MEMOIRS OF OUR
FIRST EDITION

By Elving L. Johnson

Somehow or other it seems a long time ago since I assumed control of the first Archi. I remember with a sort of sinking sensation listening to the discussion that settled it upon me, for I had had no previous experience with printers, and only the most meagre experience at anything but theme writing. Yet, with the chapter, I wanted to make a gossipy, familiar, entertaining little paper of it. I remember the chagrin I felt when I discovered that bidding for the work was a foregone conclusion, with prices on the year's estimate varying only by cents, my decision resting finally on a small shop where I felt I would receive not a better price but perhaps better co-operation. I do not think I was very much mistaken.

Then came the actual work of editing and of collecting and apportioning funds. The choice of a size, I remember, was a very much discussed proposition, in which case my choice was a mistake and would not fit the standard files, a matter that was corrected the succeeding year. At another time a correspondent advised me that it would be better if I edited the material less, leaving it more nearly as I found it.

TOUSLEY'S
CONTRIBUTION

By Dwight P. Ely

"It is a pleasure to express my personal appreciation for the many years of arduous effort which are Brother Tousley's contribution to the Fraternity, and by which he has successfully brought The Archi to its present excellent standard. The Archi is probably the strongest individual institution which the Fraternity has, and we owe a distinct debt of gratitude to Brother Tousley and to those who helped him, as well, for their work, foresight and inspiration in establishing and maintaining The Archi."

MNESICLES LAYS
FOUNDATIONS

By Efflo E. Eggert

The first three volumes of The Archi appeared in magazine form, containing many architectural rather than fraternity papers. The first three volumes were edited by the respective Alumni associations, in the order named: Anthemos, Ikinos and Demetrios. At the seventh annual convention held at Illinois in 1921, the Mnesicles Alumni chapter was given The Archi to edit for the following year. The Mnesicles Alumni chapter elected Johnson, then an active member, an Editor, and decided to change the general makeup from magazine to newspaper and also to allow more space for fraternity news.

Upon the graduation of Johnson in June, 1923, the Mnesicles chapter elected Horace W. Tousley as editor, a position which he held until the first of this current year. Tousley instituted permanent record books giving complete history of every member of Alpha Rho Chi, published annually a complete directory issue, proposed and fostered the life subscription plan, and in general spent many long hours establishing permanent Archi records.

Therefore, in respect to the editors and Mnesicles alumni, the entire fraternity extends a vote of thanks for their untiring efforts in editing our fraternity magazine.

DEDICATION

To the Mnesicles Alumni Association, the past Editors E. L. Johnson, Horace W. Tousley, and present Editor, whose untiring efforts the last six and one-half years have placed The Archi in the position she now maintains, we dedicate this issue.

(Continued On Page Two)
ALPHA RHO CHI MOURNS
OLDEST MEMBER OF
FRATERNITY

Judge Ivor Hughes, Prominent
Columbus Lawyer for
50 Years, Succumbs

"So live, that when thy summons comes
To join
The innumerable caravan, which moves
To that mysterious realm, where each shall take
His chamber in the silent halls of death,
Thou go not, like the quarry-slave at night,
Scourg'd to his dungeon, but, sustained
and soothed
By an unfaltering trust, approach thy grave,
Like one who wraps the drapery of his couch
About him, and lies down to pleasant dreams."
—Thanatopsis, William Cullen Bryant.

Judge Ivor Hughes, 82, oldest member of the Columbus Bar Association, died Saturday, April 20, 1929, following a lingering illness at his residence, 1111 Indiana Avenue, Columbus, Ohio.

Ivor Hughes was born at Newport, Monmouthshire, South Wales, Great Britain, in 1846, and with his parents emigrated to this country when a child. Until 1862 he lived in New Jersey, but in that year his family moved to Iowa. He was graduated from the University of Iowa in 1868, and had always been one of their most loyal alumni. He studied law there and at Ann Arbor, Mich., where he was graduated from the law school of the University of Michigan in 1872. He was admitted to the Columbus bar the following year and had been engaged in active practice until he retired two years ago.

He is survived by his wife, Rachel E. Hughes, a brother, Kendrick, of La Porte, Ill.; a daughter, Mrs. Harvey Young, Columbus, and three sisters, Mrs. Eleanor Martin, Los Angeles, Mrs. Margaret Lattimer of Pickerington, Mo., and Mrs. Charles Cahill, of Milwaukee, Wis.

Mr. Hughes formed a law partnership in Columbus with J. Q. Marriott in 1876, and later served as master commissioner of the common pleas court.

Judge Ivor Hughes was the only man outside the profession of Architecture or the Allied Arts initiated into Alpha Rho Chi. He was a member of the York Lodge of Masons, of the Junia Lodge No. 474 of Odd Fellows, and was a past grand master of the Ohio Lodge of Odd Fellows. He was a member of the Patriarchs Militant, Kit Kat Club, and the Ohio Archeological and Historical Society.

The funeral services were conducted by members of the Odd Fellows, Judge C. C. Williams and W. E. King of the Demetrios chapter.
THE ARCHI

IKTNOS CHARTER MEMBER PUBLISHER BOOK OF POEMS

Roger L. Waring, '13, a charter member of the Iktinos chapter, has spent most of his spare moments, outside of working hours, pursuing his favorite hobby, the writing of poetry.

