, which was his recent occupation, his work for the Fraternity was more apparent than since. Dating from his election to the post over seven years ago Bro. Peterson has been a bulwark of strength in Alpha Rho Chi.

During the first years that The Archi was in the hands of the Mnemonics chapter, in addition to his duties of W. G. S., Brother Peterson did yeoman service on the staff of The Archi as well. Those who worked with him do not forget those days.

With the departure of the retiring W. G. S. from the ranks of the Grand Council, Bro. D. P. Ely, W. G. A., at the (official) instructions of the Texas convention made last December, presented him with a token of the esteem of the members of the Fraternity, a 17-jewel Illinois wrist watch. The cost was defrayed by contributions from members of the Fraternity rather than chapter treasuries as was the case a year ago when the W. C. E. Strong retired from service.

In writing Brother Ely upon receipt of the token, Brother Peterson said in part: "I wish to assure you and all brothers of the Fraternity that I truly and sincerely appreciate the very fine watch received and that I will always treasure it very greatly. Please accept my humble thanks, Brother Ely, for the Fraternity for the gift received."

ANNIS JOINS U. S. C. STAFF

In introducing Bro. Verle L. Annis, new W. G. S., to the Fraternity The Archi related how due to the poor health of his folks, pioneers of Washington state, Link had relinquished his place on the faculty at Oklahoma A. & M. with the plan of practicing near Alderton.

Since then we have heard from Bro. Annis to the effect that he is joining the faculty at U. S. C. and will teach Advanced Design. His contact with Andronicus before and during the convention will be advantageous for the Fraternity and in a personal way Link's folks will be brought nearer to him.

THE TENTH VOLUME MARKS FOURTH PHASE

Reorganization Steps Taken By Staff and Council.

By Newsy Nat

For the benefit of those brothers of Alpha Rho Chi who are of the keenly analytical type of mind we wish to point out that as this, the first number of the tenth volume of The Archi reaches their hands, The Archi of Alpha Rho Chi is entering what might be called the fourth phase of its existence.

We hope and pray that this fourth phase will be for the Fraternity what the fourth leaf is to the clover, or the fourth wheel to an automobile. We firmly believe that after going thru the three phases that The Archi is reaching the place where real stability is on the horizon.

The first phase of The Archi came when the Fraternity was but two years old. In 1916 the first number of Vol. 1 was published, with C. C. W. Ditchy, Anthemos, as editor. The World War had its influence upon publication. The second number of the first volume did not appear until 1917 when Brent G. Webb, Anthemos (now deceased) put it across. Finally in 1918 the third number of this was published by L. L. Huntington, Anthemos, editor.

Hard times marked the first phase of The Archi, war and three years marked the publication of the first volume. The second volume of two numbers were edited by Orin F. Stone and J. J. Zimmerman. Anthemos, during the school years 1920-21, while but one number constituted the third volume issued in 1922 by Roger B. Morrow of Demetrios. The three volumes were produced on 5x8 in "quarterly," form with attempts at serious articles of a professional nature. Well intended efforts were curtailed by lack of funds, the best editor can do little when there is no where-with-all.

Above the brothers of Alpha Rho Chi may behold a thumbnail sketch of the stamping grounds of the chapter of the Gamma Pi chapter in Mount Hermon California will be hosts, Dec. 29, 30, 31, 1928.
From The Editor’s Mail Box

Wherein We Recount Things and Thoughts Which Come To Our Attention.

Well, boys, we were pleased to hear from William Stuhr, Anth. Ex ’19, this summer. It has been quite some time since we have heard from him and in the interval he married Margaret Dec Sears, Oct. 1, 1922, and then on Dec. 11, 1926, they became the proud parents of Carolyn Marie. Brother Stuhr is now practicing architecture as a member of the firm of Cerun & Stuhr, Rock Island.

Another chap we heard from during the summer was C. Russell Dole, Dem. ’27, who in the short time he has been out of school has become senior draftsman and closer in their association with the Grand Council.

As a result, by common consent, which will without a doubt be confirmed and will be officially announced at the forthcoming convention in Los Angeles, the Grand Council has virtually become The Archi Board. Likewise, in the early days when the Business Manager handled all the annual and partial subscriptions he had a job.

Nystrom Favors Parr

Today virtually all the funds are derived from investment of the Endowment made by the Grand Council. In this relation the W. G. E. and the Business Manager are handling the same monies twice. Realizing the situation and since the W. G. E. is constitutionally known as the Grand Business Manager anyway, Brother Nystrom is giving way to a simplification of the staff organization, and Brother Parr will be business manager in his stead.

Brother Nystrom expressed himself as follows: “Promotion has been expensive and ineffective of late and consequently neglected, therefore annual and alumni subscriptions are scarce. This leaves only the life subscriptions of initiates which are automatically handled by the W. G. E. The present arrangement only complicates matters and this can only be overcome by centralizing The Archi management and control in the Grand Council. The Archi must prosper and the sooner a definite program of organization is formulated the nearer we will be to a successful operation.”

