THE GRAND COUNCIL OFFICERS OF ALPHA RHO CHI

WORTHY GRAND ARCHITECT

Dwight Palmer Ely
Demetrios '17

SUTTON WINS ROME PRIZE

Charles R. Sutton, Anth. '21, was judged winner of the three-year fellowship in landscape architecture to the American Academy at Rome. The term of fellowship begins Oct. 1, 1929. This fellowship is given by the Garden Club of America Foundation.

"Chuck" Sutton, Ottawa, Ill., is a graduate of the University of Illinois in Architectural Engineering in 1921, and in Landscape Architecture in 1926. He received honorable mention in the Rome Prize Competition in 1927. Since graduation he has worked in the office of Ferruccio Vitale in New York.

The members of the jury of award were: Ferruccio Vitale, chairman; Arthur F. Breinckerhoff, Noel Chamberlin, Ralph E. Griswold, and Albert D. Taylor.

The problem and prize winning drawing of Sutton was published in the August issue of Pencil Points.

WORTHY GRAND SCRIBE

Verle L. Annis
Theron

ALPHA RHO CHI STATISTICS

Alpha Rho Chi is a national social college fraternity limiting its membership to students of architecture and the allied profession.

Alpha Rho Chi has ten chapters.
Eight chapters own their own homes.
Alpha Rho Chi has chapters in ten States. It is national, not sectional.
It has eight alumni chapters and four alumni associations.
Alpha Rho Chi has a total membership of 1,100.

The subscribers to Archi number 780.
Cass Gilbert, nationally known New York architect, is the only living Master Architect of the Fraternity.
Colors—maroon and navy blue.
Flowers—white rose.
Motto—Fidelites, Amor et Artes.
Founded April 14, 1914, jointly by the Universities of Illinois and Michigan.
Names of chapters derived from famous Greek architects.
Annual convention held during Christmas vacation. Chapters acting as host to conventions rotate in order, and convention is always held in the city in which is located the chapter acting as host.

GRAND LECTURER

[Appointed by Grand Council]

UNIVERSITY OF ILLINOIS SCENE OF JUBILEE CONVENTION

WINN GETS TRIP ABROAD

J. B. Routh, Correspondent

Another Anthemios man gets to study in Europe. Otis Winn, '29, our red-headed crack designer from Murphysboro, Illinois, first won the Lake Forest Scholarship for Illinois last spring. This scholarship gave Otis three months at the Lake Forest Foundation to compete with other students from Michigan U., Ohio State, Iowa State, Armour, and Illinois U. His roommate was John Sitton, winner of the Rome Prize in painting. Sitton is now in Rome. Winn also buddied with William Simpson, runner-up in Rome Prize in Sculpture.

While in Lake Forest, Winn and the other students received criticisms from many of the noted architects in the country. One of the sketching critics was Chester B. Price. As for their problems, the boys had four one week problems, and one measured drawing. After those they spent their time visiting estates and sketching. Winn was awarded the Ryerson European Travel Scholarship. This affords him fifteen hundred dollars for expenses during one year's traveling through Europe.

He is all set to sail the nineteenth of October for Naples, Italy. Otis intends to remain in Italy for two months or until about December 15th. His address will be American Academy at Rome. Then he will travel to Paris for Christmas. Who wouldn't? After that you can find him somewhere in France until about April if you want to look for him. Otherwise write to him in care of the American Express, Paris. From France, Winn will go to England for a stay of about two months. There his address will be American Express, London.

Winn is one of our boys who worked his way through college. And, Otis, if you read this, remember that Anthemios is pulling for you, proud of you, and wishing you all the opportunity and success that you deserve. Good luck, Otis, write us every now and then.

ROME PRIZE WINNER OF 1926 RETURNS TO NEW YORK

C. Dale Badgeley, Dem. '25, has returned to New York after spending three years at the American Academy. Badgeley won the Rome Prize in the summer of 1926.

In "Extract from the Memoirs of The American Academy in Rome. Volume VII, 1929, Badgeley contributes an article together with illustrated plates showing restoration drawings, present ruins, and fragments of ornament left at site on "The Capitolium of Ostia."
The December issue of The Archi will contain Badgeley's article.

COMPETITION WINNERS

Many Alpha Rho Chi Men Included

In the recent issue of Pencil Points, a large list of prize winners in the National Better Homes Architectural Competition was announced. A hurried check revealed the following Alpha Rho Chi men:

Winners of awards of $500.00 each made by Regional Juries included Fred J. Abendrott, Dem. '26; Mrs. W. M. Ingenmann, wife of Brother Ingenmann, Mines, Ex. '20; and Livingston H. Elder, Ikt. '26.

Honorable Mentions made by Regional Juries included Franklin Scott, Dem. '26; Le Roy E. Keefe, Ikt. '25; Milton V. Bergstedt, Mines, '31; Joseph J. Patterson, Anth. '17; and Lyle R. Wheeler, And. Ex. '28.

SEMI-CENTENNIAL CELEBRATION OF THE UNIVERSITY OF SOUTHERN CALIFORNIA NEXT SPRING.