Upon graduation from the University, Waring worked as a draftsman for Detroit architects for five years. During the war he served as mechanical engineer in the Heating and Pluming Section of the Construction Division of the U. S. Army at Washington.

From May, 1919, to December, 1928, he has been architect's superintendent on construction of five monumental structures ranging in cost from two million to seven million dollars each. Practically all of this work was handled for C. Howard Crane, Architect. Since December, 1928, he has been employed in St. Louis as contractor's superintendent for the Aronberg Fried Construction Company, Inc., on the completion of the Fox theatre and office building, a three million dollar structure.

Besides his poetry he has written a number of articles for the Engineers News Record and other magazines throughout the country. His poems appear at regular intervals in the Detroit News, St. Louis Globe Democrat, and Columbus Dispatch. Mr. Waring's first book of poems, "Places," was published in December, 1928, and has had a very successful sale. His poems also appear from time to time in magazines such as America, The Catholic Weekly, Whiz-Bang, American Needlewoman, etc.

The Song of the Citadel

I

I sing of the blow of the mighty sledge,  
The ring of the swinging pick,  
The rending wail of tearing wood,  
The crash of falling brick,  
The ground is now bare and nude,  
Where the wall of a building fell,  
And the sound of the fall is a great prelude  
To the Song of a Citadel.

II

The rhythmic hiss, and whir-r-r and hiss,  
As the steam shovel plays its part,  
The road of the truck with its load of muck  
And the whine of the derrick's start.  
An air lock rings a signal tapped  
To the man in the caisson bell,  
They're singing the song, the whole day long  
The Song of the Citadel.

III

Comes steel with the sing-song shout of men,  
Where the rattling rivet roars,  
The clank of a chain starts a weird refrain,  
And the framework upward soars.  
The music strikes a higher pitch,  
As skyward springs the shell,  
Of iron and steel, with groan and squeal  
The Song of the Citadel.

IV

The hammers rap, the rip of the saw,  
As the floor forms fit into place,  
The concrete splash, the travois quick flash,  
As brick walls raise their face,  
A softer note strikes ear and eye,  
And lends a real harmonious peal,  
To The Song of the Citadel.

V

The Terra Cotta comes in view,  
With its soft and lustrous strain,  
Its symmetry adds harmony,  
Like a wonderful refrain,  
And the song goes on and on,  
And over us casts a spell,  
Now loud, now low, now fast, now slow,  
The Song of the Citadel.

The Engineer

He visions spires that pierce the skies,  
Great bridges span before his eyes,  
A dam gigantic roars and fills  
A verdant valley 'twixt the hills.  
On thunder thru the mountain sides  
His pioneering vision rides,  
As with untiring brain and brawn  
He brings his dreams to greet the dawn.

And there is the yellow pot attended,  
For always he is visioning  
New dreams, removing worlds to bring  
Them into being, clean and clear,  
This mighty, migrant engineer.

Rogier L. Waring.

My Theatre

My theatre holds only two,  
My love and I, I watch the play  
That brings me heart's desire. And you  
Are life and light and melody.

What more can all the world impart  
Than when the curtain slowly rise,  
To see the love within the heart  
Behind the footlights of your eyes.

Roger L. Waring.

FOUNDERS' DAY IN HONOLULU

Stadelman, Davis and Holdredge at Waikiki Beach Observe 15th Anniversary.

William D. Holdredge, Correspondent

Founders' Day was observed in Honolulu with all due pomp and ceremony. This historic affair was held in the beautiful home of Mr. and Mrs. Stadelman at Waikiki beach. Richard Stadelman, Andr. Ex. '27; Curt Chambers, Andr. Ex. '27; and William D. Holdredge, Andr. Ex. '26, were the members present.

The sumptuous board groups under an amazing variety of Hawaiian, Oriental, and "Haole kau kau" (white man's food). The banquet was formally begun when a toast to Alpha Rho Chi was drunk in "Okolehau," the native vodka. Hula girls danced to the soft strains of an Hawaiian trio, and the romanti-tropic moon shed its radiance over the guests. When the final course of the delightful "luau" was finished, the party adjourned to the card room for the native games of "pupu" and "hoo wali walli" (Believe it or not!). It was the most perfect banquet ever attended—no one made a speech, and tho Stadelman, who was slightly "kapakahi," tried to several times, we playfully hit him on the head with canoe paddles, effectively silencing him.

PLANS FOR FRATERNITY SONG BOOK

The Grand Lecturer plans to publish next Fall a song book of all the Alpha Rho Chi songs as used by the various chapters. He suggests that each chapter send in its songs at once. These should be blue line prints of standard 8½" x 11" size. The "Sweetheart" song competition will close on May 15, 1929. On May 1, 1929, only one entry had been received. Let's be busy. The Archi tentative plans are to publish, starting next Fall, at least one song on the last page of each issue. This cut for publication will be complete with words and music and of a standard size that can be used for our bound fraternity song book.