For several years Brother Moorman has headed The Archi Board as well as serving as circulation manager. Frank says: “I believe this is the time has come when the Grand Council should take over the publication of The Archi,” retaining Bro. Tousley as editor indefinitely, and if agreeable to them, retaining me as circulation manager or whatever you would call me. The time has come when The Archi should be taken over by the Fraternity as a whole and man in charge of the structural engineering division of the Columbia Gas and Electric and the work is chiefly substations, power plants and the like.

Russ advises that he is single and has acquired no responsibilities since being elected to Tau Sigma Delta and the Engineers Council. Until the middle of June Carl Kuck, Dem. ’27, was with Dole in the same office, but is now in Lima, Robert A. Lewis, Dem. ’12, however is still in the same office.

Sam Says Thank You

Another Anthennios brother from whom we had heard nothing for several years was Karl M. Waggoner, ’17, of Waterloo. At present Wag is in business under the firm name of Hansen & Waggoner of Mason City, la. By the way, how many of you fellows knew that Karl became a married man last year, Sept. 27, Miss Mildred Kays became Mrs. "Wag.”

We were glad to get the following word of encouragement from Sam. F. Albrecht, Jr., Dem. ’22, recently: “I wish to take this means to express an appreciation for the excellent work you have done not by one chapter. The editor today has reached a point where he does not belong so much to Mneseicles chapter as to Alpha Rho Chi as a national institution.”

New Policy Jointly Planned

And so The Archi enters the fourth phase, that of strengthening its organization and centralizing its control. Anticipating the hearty co-operation of the coming convention the staff and the Grand Council have consulted together during the summer and a three-fold policy has been evolved. First the organization is being simplified with a view to those remaining sharing work and at the same time enabling members of the Grand Council to become familiar with publishing demands so that they may carry on in emergencies such as sickness or what not.

Brother Nystrom retires in favor of the W. G. E. assuming his job, while Brother Moorman will continue as circulation manager at the point of second class mail entry.

Second, until the convention, the Grand Council will serve ex officio as were, as The Archi Board. This will enable The Staff of The Archi to work closely with the Grand Council and assure full co-operation of the latter body.

Publication Dates Changed

The third a new set of dates have been decided upon in conference between The Staff and th Grand Council, as to times of publication. Most of the irregularity
staff is doing for The Archi and consequently for the Fraternity. The outlook may be discouraging to you at times, but I believe that with the energy and persistence that you are displaying you cannot help but get results in time. Keep it up, I am for you." Freddie is an engineer with Boysohn & Barr, Inc. of Columbus, and as yet is "unincumbered" with any family, child or child. The recent communication from Edward Armstrong, Dem, Ex '28, formerly of Edwardsville, III, who now is practicing architecture in Webster Groves, a suburb of St. Louis, was to the effect that their daughter Joan had celebrated her first birthday on July 12. Mrs. Armstrong was Louise McClelland before her marriage Jan. 1, 1926.

Ernst Budke III Arrives

Ernst Budke, Jr., Dem, Ex '24, joined with your editor in celebrating the arrival of his first son in February. Ye editor's son arrived the 7th, while Ernst Budke, III, arrived the 21st. "Bud," we understand how each other feels, don't we. Mrs. Budke was Lillian May Ehrlhart of Columbus, Pa., prior to becoming Mrs. "Jr." Sept. 4, 1924. Eastman & Budke, Architects, Springfield, Ohio, is Bud's business responsibility.

Getting back to the Anthemios mail. Fred A. Rohn, '16, we learn is now vice president and Detroit manager for the Interstate Fireproofing Co. Fred, you know, married Gretchen Krumm Feb. 6, 1922, and they have two kiddies. Fred A., Jr., now in and Joceline three in July. We are glad that Brother Rohn is hitting the ball again after his accident some time ago, not that he didn't while in bed of course, but that he is hitting on all four now, or it six, Fred.

The next Anthemios chap to be heard from was Edgar T. Clinton, '28, the lad of the publication the past year is due to the editor being a good fellow and holding the line for late copy. There will be no more of that, if copy is not in on time it will not appear in any issue.

Copy for each issue must be IN THE EDITOR'S HANDS the first day of the month of publication. Copy not in on time will not even be considered the following issue, and the guilty and negligent chapters will draw blank spaces in the current issue. Dates of issue will be the 15th of the month, which allows only the minimum of time for editing and printing.

Under the new plan The Archi will be issued as of Sept. 15, Oct. 15, Nov. 15 (December will be skipped), Jan. 15, Feb. 15 (April will be the regular annual directory with no news matter), May 15 (No issue in June), possibly July 15 (with August skipped). Copy for each month due the first of that month.