Verle L. Annis

Dr. Hunt, Dean of the Graduate school, was appointed general chairman of a committee to take charge of the big Semi-Centennial Celebration of the University of Southern California, which is to be held the first week of June, 1930. This promises to be a very notable affair, with delegations of famous educators present from every university in this country and representatives from the great universities of all foreign countries.

There will be a great music festival, pageantry, banquets, lectures by great men, et cetera. Working under Dr. Hunt are about six or eight committees on publications, entertainment, music and publicity. The heads of these committees are for the most part the old timers on the faculty here, Ph. D's, Deans, and so on.

No less than three new buildings, now under way, will be dedicated with impressive ceremony, and the cornerstones laid for as many more. We even have some faint hopes that one will be the new quarter-million dollar architectural building. There will be the unveiling of a fine new monument to Alma Mater, too. At this time there will be displayed a model of the future campus plan, which Brothers Weatherhead, Baldwin and myself are working on, and which is already advanced in its study. This future campus plan is being supervised by a committee of very prominent architects of Los Angeles, including Brother Spaulding, Andronicus Honorary. No doubt Andronicus Chapter will be asked to take an important part in the Semi-Centennial, helping with the plans for decorations, pageantry, and costumes.

EDITOR'S NOTE: Brother Annis has been appointed to act as chairman of the Committee on Decorations. The job involves actual construction of the buildings and campus, costumes and pageantry of the special program, dedication of new buildings, laying of new cornerstone, design for letterhead, the general committee's design for sticker to be used on letters by students and faculty. Brother Baldwin, Andr. Faculty member, has been appointed to act as one member of Brother Annis' committee.
ARCHITECTURAL SCHOOLS

The following Universities give a complete course leading to an architectural degree:

Massachusetts Institute of Technology
University of Illinois
Cornell University
Columbia University
University of Pennsylvania
Washington University
Carnegie Institute of Technology
Harvard University
University of Michigan
University of California
Syracuse University
University of Minnesota
University of Oregon
University of Kansas
Yale University
Armour Institute of Technology
Kansas State Agriculture College
Ohio State University
Georgia School of Technology
Pennsylvania State College
University of Texas
University of Washington
Alabama Polytechnic Institute
Princeton University
Catholic University of America
University of Southern California
Rice Institute
University of North Carolina
University of Florida
Cleveland School of Architecture
University of Cincinnati
University of North Dakota
Texas A. & M.
Oklahoma A. & M.
Tulane University
University of Virginia
Iowa State
Miami University
George Washington University
New York University

CHAPTER INSPECTION

Upon authorization of the Fourteenth Convention in session in Los Angeles last December, the first of annual chapter inspections will be started in October. The recently revised “Handbook” contains a copy of the form for inspection which will be filled out by the inspecting officer and placed on file with the Grand Council.

The Grand Council has appointed the following men to make inspections of the respective chapters at once:

Anthemios—Harold L. Parr
Iktinos—Harold L. Parr
Demetrios—Dwight P. Ely
Mnesicles—William T. Townes
Kallikrates—Lester H. Christen
Andronicus—Verle L. Annis
Paeonios—Harrison G. Overend
Polykittos—Dwight P. Ely
Dinocrates—Malcolm G. Simons
Theron—Joseph J. Patterson

I LLINOIS RUSHING RULES

Below are listed the rushing rules in force at the University of Illinois. All fraternities have cards showing names, days and hours that they will entertain certain rushes during the rushing week. Rushes have similar cards with their schedules of engagements for the week.

1. No pledging may be done outside of Champaign-Urbana.
2. No rusher may be the guest of any fraternity before September 10.
3. A fraternity which has dates with a rusher must file a card with the general rushing committee before the time of the first date, and 12 hours before the rusher is pledged. Fraternities cannot pledge a rusher before 12 o’clock noon of the third day of the period.

4. Four daily dates for the entertaining of the rushes will be: 11 to 2 o’clock, luncheon; 2 to 5 o’clock, afternoon; 5 to 8 o’clock, dinner, and the theatre date, 8 o’clock through the rest of the evening. Fraternities having theatre dates will be dealt with by denial of privileges for any one fraternity the remainder of the period.
5. No rusher may have more than one date a day with any fraternity for the first two days and no more than two dates a day or two consecutive dates with any one fraternity thereafter.
6. If a fraternity entertains a rusher and said rusher has no dates immediately thereafter with another fraternity, the said fraternity may entertain the rusher until his next scheduled engagement.
7. Rusher must keep all dates during the first two days and thereafter until his pledge is made. Fraternities will be dealt with by denial of privileges for one semester. Infractions of the rules by the rusher will be punished by denial of the right to be pledged for one semester.

EVERY MEMBER A LIFE SUBSCRIBER

A WIFE WANTED

—her husband to send in that long neglected check for his life subscription to The Archi. Now what could one do under such conditions but obey the wishes of the good wife, especially when all the display windows are filled with plenty of needed articles selling for ten dollars or under?

Seriously speaking, though, on another page you will find The Archi report for the fiscal year. The Archi last year actually showed a profit of $300, but we still have a tax debt of $700.00 unpaid. Seventy new subscribers will erase the red ink and put us on a basis to increase the newspaper in size and allow the use of more cuts.

If we are reading this issue and the next one, the December 1st issue, to all members of the Fraternity. Will you be one of the seventy?