Send all songs to Bro. A. S. Phillips, 63 W. 88th St., New York City.
ANTHEMIOS CHAPTER HOUSE
University of Illinois

1108 South First St., Champaign, Ill. Owned and built by Anthemios Alumni Association. Completed Fall, 1928.

FOUNDERS’ DAY BANQUET HELD IN COLUMBUS

At Columbus on Saturday, April 15, 1929, we found fifty-seven members and pledges of the Demetrios chapter assembled at the Deshler-Wallick Hotel to pay homage to Alpha Rho Chi and her founders.

The menu from seafood cocktail to cigars was given a big hand. The entertainment consisted of a four-piece orchestra, which played during the main course, and a short skit by the pledges. Marion Carter, '17, proved himself a most amiable toastmaster; Dwight P. Ely, '17, spoke for the alumni; and Dick King, Worthy Architect of the Demetrios chapter, favored us with a fine informal talk, much more refreshing than the usual active chapter statistics. The main speaker of the evening was the Reverend M. H. Lichtliter, of the Congregational Church, a most ardent booster for Phi Gamma Delta and the Masonic Fraternity. He spoke on "The Vaudeville Mind," a title most deceiving but one which proved most interesting.

Professor Bradford and "Pat" Coady, '23, also favored us with short speeches. Coady’s oratorical ability has not been dimmed by the dusty cement sacks and red hot rivets.

The success of Demetrios annual banquet can best be proven by the number of out-of-town alumni from all parts of the State that they draw yearly. This year ten alumni outside of Columbus were present, Cincinnati sending Dole, '27; Gosline, '28; Lewis, '22; and Spring-er, Ex. '29. The others were M. P. Coady, '23, Detroit; Kolkenbrun, '25, Chicago; Marvin, '25, Toledo; Bolinger, '20, Dayton; Kuck, '27, Lima; Renick, '23, St. Louis; and Albrecht, '22, Coshocton.

The committee in charge of this year’s banquet sponsored by the Columbus Alumni chapter were Crumley, '26, Kennedy, '21; and Spencer, Ex. '22. Renick got his seat this year near the soup bowl instead of the gravy bowl as he did last year, so all was well in O-HI-O.

CARNEGIE CHAPTER INSPECTED

Grand Council Begins Inspection of Chapters.

The first of the annual chapter inspections as authorized by the fourteenth annual convention at Los Angeles last December was started by the Grand Council last month. D. P. Ely, W. G. A., made a preliminary inspection of the Polykritis chapter at Pittsburgh last April 18th. A dinner was held at Fort Pitt Hotel with all members of the active chapter in attendance. Three members of the present active chapter have decided to take an apartment next fall and use the rooms as a chapter house. By doing this, every chapter of the Fraternity will be in its own house next fall.

LEBRUN PRIZE

Mnesicles Man Successful Contestant.

Emile F. C. Backstrom, Mnesicles '24, winner of the LeBrun Traveling Scholarship for 1929, was born in Pipestone, Minn., Sept. 21, 1898. Since his graduation from the University of Minnesota, he has been in the offices of the Bertham G. Goodhue Associates, and Henry C. Pelton and Allen and Collins, where he is employed now. He is planning on sailing to Europe in July.

The problem was a non-sectarian chapel erected as a War memorial in a moderate size city, the site being in a parked slope at the axis of a main residential avenue. The winner of the LeBrun Scholarship each year is enabled to spend at least six months abroad for the study of architecture. The stipend is $1400.

Backstrom’s prize drawings are reproduced in the current May issue of Pencil Points.

TRAVELING ALPHA RHO CHI EXHIBIT

At the recent Founders’ Day banquet of the New York Alumni Chapter, our Master Architect, Mr. Cass Gilbert, made the suggestion that the Fraternity, and particularly the New York chapter, could well collect and exhibit the representative work of its membership. According to his idea the finest work of the Fraternity would make up the exhibit which would not be limited to sketches and renderings, but might also include the literary work, models, and perhaps some of the finer examples of craftsmanship by Alpha Rho Chi men.

This would not mean that the work of everybody would be shown, but only such work in architecture and the allied arts as is decided by a jury to be of a high standard.

The plan is to display the exhibit at the galleries of the Architectural League of New York, in the Fall of this year. It is thought that it would be well to send it to other large cities throughout the country and perhaps to any school where there is an active chapter or where we hope to establish one.

At the present time no definite action has been taken, in the hope that the entire Fraternity may be interested in this project and a reaction secured not only from the officers and chapters, but from every member, both active and alumni.

A most favorable reaction should result from this, as it will not require any extra time from any members who will exhibit, as past problems et cetera that have been handed in to the various departments of architecture and allied arts will be the main bulk of material used.

Write and tell A. D. Pickett, 220 Graybar Bldg., New York City, how either you personally or your chapter will help put this over.

THE ARCHI

ANTHEMIOS CHAPTER HOUSE
University of Illinois
PRIS DE ROME FINALS

Elmer I. Love, Poly '26, is one of the remaining seven final competitors for the Wm. Rutherford Mead Fellowship in Architecture (Crane of Illinois is also included in the list of seven).

The problem was a design for a public square. The final competition is to be held during the period extending from April 27th to May 25th inclusive.

RETIURING OFFICERS

Each retiring officer should see that his successor is properly instructed in his new duties.

Before the various chapter officers, old and new, leave the house this Spring, it is their duty to set their records in order and to have their transactions with the Grand Council complete and up to date.