Co-operation of chapter officers is imperative, the staff will not attempt to remind you to co-operate each month, lack of things on your part will simply draw a blank for your chapter.

Harold R. Peterson, Mnes. '18, Retiring W. G. S.

from Polo who is now with the McClinic Marshall Construction Co. The sad mail brought greetings from Powell S. Hall, '26, who is still in Jackson, Miss. "Tin" Hall is with Architect J. M. Spann of Jackson. Miss Viola C. Sly became Mrs. Hall, on March 26, 1928, he advises. Tin has two children by a previous marriage.

Duke Gerlach In Good Spirits

"Since Henry is in New York I am running the office myself, and so far have had really wonderful luck and am getting along fine. Everyone that I have had work with seems pleased and have treated me just wonderfully, so I am in the best of health and spirits," writes W. Dowey Gerlach, Mnes. '26. Brother Hank '22, has left his native Mankato, Minn., for New York, and Duke is now pilot of the business of their father, now deceased. Both are unmarried.

Another of the old Mankato crowd is Ralph W. Hammett, '19, now practicing in Chicago as chief designer for Hall, Lawrence & Ratcliff and teaching as Associate Professor of Architecture at Armour Institute, Chicago. Last we saw Ham he advised us that Dolly, sister of Duke and Hank Gerlach, was married and living in Chicago and that she had developed into a little home-maker. Shhh! Ham is contemplating matrimony himself, we know her name, but the formal announcement cannot be made as yet. More anon.

While we are thinking of Mankato men of Mnesicles. The latter part of July we received a note from one Florian A. Kleinschmidt, '20, from the neighboring village of St. Louis, stating: "I have resigned from Kansas State to accept a position as head of the Dept. of Arch. Engineering at Texas Tech. at Lubbock, so no longer will I be in Kansas.

Get Together With Editor

"Am working for Omeara & Hills this summer, and July 15, Bonsall (Wallace C., Mnesicles '24) came to join the force. Also Larry Bakken, '22, has moved here." We forthwith put in a phone call for Kleine, and our girl arranged a gathering for the following Sunday.

When the roll was called we found present Larry and Peggy Bakken and daughter Viola May, Wally Bonsall and Flande. "Bud," we went around, like a good soldier with her little son Stewart, Jr., who will be five this fall.

But getting away from Mnesicles folks a bit. A note from Glenn H. Bennett, '23, drawing our attention, for it came in the same mail with Florians. Ben describes himself as still being a happy, red-headed bachelor and advises that for some few years now he has been "in the darkened halls" of the University of Michigan state board. At the time of writing he was with C. Howard Crane, in the Michigan theatre building, and anticipated being there if theatre building held.

"It is foolish to repeat that Detroit is a great clearing house for Michigan A.F.X. men, but we do see each other at times and find a common interest and talking point when the Fraternity and its activities are mentioned. Summer finds most everyone on vacations or doing something to keep away from the city so contacts are few right now."

Burdick in Building and Loan

One of the Michigan men, from whom we had never heard, responded to a communication this summer. Lorence B. Burdick, '22, is the man. From him we learn that he married June 27, 1922, immediately after graduation, Virginia Connable being his bride. Larry is now the father of two children, Lorence C. born Dec. 29, 1924, and Mary Louise, who arrived Nov. 3, 1927. Brother Burdick is assistant secretary of the Fidelity Building and Loan of Kalamazoo.
The Archi
Of Alpha Rho Chi
Published Nine Times During the Collegiate Year by
The Alpha Rho Chi Architectural Fraternity
Entered as second class matter at the post office at St. Paul, Minnesota, under the Act of March 3, 1879.

Subscriptions
Life subscription ten dollars. Annual subscription two dollars per year in advance.

Harold F. Naser, Iktinos, '27, better known as Shorty, writes us that after graduation he spent some ten months in the office of Bro. Clair W. Ditchy in Detroit, shifting then to the Steel Frame House Co., near Pittsburgh, his home, finally connecting with the Detroit Steel Products people in their office window architectural department. Shorty's brother, Al, we know is also with D. S. P.

Next in line comes G. F. Oman, Demetrios, '20, known to his cohorts as Doc. The old timer is an Assistant Professor in the Dept. of Archt. at Ohio State University in addition to enjoying a private practice in Columbus. Doc's better half was Mary Hills, a Columbia grad in architecture whom he married May 20, 1926. They have no children.

Chuck Smith Proud Papa
Members of old Sigma U, predecessor of Iktinos chapter, will be glad to hear of the arrival in Thermopolis, Wy., of James McCready Smith on May 31, 1928. Jim's dad is Charles M., Michigan '13, and his mother, Myra Ruth McCready before her marriage Jan. 16, 1923. Chuck is a general contractor in Thermopolis.