HAROLD L. PARR, Business Manager.

JUBILEE CONVENTION
Anthemios, co-mother chapter, will be host to the fifteenth annual "Jubilee" Convention which will be held in Champaign on December 30 to January 1. The present plans call for the closing social feature of the convention to be held in Chicago.

The Fraternity has never before made any special effort to invite to the conventions members other than delegates and actives and alumni living near the convention city. It is hoped that our "Jubilee" Convention will find present during the holiday season an exceedingly large number of Old Timers from all chapters within five hundred miles of Champaign. Why not plan now to get up a machine load to drive to Champaign December 30 and meet some of the old classmates?

ALPHA RHO CHI EXHIBIT
The organization of committees throughout the chapter provides the nucleus through which the interest of the fraternity may be developed and sustained. There is thus a sizable body possessed of mutual information and aware of each others address.

The function of the committee members may be broadened beyond specific duties into general interest. Inasmuch as the success of the venture depends upon the dissemination of interest, individual committee members may provide the contact point for fraternity members who could not be reached in any other way.

The fraternity has grown out into various parts of the globe. Members have grown in individuality. The problem of reaching them in spirit and fact becomes a personal affair. Through a number of individuals we may reach them all.

We will appreciate a list of names and addresses of committee members whom you choose to appoint. —Henry Gerlach.

We Can Travel the Road But Once
Thomas Arkle Clark, dean of men at the University of Illinois and one of the best-informed men on college and fraternity affairs in the country, recently made a list of things that he would do if he had to do them again. Here are his suggestions:
1. Develop concentration . . . work harder but not so long.
2. Learn to work while others are around.
3. Put more stress on learning how to get information than upon the information itself.
4. Find more difficult tasks to do.
5. Learn to speak in public.
6. Learn to play well some athletic game.
7. Learn to do one line of work particularly well.
8. Get better acquainted with his instructors.
9. Take fewer courses which are strictly practical.
10. Have an avocation which would bring him into close touch with men.—From the Caduceus of Kappa Sigma.

Public Initiation
While sitting in the lobby of the LaSalle Hotel in Chicago recently the editor of this magazine heard a lot of noise and giggling coming from the East entrance of the hotel. On looking up there were seen to pass by half a dozen young ladies all smeared with paints, dressed bizarrely and carrying placards on their backs, explaining who they were and what they were doing. After a tour of the lobby they made their exit. The comments from those near by, convinced one that such a performance did nothing to further the good cause of fraternities in this community. The placards announced that they were being initiated into Sigma Phi Omega, whatever that is.—The Record, S. A. E.
NOTES AND COMMENTS

Alumni Associations

By a wise provision of the Fraternity's Constitution and By-Laws authority is granted for the establishment of Alumni Associations to be composed of all the alumni of a given chapter and organized to act as trustee for the active chapter's real and personal property.

The Alumni Association has a distinct advantage in acting in this capacity since it provides a permanent and experienced organization to conserve the chapter's resources and offer encouragement, advice and assistance.

Although alumni of several chapters have perfected Alumni Associations there is still a majority which do not have this advantage. Several of our chapters are badly in need of such assistance and the Grand Council takes this opportunity to urge the alumni of these chapters to immediate action along this line.

D. P. ELY, W. G. A.

Alumni Responsibilities

In this issue we have published a list of schools having architectural departments. During the last several years it has been the custom of the Grand Council, not on a wholesale basis, but at least along steady and modest lines each year adding one or two new chapters for a limited period of time. Our Worthy Grand Scribe has been corresponding with many local architectural societies with that in mind, but due to our limited finances, letters cannot serve as well as personal contact.

We have alumni scattered over the entire country, many being located permanently at cities where there are universities having departments of architecture. If these men would investigate the possibilities of the establishment of an Alpha Rho Chi chapter, lending their assistance where needed to help these local fraternities submit petitions and in general furnish any information requested, a great service to the fraternity would be performed. If such a condition does exist in your city, and if you are willing to assist, write Brother Annis and he will give you complete information, necessary forms, et cetera.

Archis Scouts

The editorial policy of The Archi for the coming school year will be the same as in previous years, that is, the publication of the news of members of the fraternity, our general fraternity news, and not articles on architecture, working drawings or criteria, as the professional publications with their large list of prompt paying advertisers can cover that field more adequately than we can.

This summer we received a lengthy letter criticizing us for overlooking several outstanding publications. It had a publishing article regarding important work accomplished by some of our alumni. That type of news is exactly the sort for which we are always searching, but it is not easy to obtain unless we personally happen to come in contact with it. If every active and alumni chapter would appoint a good reliable scout for The Archi, who, when something worth while occurs within his circle of acquaintance, would pounce upon the news and either write it up in proper style or notify the Editor as to where and from whom such information could be obtained we would publish such same either signed or unsigned as is desired.

On second thought, why not let everyone be a deputy scout for The Archi, with a little voice say: good times; and a two-cent stamp? I believe we can improve The Archi reading material one hundred per cent. Are you with me?

Welcome, Pledge Brothers!