The directory cards should be checked carefully against the last directory issue of The Archi, and any discrepancies should be reported to the W. G. E.

Each W. A. should see that all graduating brothers fill in new directory cards before they depart.

NEW ADDRESS FOR W. G. E.

Members of the fraternity and new Archi subscribers having business with the Worthy Grand Estimator, Bro. Harold L. Parr, are advised that his new address is 1833 N. Michigan Ave., Saginaw, Mich.

PROFESSIONAL INTERFRATERNITY CONFERENCE

The Professional Interfraternity Conference should supply a long felt want among professional fraternities in a field of virgin endeavor. We cannot improve in comment in this respect upon an editorial by Mr. Everett Hicks, editor of The Reprint of Gamma Eta Gamma (legal), January, 1929. The editorial follows:

Formation of the Professional Interfraternity Conference should do much to speed the development of the professional Greek-letter organizations. Many of the progressive steps taken by the professional fraternities since the formation of the Interfraternity Conference in 1909 have been imitated by the professional fraternities. But much of the valuable information gathered by the Interfraternity Conference committees and disseminated among member fraternities has not been made available to the professional groups. It may be of interest to condense herewith a summary of twenty-four activities of the Interfraternity Conference, listed in a pamphlet just published, as an indication of work the Professional Conference may well undertake:

1. Pledge lifting, the lifting of members, and of chapters by the fraternities among themselves, well nigh eliminated.
2. Chapter organization studied, delegates exchanged views and experiences, and improvement in chapter stability and morale resulted.
3. Weak and demoralized chapters strengthened or reorganized by interfraternity committees.

Here's where delegates and brothers attending the Jubilee Convention will be entertained.

The Editor's Mail Box

Andronicus—Southern California

In the air mail letter that we received from Holdredge, Andr. '26, in Honolulu, he tells that Dick Stadelman, Andr. Ex. '27, has been there almost a year, associated with Lou Davis, a local architect there. Recently Curt Chambers, Andr. Ex. '27, and Holdredge joined him. The address of the trio is 400 Boston Bldg., Honolulu, T. H.

Mnesicles—Minnesota

Moorman writes that Eddie Holien, '23, "had some architectural bull" sessions with Hank Gerlach, '22, lately while he was doing his Columbus Lighthouse, and also with Emil Backstrom, '23, who turned in the prize winning LeBron. It looks like Johnny Walquist and myself team up with various others for a vacation of hopping over again this summer."

"I am bowling along more or less indolently. I like the damp climate and the sewer tainted sea air, nice place New York," writes Hank Gerlach. He continues, "Elving Johnson, '23, is feasting upon guides to European travel, Howard Gilman, '17, is on his way to Cleveland and a new job. Bob Davidson, Ex. '20, is here with the Dunham Coll in the Eastern division as a supervising engineer."

Demetrios—Ohio State

Mother Uelry received a long cheerful letter from Doyt Early, '25, from Sacramento, Calif. He is chief draftsman for a Sacramento architectural firm and has been doing considerable private work, a few private jobs being a wayside tea room and a little Monterey Spanish house and store.

The postman brought an exceptionally well designed Chinese engraving announcing the active boys' annual Greenwich Village party at his chapter house May 17th. The party and the decorations will all be in Chinese, and the four o'clock breakfast will be held in some first class chop suey (if there is such a place).

Cass Gilbert on Net-Work

We enjoyed hearing our Master Architect's voice over the Red Net Work last March 24 when he gave a talk on the National Academy of Design.

DEMETRIOS BOYS FORM PARTNERSHIP

Brothers Walter E. Pettit, '20, and Galen F. (Doc) Oman, '20, who formerly had offices together in the Yuster Building, recently formed a partnership under the name of Pett & Oman, Architects, and moved their office to the Metzger Building, 2509 N. High St., Columbus, Ohio.

Doc also is an assistant Professor in the Department of Architecture at Ohio State.

NOTES AND COMMENTS

Expansion

Alpha Rho Chi is no exception to the rule that no undertaking can stand still indefinitely without decay. Three years have now elapsed since we last issued a charter and the Fraternity needs one or more new chapters to maintain its record of steady growth.

In our opinion the next five years will witness the establishment of a large number of chapters by the various college fraternities and we should be alert to our opportunities if we are to obtain representation in the growing architectural institutions of the country.

This does not mean that we should push ourselves where we are not needed or wanted or that we should accept petitions from groups which cannot maintain our standards.

We must depend largely on our alumni for the establishment of petitioning groups, and the Grand Council takes this opportunity to urge upon these members an increased activity and their thorough co-operation with the Council in this regard.

D. P. ELY, W. C. A.

Appreciations

You are now nearing the end of another college and fraternity year, and it's a good time to check back over the activities of your chapter for the year. Has it been a huge success? If so, who was responsible? Credit must be given to every member of the chapter, including pledges, to be sure, but especially the Worthy Architects and Worthy Estimators who usually play a most important part in the way the scales tip.

Their duties are all performed gratis and many things that the active members never hear or know about are attended to by them, and only by their doing these odd and miscellaneous jobs did the chapter run smoothly. If you have appreciated their work and time spent for the good of your chapter, why not tell them so personally? We do not mean the usual notes passed in chapter meeting at the end of each year, but some note by the fraternity fireside a few words sincerely passed on to these worthy officers will be surely appreciated.