We guess that Harvey M. King, Mnes. '18, must have been having a conversation with his wife before he offered us the following words which we are publishing—before reading them we might explain that Brother King is Architect-Secretary for the Board of Church Extension of the M. E. Church South and is on the road a good deal:

"Just a tip from father."

"It is timely advice for any young hopeful who anticipates matrimony that he have an understanding with the proposed wife at the beginning to live with her husband when once she has married him.

"These prolonged vacations! Nay, nay. Better not follow the life of a traveling man though unless you want your wife to travel too."—King.

Tour Tells About Several
Harry B. Tour, Anth. '21, writes from Jackson, Mich., "Have seen Bro. Harold Parr occasionally while he has been in Jackson completing moving back to Saginaw to take charge of another big steam plant addition. Had a good visit with Brothers Karl Wagner and Jack Bartley recently while on trip through Iowa. (Mrs. Tour was Jeanette Roemer of Waterloo.) They seem to be taking jobs away from each other every now and then. Brother Gildersleeve of Iktinos is located in Jackson and recently married a lovely girl. 'Bird' is in charge of the architectural division of the Commonwealth Power corporation at Jackson.

The last word concerning Donald H. Ellison, Mnes. 'Ex 20, was that he had lined up with the Minneapolis office of the Truscon Steel Co. as a salesmen. Duke is the daddy of two and is having to hit the ball. George was two in June and Barbara will be a year old this September 21.

Potter Performs Pushing Pencil
Arthur D. (Spike) Pickett, Anth. Ex '23, architect for the Associated Tile Manufacturers, with offices at 220 Graybar building, New York, is custodian of the file of A P X men in and around New York. All men passing thru or stopping off should get in touch with Spike at once. Yep, he is a married man, two youngsters you know, John William 2 and Jessie Lee who will be a year Oct. 1st.

Writing from Milwaukee, Robert P. Potter, Mnes. '26, writes us: Will volunteer a little information for The Archi. Mnesicles is surely being represented in..."
A GOOD CHAPTER

By The Old Timer

Here are some things we think are essential to a good chapter:

1. A house.
2. A financial system which keeps the chapter out of debt.
3. Good ritual equipment and a team which knows the ritual.
4. Scholarship, both average and individual.
5. A successful system for training pledges.
6. An architectural library.
7. A set of chapter by-laws rigidly enforced.
8. It is hardly necessary to say that the caliber of the members should be such that they and the chapter have the respect of the campus.

Try this on your chapter's victrola.

Milwaukee. The latest arrivals being Hugh Eaton and Stowell Leach. Our men are distributed as follows: Walt Kendall, Eaton and myself at Dick & Bauer, Inc.; Herman Frenzel and Leach with Kerchhoff & Rose; Al Plegal with Van Ryan & DeCelleke; Alvin Jansma with Urban Peacock; Tony Johnson with Robert Messmer & Sons, and of course Roy Papenthen is a partner in the firm of Velguth & Papenthen. Patter as most of the Mnesicles men know "committed matrimony" Oct. 15th, a year ago, and Miss Mildred Fossom was the girl in the case. Walt: Kendall is still single, but has annexed a license as an architect in May just past. Al Jansma, the lad from Hopsers, reports that he is still same and single.

Congratulations To Chester Carjola

Additional information from Milwaukee came from our friend, Al Plegal, '27, who was married in marriage to Miss Margaret I. Bopp, Aug. 15, 1927. Al advises that of the Milwaukee Mnesicles contingent Tony, Walter, Bob and himself were members of the A. I. A. as well as Sam Sutherland, who was not an A. P. X though a good friend of the house. The gang he advises meet Tuesdays at luncheon and in that way keep in touch with each other.

While thinking of Mnesicles men, we received word from Bill Donegy, chapter correspondent, this summer to the effect that Bro. Chet. Carjola and Miss Jean Viola Erixon were married at Red Wing, Minn., July 21st. Congratulations, Chester, and good luck to both of you.

The last of July we heard from our friend and brother, Walter A. Taylor, Dem. '21, who was forced to leave China and his architectural work for the Episcopal church there along with other missionaries with the development of hostilities. At the time of writing Walt was in the office of Hobart Upjohn, New York architect, where he had been since May.

Taylor Writes of Demstr os Men

Mrs. Taylor, nee Ruth Maris Smith Grand Junction, Colo., a Tri Delta at the University of Southern California, went to China and married Walt there on Aug. 26, 1926. They have a son Eugene Walter born Oct. 17, 1927. A subsequent letter received this month is to advise that Brother Taylor is entering Columbia for graduate work.

Walt advises that Bro. Milt and Mrs. Osborne, Demetrios, 22, are back in the United States after having spent three months motoring in England, France, Holland, Belgium, Germany and Italy. They will return to Auburn, Ala., in time to teach at Alabama Polytechnic. They saw Merkel (Dem.) over there on his Lake Forest trip.