Fall—which reminds us that another school year is here, which in turn suggests that we now have some new pledge brothers to welcome to our mystic band. Brother Pledge, we are indeed proud that you have decided on our fraternity. You have selected a noble profession, and as we who have gone before think, selecting Alpha Rho Chi as your fraternity is a decision of which you will always be proud.

A good pledge brother makes a good active chapter member, a good active man a good alumnus, a good alumnus a good professional man. Ten years from now may you have a perfect score as a professional man.
THE ARCHI

CHAPTERS

EDITOR'S NOTE: Beginning with this current issue, we are inaugurating a different system of chapter letters. We want all chapters each month to submit reports on a common assigned subject. It has been suggested that this method be used as a means of getting every man interested in all chapter reports and not just his own chapter news. Besides this special report all chapter news should contain the current marriages, births, deaths, and other general news as heretofore.

RUSHING

ANTHEMIOSES

B. L. Pickens

Antehmio depends upon the registrar's office of the University for more than ninety-five per cent of the names of its prospective rushers. These are obtained late in the summer after the prospects have sent in their credits for permits to enter. The man in charge of rushing then divides these names (usually about 100) among the semester officials, and each prospect is either interviewed or written to. An attempt is made to place him in the society to which he is closest, and usually an invitation to the house is extended regardless of the possibility of his acceptance.

This system is only partially successful as it does not give us an opportunity to rush actively or complete with other social houses in preschoo1 rushing.

The remaining few names come from interested alumni who know some one intending to register in the Architectural Dept. at U. of I.

The Interfraternity Council distributes data cards to all its members to use them during the period officially designated as Rushing Week. The rules governing are listed on the back of each card. The rusher has a yellow card, and the fraternity keeps the corresponding white one.

The entertainment consists of having rushers for meals, sometimes music in club rooms afterward, perhaps tennis or golf if suitable, and invariably the theatre.

Of course there is lots of rushing after the official period, but it is slower and does not usually require any regulations.

Naturally, since our men are restricted by professional preference, our rushing is an entirely different problem than the national straight social groups. The greatest handicap we have is in preschoo1 rushing, by which many fraternities get most of their men even before they came to the campus. Apparently the only way we can be on an equal footing will be when the freshmen are required to live in dorms for one semester or a year before pledging. This is anticipated here in the next few years. I believe that Alpha Rho Chi would have much to gain under such a deferred system.

If any other Chapter has any suggestions as to how to get in touch with prospects in the Spring of the year before they enter in the Fall, we should welcome them.

Could the national organization do any propaganda work which could reach high schools, such as competition, exhibits, etc., for Chapter news, we have 22 men back and 7 pledges, with good prospects for more.

Anthemio feels proud of its representatatives in foreign scholarships in having besides former W. A. Pfieffer in Rome, (he has been back for a visit this summer with friends in New York and folks in Kansas City, Kansas), Chuck Sutton, this year's Rome Landscape fellow; and Bill Crane, the Illinois Plym winner who sailed early in September. Otis Winn, the winner of the Lake Forest European Scholarship, awarded this summer, is here visiting for a few days before leaving for New York.

Professor Rexford Newcomb, head of the History of Architecture Department at U. of I., is back from a seven months leave of absence during which he took a trip around the world, spending considerable time in the Orient. We are looking forward to his interesting visits at the house as well as the enriched lectures he will give in school.

Professor White of the University Landscape Department, is also back after a year's leave. He spent considerable time in the East and was one of the lecturers at the Lake Forest Foundation Summer School this year.

A late announcement comes to us of the marriage of our former soldier architect, Brother Eldon H. Buck, to Miss Margaret Thrasher, who was a Chi Omega at Illinois.

Many of our alumni will be glad also to hear that Brother Bill Simon is working for the Air Force and extends an invitation to K. C., Mo., where he is helping his father in the Kansas City Arch. Decorating Co.

DEMETRIOS

W. S. Gould

In spite of numerous efforts by various factions among the fraternities to introduce a plan of deferred rushing, Ohio State University remains an ardent follower of the first week rushing plan, with a certain degree of success.

The last of the attacks mentioned met with a decisive defeat in the Interfraternity Council during the Spring quarter just ended.

The preceding paragraph brings to mind a condition which, I believe, is peculiar to Ohio State University and a few others. Few of the rushing restrictions placed on fraternities at Ohio State Universities are introduced or enforced by the administration, this function being performed by the Interfraternity Council.

Since the adoption of the Freshman Week program, a series of lectures, tours, etc., one week before school opens in the Fall, a great portion of the rushing is under way during that week.

During the past few years the social fraternities have been more and more active among the architectural students, seemingly awakening to the fact that valuable material and often an artist may be found there.

This competition with socials has reached a stage of keen rivalry and at present we are very much a part of a "cut-throat" method of rushing which reaches its peak near the end of the first actual week of school, and pins may be placed on the desirable men any time following midnight of the first Saturday night after the opening of the school year.

Although an attempt is being made this year to have alumni submit names of prospective pledges, our main source of supply is through the Engineering College office by means of relations maintained there from year to year.

Names of men entering departments which will make them eligible for membership are obtained from this office each week and mailed to active members or pledges who can get in touch with them before they reach school.