Every Old Room-mate Will Be There

Alpha Rho Chi will assemble its delegates in Champaign the latter part of December for its fifteenth annual "Jubilee" convention. This is the first time the Fraternity has planned on a large alumni attendance. It is hoped that the delegations from Detroit, Chicago, Minneapolis, Columbus, and every one within a radius of three hundred miles will plan now to attend this Jubilee convention.

To the June Graduates

Congratulations are hereby extended to all who are completing their architectural or allied art course. May they remain loyal and true to the ideals of Alpha Rho Chi and never forsake her through the coming years.

Los Angeles Delegates

At the last convention held in Los Angeles, several of the chapter delegates were assigned duties or reports that their chapter should present to the next convention. If your chapter has not been working on its special assignment, now is the time to start it and not wait until next Dec. 15th.

New Chapters

All inquiries and correspondence relative to the affiliation of new Chapters with Alpha Rho Chi should be addressed to the Worthy Grand Scribe of the Fraternity. Address may be found in the Fraternity Directory above.
INTEREST
By The Old Timer.

One sometimes hears the remark made that if certain persons are not interested enough to come or affiliate or subscribe, or whatever it is, without being reminded of it they shouldn't be bothered.

This seems to the O. T. to be a faulty conclusion, it being a recognized fact that the success of almost any organization or undertaking is due to the energy and efforts of one or more persons who have stirred up the rest.

We can all think of things and events in which we are interested, but of which we have to be reminded. We enjoy going to the alumni luncheon, but we often forget it or else are afraid all the others have forgotten it and won't be there.

We are all of us anxious to get news of our alumni brothers, yet it requires the special interest and energy of The Arch editor for us to have it. The fact is a great many of our alumni do not subscribe to The Arch as a recognition of its importance but they are not interested in the fraternity but may only mean that the matter has never come to their attention in a sufficiently forcible manner.

Our Arch, or so it seems to the Old Timer, is interesting and attractive to all our members and we hope that our non-subscribers are moved to bear out this theory of universal interest throughout the ranks of the Fraternity by sending in their subscription without further delay.

EXCHANGES

THAT ABOMINABLE WORD

The most abominable word that has attached itself to the fraternity idea is the corruption "frat." The fraternity man who uses this word, or who does not do his level best to discourage its use, is as much of an abomination as the word is itself.

The passage of time has served to attach an odium to this term synonymous with whatever may have been inglorious about the olden time fraternity life. If there was anything distasteful about the plan in the past, it has been rectified by now, and the word "frat" should and must be rectified as well.

Fraternity men today are expected to set the example of what they know to be proper. It is up to them to lead the world into proper understanding of their system. If they fail to do this, they need expect no sympathy from the one unacquainted with it. One man using the word "frat" on a campus advertises his fellows as a bunch of hoodlums. Do you use it? Are you a "frat" man? — The Carnation of Delta Sigma Pi.

WEAR YOUR BADGE

With the arrival of summer and the closing of colleges for the vacation period, fraternity men turn traveling men. The boy in college goes out onto the paths of trade or off on a recuperating jaunt. The alumnus takes his annual, semi-annual or monthly vacation to roll in the shadow of the whispering pine or try his drive on new fairways.

We travel by rail or steamer or we pack our grips and pile into the car for a long and interesting tour. We go or whatever our lot we are, if human, always glad to meet any man with whom we can find a common meeting ground—a fraternity man and particularly a Kappa Sig. And the further from home and the more unexpected the meeting, the more delight we have in the new acquaintance.

Wear your fraternity pin! Without it you miss many a chance to strike up a new and happy acquaintance; a traveling companion, a good friend and even an aide in need is always at the back and call of the man who wears his standard where all may see and the brother recognize.

We wear the pin at all times, for you never know when your path will cross the way of the man who may be the best friend you ever had, one who will make you thankful that you always displayed the jewel that served as your introduction. — The Caduceus of Kappa Sigma.

DRIFTING AWAY

The old alumnus gets into a bad habit sometimes of missing things; then realizes what he missed after it is all over. They call it "drifting away" from one’s fraternity, but more specifically it might be called failing to attend because there seems no appeal.

Young and old we get to feel that we can just as well miss a conclave, or an alumni chapter meeting, or our old chapter’s homecoming because we suspect there will be little there of interest to justify our going. But—particularly for every old alumnus—friends, the delightful evening of reminiscences, the thrill of a lifetime, may lie just around the corner at that fraternity gathering which we have almost decided to pass up. — The Caduceus of Kappa Sigma.

ALUMNI—A FRATERNITY ASSET

Certainly one of the biggest assets of a fraternity is its alumni. Those assets can be realized only by the activities of the alumni. It is a duty of the active chapter to enrich itself by keeping its alumni interested and proud of them. In the busy world, the alumni is always willing and anxious to listen to news of his fraternity. He will never let her suffer if she is worthy of his support. It is up to you, active members, to keep this interest alive. The alumni expect big things from you, and a large part of your success depends upon them. They are more than willing to co-operate, but you must take the first step. — The Quill and Scroll of Kappa Delta Rho.
THE CHAPTERS

ANTHEMIOS—ILLINOIS
J. B. Routh, Correspondent

Here 'tis, boys. The officers for the next school year will be B. L. Pickens, W. A.; J. B. Routh, W. A. A.; E. S. Slygh, W. C.; C. M. Rutledge, W. E.; and E. G. Shaefer, W. S.