Clarence D. Badgley, Dem. '23, Taylor advised, was in New York and Ohio. "He will be married Sept. 15th to Miss Elsa Carolyn Gillham of New York City, a Barnard College girl. At home after Dec. 1, Villa Sforza, Monte Gianicolo, Rome, Italy. The honeymoon will be on the Atlantic and in Spain. Badge has one more year at the American Academy."

Breidenbach Returns to Columbus

Taylor also wrote that Bill Breidenbach, Depol. '28, and Mrs. B. returned to Columbus, O., for the summer to return and resume studies at Columbus this fall. Mrs. Breidenbach and Mrs. Osborne were important members of the library staff of Avery Library, Columbus, last year. By the way, Milt Osborne will be Assoc. Prof. ranking next to the department head when he returns to Alabama.

A letter also from one of the Ohio boys, Newton F. Marvin, 25, who is a draftsman for Stopfet & Stopfet, Toledo, architects, is quite enlightening. "I have found out that the life of an architect is not as cozy as one might think that there have been a lot of fellows make when they decide to study architecture. They think that it is an easy way to go thru life and make money quick. The reason I make that statement is that there have been a number of fellows working in our office who have that idea and they get quite a jolt when they have to start at almost nothing and a high salary."

"The reason I make that statement is that there have been a number of fellows working in our office who have that idea and they get quite a jolt when they have to start at almost nothing. I found that out myself too. However, I find architecture a very interesting occupation, and I am greatly satisfied that I went into the game. The present firm I am with specializes in school designing, although they do other work as well."

Doc Holman Adds New Job

The midsummer issue of the Minnesota Alumni Weekly carried two stories of particular interest to A. P. X men of Mnesicles. One related to the retirement of H. A. Hildebrandt as Supt. of Buildings at the University who has left the institution to enter another field and the taking over of his responsibilities and others by Bro. and Prof. WM. F. Holman.

THE ARCHI HOUSE

By The Old Timer

The name "Archis House" was a very happy idea on the part of Ameubler chapter. We hope to see the new Archis House soon.

At first thought this name strikes us as a little odd—we are so used to thinking of our "little newspapers" as The Archi that we forget for a minute the origin of the word. It must have some strange usage to indicate a member of Alpha Rho Chi.

If a man belongs to Sigma Phi Epsilon, he is a Sig Ep and goes to the Sig Ep house. If he is an Alpha Rho Chi, he is an Archi and his house is the Archi House.

We have a high regard for the value of the chapter house in connection with a fraternity, it seems to us, because it is a place where the place and the chapter house is his home while at college. The place without a home is in a bad way to be united, and the same thing is true of the fraternity chapter.

The chapter house provides a place where the chapter-family may live, eat and gather for business, study or recreation. It is the place where life-long friendships are begun. Where the hard-clap of brother's hands and means some "mighty aid" imparted; a place where the old-timer can come back and re-live his college days in reminiscence when those days are long past.

In the words of the ancient prophet—"hold, O Archi, and his house is the Archi House."

Doc Holman, who is professor of Mathematics and Mechanics in the College of Engineering and Architecture, will now have a new title of Professor and Supervising Engineer, the post of Supervising Engineer of Buildings having been abolished. This makes Breidenbach and Professors WM. F. Mann, Supervising Architect, and WM. F. Holman, Supervising Engineer, the physical heads of the University, as well as key men in the Department of Architecture.

The second note of interest we regret to pass on, for it recounts the passing of Olof Thorshay, '21, Minneapolis architect of the firm of Long & Thorshay. While neither Roy nor his dad were members of A. P. X their friends in Mnesicles chapter were numerous, and the sympathy of the chapter is hereby made manifest.

Brothers Busy Practicing

After having been on the missing list for quite a while, Arles R. Sedgeley, '20, Anthemios man, has been located again at a new address in Los Angeles, where he is practicing architecture. Senti we knew married Ada Martin, July 6, 1922,
THE THERON ALUMNI ASSOCIATION FORMED

It was on August 20th that Bro. D. P. Ely, W. G. A., formally recognized the Theron Alumni Association which was organized the latter part of May and petitioned the Grand Council.

Officers of the Association according to Louis Williams, active chapter correspondent, are Hugh W. Brown, Jr., President; Harold F. Flood, Secretary, and Earl F. Holyfield, Treasurer.

The address of the association is given Brother Ely, as being 436 W. 12th St., Oklahoma City, Okla.

but the arrival of Rowena Joan Feb. 9, 1927, was news to us. Samuel P. Boonstra, '20, is also practicing, but in Michigan City, Ind., under the firm name of Ahlgrin & Boonstra.