We also attempt each year to place a man on the Freshman Week program as a Group Leader. This brings him in direct contact with about thirty men, and through pre-arranged exchanges with other leaders he can reach many others. In every case the object is to reach the man before he has been approached by other fraternities.
Entertainment of prospective men varies according to the individual. This is best taken care of by assigning our rushes to certain brothers. It is then their job to keep their respective charges busy and interested until pledged or discarded by the chapter.

Entertainment may consist of shows, dancing, card parties or dates with girls whom they are interested in. Some girls have been posted previously on the “dope.” Besides the above entertainment, Smokers are held at the house. Steak roasts and Cabin Parties help to fill up the week, which usually ends with a “bang” in the snappy house dance at the end of the week.

Whenever the opportunity presents itself, a desirable man is segregated from the group, and the history of the Fraternity, its purpose on the campus, and the history of the Fraternity are presented to him by several of the brothers. The bid is made and, barring accidents and unforeseen circumstances, a new pledge has been received by the chapter.

The only further restrictions pertain to men who have already been pledged to another organization on the campus and have for some reason dropped from the organization. Such men cannot accept further bids until three school months have elapsed from the date of dropping.

This week of rushing is a most vital and most interesting period in the year’s work insofar as the Fraternity is concerned, for it and on the men added during its program, both in numbers and in quality, the life of the Fraternity depends.

MNESICLES
Leonard A. Molkus

As this is being written, the thoughts of school are running through our minds. After classes begin, for those of us deeply interested in the welfare of the Fraternity, our thoughts turn first to the problem of rushing.

Mnesicles boasts of no particular sources through which the names of prospective candidates are obtained. At our last meeting in June, all active members were reminded to be on the lookout for men whom they knew were contemplating a trip or who happened to be in Columbus on the campus, and to urge them to attend the University of Minnesota.

Our men are asked to make a trip or two a week through the Freshmen drafting rooms to get acquainted with the newcomers and help them along with their work, answering any questions, and in the course of conversation inviting them to the house for lunch or dinner. These newcomers are made to feel at home, and at the first meeting their names are posted for one week for voting. During that week the rushing committee finds out the past history of the prospective members. At the following meeting, one week later, each rusher is discussed pro and con before being voted upon. He must receive the favorable vote of every man in the chapter.

Professional fraternities are fortunate in being able to pledge a man from the beginning of the fall quarter throughout the school year, while social fraternities must wait until the first week of the winter quarter before putting the coveted button on the coat lapel. There has been some agitation among the medical fraternity to delay rushing until after the first year, but nothing definite has been done.

About the second week after the start of the fall quarter, the Architectural Society of the Department sponsors a “Freshmen Reception” at which time all our men are present to become better acquainted with the yearlings.

About the middle of the quarter, we hold a smoker for the freshmen. Every active member sees to it that he invites a good likeable fellow over for that evening. The last few years we have been fortunate in having among our active members some talented entertainers. With their help, and with cards, apples, pop corn, and the smokers, we soon while away the evening. By the time the guests start making their excuses, we have a pretty good idea of the type of men they are. When we think we have an exceptional find, a show follows with a bit to eat is not an unusual means of entertainment.

We believe our chief advantage lies in the fact that we try to be ourselves rather than visibly overdoing things by “putting on the dog.” We feel the rusher appreciates this, for never once has a man, after being bid, failed to mention it.

ANDRONICUS—U. S. C.
Herbert B. Pratt

The way by which we secure our names for “rushing” is quite simple and yet satisfactory. Before school closes in the Spring, every man goes to the high school he came from, and through the high school department takes all prospective college students to a smoker. At this smoker we have one or two of our faculty members tell about our school and its activities. We generally have an exhibition in one room of the work our men have done during the past year.

Our University permits “rushing” in the summer, but of course not pledging until after school begins. We have one or two parties in the summer, such as a beach party or a theatre party, in order to keep touch with our rushers. When school starts we have them to lunch and also to several evening parties. I don’t think our methods are any different from the national socials.

NEW YORK ALUMNI
Arthur D. Pickett

There is not quite the decided response from the active organization that we think there should be in the matter of the coming exhibit, but we hope that the fall may bring on new interest. The sketch exhibit date has been set tentatively as the week of December 2nd. Please get in touch with Brother Gerlach as soon as possible and advise him to how much material you will have to submit.

Weekly luncheons 12:30 P. M. on Monday at Architectural League of New York, 115 East 40th St. Other business meetings and social affairs when occasion demands.

Officers: A. D. Pickett, A. A.; E. Milton MacMillen, A. A. A.; Charles R. Suter, A. A.

Dean Axline, Dem. ’23, is going to Atlanta, Ga., to teach.

Mr. C. Bonsall, Mnes. ’24, now working in New York for York & Sawyer.

Emil F. Backstrom, ’24, LeBrun Prize Winner 1921, is now in Europe.

Bullford Pickens, Worthy Architect at Illinois this year, spent a week here while traveling through New England on a summer scholarship.

Howard Gilman, Mnes. ’17, has moved to Cleveland.

Elving Johnson, Mnes. ’24, is now touring Europe.

Clarence D. Badgley, Dem. ’25, is back in New York after spending three years at the American Academy at Rome.

“Sig” Pfeiffer, Anth. ’25, last year’s Rome Prize winner, is here on a visit from Rome.