Tom Clinton, '28, dropped in on us for a little visit and started a fight in the dorm. Tom is with McClintic-Marshall now, and just returned from New Orleans on a business trip.

Glen Yockey, '28, past W. A., slipped on something and landed on a real position with the Herman-Nelson Corporation. Either one would be a good indication that vacation time will soon be here.

Now about this landscaping. Did these old A. P. X-ers ever get together? Yeah! This time! In one week's time they sodded the terrace slope (dug up the grass too), planted a mulberry hedge around the sunken garden, laid a stone terrace in front of the east French doors, leveled off the front terrace, and then used them all the night of our formal. We surely owe credit to Bro. "Burr" Patterson for a nice $50 loan to be used in furthering the landscape plan before the vacation came. And then there's Brother Shaefer who turned out to be the real slave driver from Egypt when we started to lay that terrace. There never was one better. Hot potatoes, hot chicken, and hot music. I don't recall all that happened; but when it all came to an end, the orientals played Home Sweet Home, there wasn't one there who hadn't had one wonderful time. I'll tell you we were lucky to have such fellows as James Russell, "Skeet" Bowen, and "Jim" Carlson to put the dance over, and there's credit due every last one of the pledges and new initiates. In fact, everyone worked like pignies.

Our chorale were as announced in the last Arch. We should have liked to have seen Mrs. Newcomb bring along Prof. Newcomb, but since he is in Japan, she could not very well afford it. Wow! Eighteen of the boys imported dates; resulting in two casualties. We wish to announce the engagement of Miss Marcelle Kimmel, Springfield, Ohio, to Bro. Weldwin K. Baldwin, Springfield, Ohio, and also the engagement of Miss Pauline Benson, of Spooner, Wisconsin, to Bro. Randall Lloyd, of Eau Claire, Wisconsin.

Oh yes, "Skeet" Bowen's girl became so entranced by the third dance that "Skeet" 'des natchelly got light footed 'n heavy headed 'n took a flop. The south end of his tux trousers shone like the moon for the rest of the night.

DEMETRIOS CHAPTER HOUSE
Ohio State University

1919 Indiana Ave., Columbus, Ohio
Owned by Demetrios Alumni Association

Lusk, Ex. '30, was down from Chicago for the formal.

And now for a few things these A. P. X-ers have done. First, the active chapter wishes to express its hearty thanks to Duke Strong, '17, for the way he takes care of our fair domicile. When a drain pipe is blown down, Duke gets it fixed; when the roof leaks, Duke sees that it doesn't leak long; and, fellows, when anything goes wrong, Duke becomes a true A. P. X. big brother to us. I wonder sometimes what we would do without him.

Then there's Eddie Slygh. He's the main booster for our house scholastic average. He's made Gargoyle and Sigma Tau this year. Pickens also made Gargoyle.

Purdy, Lehman, and Routh went scalavin' over the country with the Pierrot Dramatic Organization for a week as chorus girl and two bandits.

Otis Winn got plum architectural not long ago and crashed thru with a second medal in Beaux Art's Masonic Temple Competition.

Bro. Able did likewise when he got first mention placed on his Order Study.

But how about our social genius? Hey! Hey! Bro. Johnny Bloom made four houses dances in a row. Three were formals, too. Boom? No? No! He didn't even fall down.

See you in our paper next year.

DEMETRIOS
E. W. Steuart, Correspondent

We've had three different reporters on the job since fall, here at Demetrios and spring finds me huntin' for news and layin' for the guy who put me in such a position. Well, anyhow, here goes!

I am reminded that while Brother King was in New York with the Glee Club (where they placed third in the National Intercollegiate Glee Club Contest at Carnegie Hall) he told us of having quite a sight-seeing trip with brothers George Merkle, '27 and Franklin Scoot; Dem. 26, who are working there. "Merk" is with Vorhees, Guenin & Walker, while "Scotty" is brothering Chas. A. Platt with his questions. And, too, regardless of all the warnings, etc. given him by the boys, Scotty took the final leap March at Trinity Church in New York's downtown section. The party in question is Miss Erline Green '26, who graduated in Landscape Architecture and who has been working for a New York firm for some time. "All kinds of good luck and good wishes from the brothers back home, here, Scotty!"

Our pledges here at Demetrios are having quite a time in their own prankish way by throwing their graduating seniors into the cold dark waters of the Olentangy river. They plot and plan in the utmost privacy and pounce unexpectedly upon the poor unfortunate Seniors. The pledges do it in big style, too, for they hire fire engines on cold nights. Brothers King and Rice have already had their bath but Heichel and LeFevre are getting "Ready for the River."

Much racket is being raised around the house these days in preparation for our Annual Greenwich Village Party. This yearly affair is always looked forward to by the students all over the campus. This is our biggest party of the year and we sure "put er on." The date set for this gala event is Friday, May 17. The party is to have a Mongolian atmosphere, so all the boys with almond eyes are settin' Jake.