When Edward H. Adams, Mnes. '21, wrote us this summer he was at Fort Snelling in the 313th Engineers Reserve camp. He reported enthusiastically that the year has been the best in several and the business was anticipating the laying of the cornerstone of the Grace Presbyterian church in Minneapolis the following week. Bro. Floyd B. Brown was the architect and Ed the contractor, operating under the name of the Adams Construction Co.

Glen Yockey, Anth. '28, retiring W. A. and delegate at the Manhattan convention, is now working at the W. M. C. A. at Moline, Ill., while in training with the Herman Nelson Corp. for sales work. Just what held Glen expects to have he does not know, so his permanent address is still Taylorville.

Earl Busy in Bean Town

We deduce that Bro. R rexford Newcomb, Anthemios honorary, spent the summer or part of it at least at Ocean Park, Maine, for 'twas from there that we heard from him. Newk you know is Professor of Architecture at the Booths and a member of the Western Architect. W. C. "Duke" Earl, Anthemios '25, writes from "Boasting" as follows: "For the last year and a half I have been chief cook and bottle washer for R. W. Beal, a Boston landscape, who is making a specialty of playgrounds and athletic fields. I do everything from design and supervision to shining the cuspidors." Duke is still single and laments that he has seen none of the gang since "Satt" was up for the Yale game last fall.

Word came to us from Toledo that Donald H. Buckhout, Mnes. '17, is estimator, designer and what have you for Carl H. Ruch, Toledo general contractor, who at the time of writing had the contract for a $300,000 home for the big Toledo spark plug man. Bunny also advised that Ruch built his (Buckhout) own new home for him at an actual cost of $22,500 at Perrysburg, about ten miles up the muddy Maumee from Toledo. Bunny designed the house himself. Clinker brick and some timber on a 66x165 lot in view of the river. There are two kiddies in the Buckhout home now, Donald Jr., 6, and Natalie, 2.

"Not Yet, But Soon"—Allison

Roswell T. Ellison, Andronicus '26, is now in San Francisco, and is a salesman for face brick and terra cotta in the S. F. office of the Gadding, Mc Bean & Co. Ros partially confided that marriage is "Not yet but soon!" But the racquet don't go into details. Keep us advised, Allison.

While we are in the line of ceramic products it reminds us that we heard from Harrison E. Goddall, Demetrios, Ex. 19, who is in the tile and mantel contracting game under the firm name of Goddall & Phillips. Harrison was married last Nov. 3 to Miss Helen Elizabeth Hoffman. Harrison and "My Old Friend" of Downie W. Moore, Dem. '15, there is now a wee babe, Nancianne born May 4, 1928, whose mother was Margery Rathburn before she married Dinty Oct. 16, 1924. Brother Moore was a charter member of Demetrios and is now practicing architecture in Columbus.

Word from Oak and Lake Forest

"Always enjoy hearing from The Archi, but as three girls (counts his friend, wife, as one) in the family keep me busier than I was as a Freshman, all I can do is to keep working and try and play a little golf occasionally." So writes Clyde T. Oakly, Dem. '13, who is a department assistant of the Republic Structural Iron works of Cleveland. The two kiddies are Eleanor Mae, 10, and Mary Alice, 6.

Bro. Stanley White, Anthemios Faculty member, wrote from Lake Forest this summer, where he is director of Foundaion for Architecture and Landscape architecture at Lake Forest, that there were three A P X men there at that time on fellowships for the summer, namely: W. R. Ralston, architect, Moline, Illinois; and H. C. Summerrott, architect, Ohio State. He added, "am on sabatical leave for a year beginning this September and hope to have an opportunity of making new acquaintances among the A P X membership. Will be traveling thru the Atlantic coast states mostly.

Fred Dunih, Minn., comes word from Bro. A. Reinhold Melander, and his good little wife (nee Florence Knox, Alpha Alpha Gamma, Minnesota) to the effect that their little Florence Marie, who was born Nov. 29, 1927, is a child that they are proud of even if she has a combination of our "most uninteresting traits." Starin & Melander is the architectural firm in which Reinhold is interested.

Bob Wade Writes Again

Robert V. Wade, Deln. '25, is a chap we haven't been in contact with since he left school. Recent information from him was to the effect that he was a designer for Dunn & Copper, Cleveland architects. It was also news to us that Bob married Miss Ruth C. Sellers, July 9, 1927. He has his own kitchen "cabinet" as it were.

"On Wisconsin" has been the song of Cassie Hertzberg, Anth. Ex. 29, instead of "We're Loyal to You, Illinois." For the old boy fell by the wayside and he writes: "Am taking a general course and like Wisconsin quite well and am enjoying it; but I get quite a longing for good old Champaign and Anthemios once in a while."

Carl wondered if we remembered him as one of the gang which drew the nurses to my room when he visited me there when your editor was laid up in the Champaign hospital with blood poisoning three years ago. Yep, the girls gathered when Carl arrived. By the way, Carl joined Theta Chi at Wisconsin.