The New York Alumni chapter now has a membership close to 30.

A special luncheon was given “Chuck” Sutton on Sept. 9th before he sailed for Rome to begin his three years study at the American Academy.

COLUMBUS ALUMNI
The Columbus Alumni Chapter and Demetrios Alumnae Association hold luncheons every Thursday at 12:30 in the New Carliwes Hotel, 310 S. Fourth St., Columbus. If any brother happens to be in Columbus on Thursdays, he is invited to drop around and meet the boys.

Albrecht, ’22, still single and working for Boyajohn & Barr, Contractors.

Beem, ’29, worked for Ray Sims after his graduation in March, but left for California last July for a visit and work if possible.

Brand, ’18, is with the State Architect.

Carter, ’17, is Safety Engineer for the State of Ohio. Nick is also teaching Strength of Materials at the Y night school.

Cloud, ’17, is superintendent for Miller & Reeves.

Crapuch, ’26, is with Richards, McCarty & Bulford.

Dickerson, ’27, is draftsman for University Architect.

Eggert, ’23, is with Miller & Reeves.

Ely, ’17, is engineer for Ohio Farmers Insurance Company.

Jones, ’25, recently moved to Pittsburgh, where he is working for the Mc-
Rhines, Bellman

ten years,

Iktinos-Michigan

Roger Waring, '13, a charter member of the Michigan, sent a note along with his life subscription to the effect that St. Louis building operations were all tied up by sub-contractor strikes early last June.

Livingstone H. Elder, '26, of Billings, Mont., is designer for chamber C. Co-

hagen, '15. Elder writes, "The Rockies are only a few hours drive, but Billings itself is flat. The best place on earth for a summer vacation if anyone back east should be interested."

Lester F. Anderson, Ex. '13, sends a new address: 877 Harrington Road, Grose Pointe Park, Mich. Andy is a designer with Smith Hinchman & Gryel. He writes "that half the designing force are Alpha Rho Chi men presided over by the Master," Wirt Rolan, Honorary Iktinos, who is a Fraternity associate and outstanding friend of all men in the profession, therefore a great asset to opinions regarding Alpha Rho Chi as a Fraternity.

Raymond J. Whitney, Ex. '12, is City Manager of Royal Oak, Mich., where he has held this position since January, 1926. Whitney, together with Hunnt and Martin, were the first to conceive the need of an Architectural Fraternity at the University of Michigan. They chose five others and the first meetings in 1910 and 1911 were attended by these eight, one being a senior and seven being Juniors. The name Sigma Upsilon was first chosen.

Alfred R. Nasser, '23, is now in Wilkinsburg, Penna. Nasser is salesman for the Detroit Steel Products Co.

DEMETRIOS—OHIO STATE 

First of all we noticed pictures of two young ladies in our last Sunday morning newspaper who have been recently married to two of the brothers of Demetrios chapter.

William R. "Dick" King, '29, last year's Worthy Architect, and who is known to all of last year's convention members as "Spats," married Miss Betty Kent on Sept. 9th at Carey, Ohio. Miss Kent was a Phi Omega '13 pledge at Ohio State in 1924 and conducted a Studio of Dancing at Columbus. "Spats" is now working in Canton for J. Kerr Griffin, Architect.

Russell M. Krob, '23, winner of the McKinn Fellowship at Columbia University in 1926, married Miss Lillian E. Wood on Sept. 21st in New York at Broadway Presbyterian Church. Miss Wood is a violinist and a graduate of the Institute of Musical Arts. She was formerly of Columbus and has been in New York six years now.

Russell Dole, '27, is still with the Columbia Engineering and Management Corporation which is the engineering division of the Columbia Gas & Electric Corp. Dole sends in an address for John H. Lake, 607 9th Ave., Kennedy Heights, Cincinnati, O.

John D. East, '18, is statistician for the Federal Water Service Co. in Brooklyn, N. Y. He writes, "The above is one architect who has strayed from the fold to become statistician of the Public Utility Corporation. While only academically interested in architecture, he is still interested in the fraternity."

Newton F. Marvin, '25, is working with Mills, Rhines, Bellman & Nordhoff, Architects and Engineers in Toledo. Newt remarks, "I find my work interesting and do not regret that I have followed that line of work."

Good old Ben Renick, '23, the daddy and taskmaster to the 1919 pledges, is a Civil Engineer and Contractor at Steubenville, Ohio. Ben drove up from there one week this summer to look over the condition of the chapter house just because he is interested in the boys, the house and the fraternity. We need a lot more like "Duke."

Paul L. Wood, '23, sent in a newsy letter. He left for New Haven last fall and received an architectural degree from Yale this June. I understand he made a fine record there, but he did not mention that in his letter. Wood is now working for Voorhees, Gmelin & Walker in the Channing Bldg., New York, as job captian for a $4,000,000 home. On Oct. 1st the Woods are moving to Apt. B-2, House No. 6, 472 Gramatan Ave., Mt. Vernon, N. Y. Paul writes, "there are a number of the boys living out this way. They are Alpha Rho Chi men in Mt. Vernon, Backstrom brothers, Menes; Dumbolten, A n t h; Davidson, Minn.