It has just come to our attention that Brother McMurry, Dem. 25, who since his graduation has been connected with the State Industrial Commission, is leaving town to join the firm of Norman Bel Geddes in New York City. Bel Geddes will probably be remembered as the designer of the "Miracle" and other shows. He is now going into the practice of Architecture and "Mae" will perhaps be one of his "right hand men."

Information Wanted

And by way of closing, if any Alumnus of this chapter can give us any information concerning Brother George Schied, deceased, we will appreciate it. We are unable to find any record of him in the files, except name and notation deceased. We want date of initiation, etc. Reede Hardman, please note.

MNESICLES
A. G. Hay, Correspondent

The Mniesicles chapter held a joint Founders' Day and Initiation banquet April 20, 1929, Frank S. Moorman, '22, was toastmaster for this occasion. More than fifty members were there. We had the pleasure of having with us
Minesicles Chapter House
University of Minnesota

315 Nineteenth Ave. S. E., Minneapolis, Minn. Owned and built by Minesicles Alumni Association. Completed Fall, 1926.

Brother S. Graham Latta, Andr. '27, who, by the way, delivered a peach of a speech. Paul Jones, '28, came down from Fargo dressed in fine raiment. The banquet was also the occasion for welcoming nine new active members, and a fine bunch they are, too.

Other old timers were Paul Damberg, '22; Stan Cederstrand, Ex. '27; Gil Hollien, '28; Winthrop Wadsworth, Anth '14; Harold Peterson, '18; and Chester Dock, '22; not to mention Pruis, Mann, Arndt, and Burton. A real time.

PAEONIOS—K. S. A. C.
Harold Gregory, Correspondent

The second semester is fast drawing to a close and most of us are wondering what we have been doing for the past three months.

We are making big plans for our annual Bow Tie Brawl. Everything points to the biggest and best brawl Paenios has ever held. It is to be on May 10th. We have two worthy architects Larry Cortes and Wallace Piper, working on plans at the present time.

One of our pledges, Murray Lesher, passed out cigars recently. We wish to extend our heartiest congratulations and compliment him on his selection.

George "Jigger" Crossen has been a rather busy lately entertaining a certain little blonde lady. Stay right in there, "Jigger," we're all behind you, wishing we were before you.

Our worthy president, Leslie Wilkie, still makes bi-monthly trips to Kansas City to see that certain party. It is rumored that perhaps he is married, but then we cannot prove anything as yet, so he's safe for the time being.

Loren "Hop" Olmstead, the man who went dizzy over a certain girl named Ramona in Los Angeles, is on his feet again and going strong as ever. His last find was little girl called "Venice." Well, he's thinking along architectural lines anyway. At the present time he claims to be a bachelor; however, who knows what the morrow will bring?

George Zavetsky was around trying to collect cigars he put out when his first love had his pin about a month. So far he has been unsuccessful.

"Gabe" Crossen is still going strong on his cup of coffee every night. Seems funny that he doesn't get over drinking coffee in the summer time, but love is a funny thing,—you never can tell what effect it will have on a fellow.

Paenios of Alpha Rho Chi is glad to state that we have two men, George "Jo" Jelinek and Alva "Hexie" Freeman, going into Scabbard and Blade, national military fraternity. They are going thru the "Hell-Week" part of the initiation now.

Larry Cortes, the boy from South America, won the prize offered by the Jansen Publishing Company. It was given for a sketch problem of a military academy.

Wallace "Windy" Piper, our Kansas City youth, has fallen hard for a little ninety-pound lass in his home town. If he doesn't get a letter every day, he wires down to K. C. to see what's wrong.

School ends May 28th and there is to be a farewell dance that night sponsored by the national fraternities of Manhattan.

DINOCRATES
Theodore H. Allen, Correspondent
Founders Day Banquet was held Saturday night, April 13th, at the Stephen F. Austin Hotel. The first pleasant surprise was a set of specifications for each guest.

The specifications were in the form of a three-page blue print neatly bound with maroon and navy blue ribbon. Our Worthy Architect Millhouse was toastmaster. The speakers were C. C. Simmons, '25; Malcolm Simons, Iktinos, '14; Prof. Raymond Everett, Harvard, '09; J. J. Patterson, Anth. '17; and G. L. Dahl, Mnes. '20. Music and light entertainment were provided by the pledges.

The most interesting thing about the specifications was the Materials of Consumption (Menu) which were as follows: fruit mosaics (cocktail), selected aggregate (relish), drawing board paste (cold consomme), open heath chicken with gravy (dressing), potato balls with entourage, English peas slushed in morttatar, half bartlett pear rendered in Naples yellow (cheese), white lead in oil (mayonnaise), common red brick bats well grouted (fresh strawberry parfait), and India ink (demi tasse).

We enjoyed having a number of our alumni back for the occasion, their presence adding a goodly dash of merri ment to the occasion.

After the banquet, the bunch adjourned to the chapter house for an informal smoker, where the hull flowed thick and freely.

Our chapter has progressed with rapid strides this year. We have about sixteen men in the house and will have several more next year. We have put in many hours of hard labor in the year and in the house, and things are in tip-top shape. However, we have secured a better house for next year, in a prominent location and much nearer the campus.