Mnesicles Brothers Communicate

We were glad to hear from Brother Billy Olson, Mnesicles Ex. 24, this summer, although we were sorry to hear that he was down again. We had not seen him for several years so he wrote as follows: "I have been a dormant individual since I last saw you, on account of ill health. I left school in 1923 and in February, 1924, went to Los Angeles and worked for B. B. Bell, ornamental iron and lighting fixture company, for eight or ten months.

"I took sick there and returned home to Carlton (Minn.) in April, 1925. I
didn't recover until the next spring, and I then returned to school again for the spring quarter in 1927, also the first summer session. I then worked as a draftsman in Minneapolis and was again taken sick this April, and am still in bed. Hope he will be around soon again, though the doctors advise rest for a time yet, so I am staying home with the folks." W. A. was always such a happy good natured scout that we trust he will be well in his old self again.

Paul W. Jones, Mnes. '28, belovedly called Tubby advises that this summer he and Harold Dower, also Mnesicles, were conducting a tourist information bureau for the Yellowstone Trail association. The first part of September Tubby expected to go to Rolla, Mo., to teach at the U. of Mo. School of Mines in preparation for further school work in the fall.

John Bell Works for Cohagen

Well, well, well, our old friend James Franklin Johnson, Pacenicos '24, has moved again. After leaving school the old Pinkie followed the trail to Florida, where he was a member of the A PX Tampa colony, but he has been working his way north again, first Detroit, and now he is located in Billings, Montana, and is a draftsman for McVey & Cohagen. The latter is Bro. Cohagen of Iktinos, one of the charter men of Michigan. In his travels Pinkie is now accompanied by his beter half (Mrs. Blanche Rohertz McDermet) whom he married Nov. 2, 1924, after graduating.

Gentlemen, Harold L. Weatherford, Anhemios, brother, is now teaching architecture, but here of the human structure. Doc has had quite a scholastic career and is still acquiring honors. More power to him. His record now is as follows: Leland Stanford 1912-1916, A. B.; Illinois 1917-1918, in architecture which he dropped returned to Illinois 1923-24, where he instructed in anatomy and gathered an A. M. in 1924. From 1924-26 he was an Edward Fellow in Histology at Harvard, where he has been until now as an instructor in anatomy and "incidentally" winning a Ph. D. this last year. Doc has been a busy man and as a result has stayed single.

It was news to us until this summer that Chas. W. Conly, Dem. '17, had taken unto himself a wife as of Jan. 25, 1928. Jerry married Miss Mary Mcmehot of Newark, Ohio, on that date. The old timer is still supervising for Miller & Reces, Columbus architects.

Wells Waits With Will

Forsooth, we are always glad to hear from John Clayton Wells, Dem. '14, now of Lakewood, Ohio, Jack, for the benefit of those who don't know him was assistant business manager of The Arche way back when Vol. 1, No. 1 came out in January, 1916. He had admirable qualities for such a job, witnessed what he writes: "Inasmuch as my forebears have told me that I am Scotch-Irish and Welsh" I can legitimately say that your suggestion to "Turn this data sheet over and etc." appeals to my Scotch instincts. The two-cent stamp is the only item which is, "As Tad" would say "no bargain" for I'm inclosing this in the envelope of a firm which, I, along with E. G. Manrier, have just absorbed or rather displaced, for Manrier and I are setting up a partnership in Resale Brokerage, Rentals and perhaps some developing.

"Mrs. Wells and I recently made a visit to the campus and find concrete (and some brick and stone) evidence of growing "bigger and better." This in spite of the absence of my guidance hard. Finding a spotty, somewhat in the feast and famine class. But I am signing off with "Business is better than fair, looks very good, all rae well and lastly, I stand with Will Rogers in not having been notified of any incumbency of office."

Lucy Kiefer a Real Daddy

Miss Dora Mae Kiefer announced her arrival to her parents on July 24, 1928, at Detroit, Mich. She was born to Dora C. Amez before she became Mrs. Harold M. Kiefer on Sept. 18, 1926. Dad was known as Lucy by the Ikthinos brothers of 20 and thereabouts. Dora Mae has an A P X uncle in Leroy, Harold's brother.

And while we are speaking of new babies, announcement is made of the birth of a daughter to Bro. and Mrs. Arthur K. Grow I'm, June 19, Union hospital, New York. The young lady is known as Emily Elizabeth, Art is a
NEW PLEDGES

Not until the W. G. E. receives Form E 1 directory card for the fraternity directory from the active chapter does a man's name appear in this, the official list of the Grand Council.

Andronicus—University of Southern California

Knapushe, P. R., '27, 2240 S. Bronson Ave., Los Angeles

PLEDGES DROPPED

The W. G. E. should be promptly notified when the chapters drop the names of pledges from their rolls. Use Form E 2.