Franklin Scott, Dem. '26, and his wife live up the line a few miles in White Plains. Bill Breidenbach & Sur will be about 5 miles from us on Broadway, and Art Pickett, Anth, will move into his new home in Hastings, just north of Yonkers, in December.

"During the summer I have gotten around to visit Lovejoy and his wife, Joe Black and his fran, Bill Williams and mate, Lidge and family. New York is a place to see folks.

"Black, Merkle and myself are only A P X men working in our office. Joe Black is one of the designers on my job. He is having a great time with some of the interiors. I have not heard any inside news of Columbus happenings in months. Send the news.

In a recent issue of the "American Architects" appeared an article and plates of the Doddington House, Columbus, which is a house built by the Doddington Mill Co. for the use of local architects and prospective home builders. Irvin B. Spencer, Ex. '22, had complete charge of this project for the Doddington Co., representing the owner, and Charles V. Cloud, '17, was the architect's superintendent on the same job.

Walter Taylor, Dem. '21, sent out an 8-page mimeographed letter last July from which the following extracts are quoted:

"One of my purposes in coming to New York has been to carry out an intention which I have had for ten years, to supplement my course in training in Architectural Engineering at Ohio State

The Editor's Mail Box

Anthemios—Illinois

Albert W. Wenthe, '23, is superintendent for the Fruehn-Colon Construction Co. in St. Louis, Mo.

Harford Field, Ex. '24, a registered architect in the State of Illinois, announces the birth of Harford, Junior, Jan 15, 1929. Field says also that he has gone into business for himself in partnership with Russell W. Jenkins. At present they have offices in Hinsdale, Ill., and are doing some high-class residential work.

Edward Larch, '17, is located in Rock Island, Ill., and is architect for the United Light & Power Co. of Davenport, Iowa.

Harold L. Parr, '21, notifies us his new address in Saginaw, Mich., is 309 Owen St.

Arthur P. Mueller, '30, member of last year's active chapter, expects to return to school this fall.

Lorenz Schmidt, '13, membre of the firm of Schmidt, Boucher & Overud, may be found on the eleventh floor of the Brown Building, Wichita, Kansas.
with advanced courses in the School of Architecture at Columbia University. This I have been able to do this year and expect to continue next year.

I came to New York the first of May, 1928, to accept a position in the office of Mr. Hobart Upjohn, Architect, nationally known for the many beautiful churches he has designed. It has been an inspiring and helpful experience to work with this man.

"Having been advised to do so by Mr. Jansen the architectural publisher in Cleveland, and by Professor Hudnut, I showed a number of my photographs of Chinese architectural examples to the editor of the American Architect, suggesting that I write a descriptive and explanatory article to accompany them in his publication. He seemed to be very glad to have such material, so during the year I managed to find time to write the article, which I entitled "An Architectural Pilgrimage in China," telling about the tombs of the Manchus Emperors, and to edit it down to the desired 2000 words. It finally appeared as the leading article of the June 5th issue.

"One thing which was not contemplated in the general program is the position in which I now find myself. The American (Northern) Baptist Church maintains a Department of Architecture, as do several other churches, which serves churches of that denomination anywhere in the country, excepting ten Southern States which are about to build or add to their present buildings. The Associate Architect of this department recently resigned and Bro. Prof. Hudnut, who was formerly associated with this organization was asked to help find a successor. He very kindly recommended me, and I have been, since the 27th of May, trying to adjust myself to the trades, practices, and duties of the office. The Executive Secretary is kept very busy meeting the public, etc., so I have the entire responsibility for design and in charge of the drafting room. Because of the wide geographical range of our work we do not act as operating architects. We study the situation and requirements, and produce 1/16 inch scale plans and perspectives which determine the scheme, arrangement, and style. When these are satisfactory to ourselves and the church committee a local architect is selected to carry out the project. As we are continually called upon to recommend architects to carry out these projects originating in our office, I should be very glad to hear from any brothers, practicing in the 38 States we cover, who have done church and Sunday School buildings, with illustrations of the work, so that I may put them on our approval list. Address Room 1016 at 23 E. 26th St. (Madison Square), New York.

"Last of all he adds that he has made tentative arrangements with the World Acquaintance Tours to escort a party of sixteen to Europe in the summer of 1931.

Mnesicles—Minnesota

We found an announcement in the mail of the marriage of William D. Gerlach, '26, to Miss Leora Adeline Schwieder on Saturday, June 15th, at Minneapolis. The Gerlachs now live in Mankato, Minn.

William J. Witherpoon, Ex. 26, and Mrs. Witherpoon, announce the birth of a baby girl, Marjorie, on May 23, 1929. The announcement card was rather unique, being a printed one, and giving Marjorie's weight as seven pounds and fifteen ounces. Witherpoon is a draftsman with Eberle & Co. at St. Paul, Minn.

Donald Campbell, Ex. 21, gives his address as The Hawthornes, Mt. Kisco, N. Y.

Donald A. Becknell, '17, is living at Perrysburg, Ohio, his business address being 1620 Nicholas Blvd., Toledo, O. Becknell is the son of Rev. Mr. and Mrs. Paul Becknell and is attending the University of Toledo, majoring in English.