We are planning things on a big scale for the next year, so watch our smoke.

The officers elected this Spring are: W. A. T. H. Allen; W. A. A.; Marion Stoker, W. C.; Clinton Dunagun, W. E.; L. D. Spinks; W. S., Chas. F., Wedding ton; and Supt., John P. Roper.

HERON CHAPTER
Louis Williams, Correspondent

The officers for this Spring are: Carl Yotaw, W. A.; James Wright, W. A. A.; Wilbur Tenkham, W. E.; Ralph Southwick, W. S.; James Davis, W. C.; and Thomas Murphy, Supt.

Things are moving spiritually, fraternity on the campus this year. We are all managing to make a living and also to spread the spirit and goodwill of Alpha Rho Chi. We feel that in two years on this campus we have done more as a fraternity than has ever been accomplished in a similar period by any other fraternity here. In short, we are becoming established.

We have just finished a portion of the baseball season with one of our best baseball teams in the Panhellenic League. Of course, you know that we would be good students, fair social men, and politicians, but to jump up and best some of the more established fraternities at their own is a bit unusual.
PLEDGES DROPPED

The W. G. E. should be promptly notified when the chapters drop names of pledges from their rolls. Use Form E 2.

Demetrios—Ohio State

Andronicles—U. S. C.
Gibbs, Hugh, '30, Long Beach, Calif. (Financial reasons).

**NON-LIFE SUBSCRIBERS**

Starting with the past May 1st Directory Issue of The Archi, we are mailing the next three or four numbers to every member of the Fraternity. We are adopting this form of campaign to strive to bring our subscription list to the point that the newspaper may be self-supporting. An individual sales letter would be too expensive since we are compelled to operate on a narrow margin.

According to Archi records on April 1, 1929, we have a national membership of 1967 members and only 760 are life subscribers. We need every man a life subscriber by January 1, 1930.

Settle back on the slippery stool for a minute period of time, and picture in the smoking rings softly billoowing and dissapating at the ceiling some of your old brothers. Haven't heard from Al or Bob, or Charlie or Du in under-graduate days, have you? A life subscription will yet you the low down on all these guys.

Add your name to the list of life subscribers now by signing the form on page —

---

**EVERY MEMBER A LIFE SUBSCRIBER**

**PLAN No. 1**

Immediate full payment of $10.00 life subscription.

**PLAN No. 2**

Partial payment of $5.00 toward life subscription, the balance of $5.00 to be paid in 90 days.

Detail Brother: ___________________________ Date: ___________________________

Enclosed find ____________ CHECK for $___________ in payment on my subscription to The Archi, in accordance with Plan No. ______ as stated above.

Fraternally yours,

Bro. ___________________________

EXTRA

Late Report on Progress of Exhibit.

Since the last business meeting of the New York Chapter, of Alpha Rho Chi, we have interviewed several faculty men from various Universities with regard to the proposed exhibit of sketches of architectural and allied arts to be collected and shown by this chapter.

Among those interviewed was Prof. L. H. Provine, head of the Department of Architecture at the University of Illinois. Mr. Provine's reaction was that the exhibit would be a worthwhile one and he felt sure that it would be acceptable at least to Universities where there is an existing chapter. He stated that he would be glad to discuss the matter in detail with the local representative at Illinois whenever the proper time arrived, and we are sure that he will O. K. the matter of expense in sending it to that University.

We also interviewed Prof. Paul Weigel, head of the Department of Architecture at Manhattan, Kansas. Mr. Weigel felt that the Manhattan Chapter needed just such prestige as an excellent exhibit of this nature would furnish, and he definitely stated that he would O. K. the necessary expenditure of money to secure the exhibit for the school. Prof. F. A. Klein-schmidt, head of the Department of Architecture at Texas Tech, thought the idea was an excellent one and stated that he would back it up as far as possible. We have written members of the Grand Council, requesting their opinion on such an exhibit and have heard as follows:

Brother D. P. Ely states that the project strikes him as being a good one, and he hopes that the work of the alumni rather than the active members will be featured, since it has been found difficult to obtain work done in school. Brother H. L. Parr, states that he is extremely glad to hear of the activities of the New York Chapter and considers the idea of an exhibit a splendid one. He would be glad to do anything possible to promote it.

After consideration of the matter and discussion with other members, we have decided to appoint three committees, who will collect, plan and put over the exhibit in New York.

The committee for collection of the exhibit will be Henry Gerlach, Chairman; C. R. Sutton, Franklin Scott and George Harker. It will be the duty of this committee to get in touch with, directly or indirectly, the entire membership of the fraternity and arrange for actually collecting all material to be exhibited.

The second committee is that for selection and hanging. This committee is composed of Dean Axline, Chairman; W. I. Hamby and George Ferrenz. It will be the duty of these three to appoint or act as a jury as they see fit, and have complete charge of the selection of all material exhibited, with power to eliminate anything which they do not consider of the necessary high caliber for this purpose.

The third committee is that on publicity. This committee is composed of George Merkle, Chairman; H. MacD. Davidson and W. A. Taylor. It will be the duty of this committee to decide upon the methods desirable for securing needed publicity for attendance at the exhibit, and to arrange for its possible tour throughout the country.