Anthemios—University of Illinois

Creaser, Chas. H., '31, (Scholastic reasons), 501 Blake St., Indianapolis

NEW INITIATES

Not until the W. G. E. receives (1) Forms E 1 and E 2, (2) triplicate certificate of membership order, (3) the required fees and (4) badge approval stub does a man's name appear in this, the official Grand Council list.

Anthemios—May 19, 1928

Carlson, E. R., '31, 7301 Evans Ave., Chicago

Creeker, P. M., '31, 7005 Main St., Watertown, Wis.

Schaefer, E. O., '30, 1212 New St., Indianapolis

Stiglitz, Edward J., '30, Toulon, Ill.

Winter, Walthall W., '30, 1558 Clay St., Davenport, lowa.

Poly. '25 man, while Mrs. Goehring was Margaret E. Habel, Oberlin '22. After Sept. 1 the Goehrings will be in Philadelphia, as Art's employers, D. P. Robinson & Co., Inc., will have their main office there instead of in New York.

Not until we received a data blank from Joe Wildermuth, Anth, '20, this summer did we know that he now has two children, Richard Lee, 4, and Dorothy Anne, 2. This explains perhaps why J. H. has been so busy practicing architecture in Gary to tell us about them. Mrs. Joe was Madeline Havens.

Letters From Opposite Directions

During August we heard from both of the Mnesicles Dambergs. Paul '17, chronicled the fact that he had married Miss Vanda Nelson, Aug. 1, 1927. Rhenben on the other hand advised that he was only married to architecture, with only underlined. Paul is still in the home town of Evaleth, where he is wearing out the pencils.

Rube is in Boston, from which place he writes 'The Archi issues are too few! More power to you brother and your gang.' Spent three weeks this summer back at his old campus at the U. What a change! My best to the Mrs. and the youngsters. Thanks, Rube, he's some baby. But when we mustn't rave, tho we feel like it.

The same mail brought letters from the opposite ends of the country—Rube in Boston and Ross H. Thiele, Anth, '15, in San Diego. Tile advises that he is still doing Interior Decorating and is with The Marston Co., of San Diego, although he lives at La Mesa as before. Brother Thiele's two children are now quite grown. Bitty Jan is 10 and John W. 8. Mrs. Tile was Helen Hurlbut before marrying R. H.

Paul Luther Wood, Dem, '23, the lad from Marshalltown, Ia., who married Helen Pickrell, Columbus Tri Delta, O. S. U., '20, Sept. 1, 1923, is now the father of two, Lois June who came on Nov. 17, 1924, and Paul L. Jr., who celebrated his first birthday May 11 just past. P. L. in addition to designing at the old stand put in part time at Ohio as an instructor in the architectural department.

When we heard from Porter W. Kirkpatrick, Mnes. '27, he said, "Am starting directly on a tour of the old country with a university chum. We will sing our way along and take about a five months' trip. My buddy is the same lad that played Kith's Orpheum time with me the summer of '25." Port, who hail from Adrian, Minn., with his teammate made quite a name for themselves even on the radio and stage as "The Crooning Cowboys." Good luck, Port.

FOOTBALL SCHEDULES

Oct. 6—Brady at Illinois.

Oct. 10—Ohio at Columbus.

Oct. 20—Iowa at Ann Arbor.

Oct. 24—Iowa at Ann Arbor.

Oct. 20—Indiana at Illinois.

Oct. 27—Iowa at Bloomington.

Nov. 3—Illinois at Ann Arbor.

Nov. 17—Michigan at Ann Arbor.

Nov. 24—Iowa at Ann Arbor.

Oct. 6—Ohio Wesleyan at Ann Arbor.

Oct. 13—Indiana at Illinois.

Oct. 20—Ohio State at Columbus.

Oct. 27—Wisconsin at Ann Arbor.

Nov. 3—Illinois at Ann Arbor.

Nov. 10—Navv at Baltimore.

Nov. 17—Michigan State at Ann Arbor.

Nov. 24—Iowa at Ann Arbor.

Oct. 6—Wittenberg at Columbus.

Oct. 13—Northwestern at Evanston.

Oct. 20—Michigan at Columbus.

Nov. 27—Indiana at Bloomington.

Nov. 3—Princeton at Bloomington.

Nov. 10—Iowa at Columbus.

Nov. 17—Muskingum at Columbus.

Nov. 24—Illinois at Urbana.

Oct. 6—Creighton at Minneapolis.

Oct. 13—Purdue at Minneapolis.

Oct. 20—Chicago at Minneapolis.

Oct. 27—Iowa at Iowa City.

Nov. 3—Northwestern at Evanston.

Nov. 10—Indiana at Minneapolis.

Nov. 17—Haskell at Minneapolis.