Frank Moorman, '22, our circulation manager, writes, "I've been doing quite a lot of traveling this past summer. I visited St. Louis and Chicago about three times within that period and am going down there again next week. This past summer I have seen a number of old Mnesicles men, some of them being Larry Bakken, Wallace Bonsall, Paul Jones, Glen Lyons, Ralph Hammett, Aubrey Grisson, and have received letters from Lee Barton, Herman Frenzel, and Ed Hollandale. I see that the old Mnesicles men aren't prosperous at the present time, that they at least are in great hopes of soon attaining great riches. Most of them are either very happy or married.

"Mnesicles chapter is still holding its own. No great activities have taken place among the alumni or active chapter recently, excepting that in the old Mnesicles men aren't prosperous at the present time, that they at least are in great hopes of soon attaining great riches. Most of them are either very happy or married.

Kallikrates—Virginia

Paul C. Edmunds, Ex. '28, is a draftsman with Adams & Printiss, New York City.

Godwin W. Draper, Ex. '26, is also an architectural draftsman in New York. Draper's address in the last directory issue was changed by mistake, and his correct address is still 126 E. 38th St., New York City. He is working for Delano & Aldrich and sends word that three other Alpha Rho Chi men are in the same office, Messrs. Gregory, Kall, and Law, Kall. James H. Law, Jr., '25, lives with Edmunds and Draper at the address given above.

Paonios—K. S. A. C.

Lawrence A. Byers, '22, is designer and chief draftsman for Glen H. Thomas. He also sends Charles Alberding's address as 1425 N. Waco Ave., Wichita, Kan.

Emmett E. Kraybill, '22, is an architectural draftsman in Evanston, Ill. He may be addressed at 201 Ehmwood Ave.

Dinocrates—Texas

Chester C. Wright, '22, gives a permanent address to which mail for him may always be sent as 401 E. California St., El Paso, Texas. Wright is a building superintendent with R. E. McKee, General Contractors, El Paso, Texas.

Andronicus—So, California

Carl W. Denny, '29, according to his data sheet received here in June, gives his address as the Chapter house. Roswell T. Alleson, '26, and Mrs. Alleson announced the birth of Robert Arthur on June 24th. Alleson is a clay products salesman selling roofing tile for Gladding McBean & Co. in San Francisco, Oakland, Berkeley and hay district. He writes, "Am living at 2600 Harold St., Oakland. Have been living up here now for about a year and a half. I miss the Andronicus chapter associations up here but hope to move back to Los Angeles some day. Enjoy reading the news of the old gang in The Archi."

George A. Miller, '32, a member of the active chapter, sends in his new address as 985 S. Oxford, Los Angeles. Vernon A. Heckart, Ex. '31, has one son, Charles Lawrence, born Sept. 12, 1928.

Polyklitos—Carnegie

Frederick C. Boldry, '26, married Miss Elizabeth Stuart, of Scranton, Pa., June 30, 1928. Miss Stuart is a graduate of Strongsburg Normal School. Boldry writes, "Graduated from Carnegie in June 26. Traveling in Europe with Brother Stuart for six weeks. Returning to New York office of V. A. Reganett. Passed Pennsylvania Board Examinations, becoming registered architect, June, 1928. Married. Honeymoon in Bermuda. Now working in Newark, N. J."" Jared E. Tillotson, '25, is an architectural designer. The Tillotsons have one son, Jared Junior, born May 30, 1928. Arthur H. Bissell, '29, received a first mention place in the annual competition last year in the Beaux Arts Inst. of Design, New York. He writes, "I took the certificate given in Architecture last June, and am now working for my degree in Architecture which I will receive next year. I am working this summer, as I did last, for the National Fireproofing Co. in Pittsburg as an estimator and draftsman. I expect to compete in the Fontainebleau and Stewartson scholarships next winter as I did this past school year. I also expect to enter the first preliminary of the Paris Prize next year."

Exchange

Horace W. Tonsley, who has been editor of The Archi of Alpha Rho Chi from 1923 to 1929, has recently resigned his position. The June 1 issue of that publication has rightly been dedicated as an appreciation of that editor's efforts, Elroy Johnson (23E.), and Mr. Tonsley, The Minnesota Alumni Weekly, July, 1929.

*New briefs brought to light an interesting friendship which does not often exist between fraternity and private family neighbors, the neighbors often looking upon the new Greek arrivals somewhat as a nuisance. When Alpha Rho Chi moved into their new home in 1919, their next-door neighbor was Judge Ivor Hughes. Friendship between the judge and the chapter grew and in 1927 the national council passed on the petition of the architecture group to initiate Mr. Hughes. His death a few weeks ago brought to an end a very beautiful friendship between an 80-year-old man and college men many, many years his junior.—Ohio State Alumni Monthly.

Exchange

Death of an outstanding Columbus man has brought to light an interesting friendship which does not often exist between fraternity and private family neighbors, the neighbors often looking upon the new Greek arrivals somewhat as a nuisance. When Alpha Rho Chi moved into their new home in 1919, their next-door neighbor was Judge Ivor Hughes. Friendship between the judge and the chapter grew and in 1927 the national council passed on the petition of the architecture group to initiate Mr. Hughes. His death a few weeks ago brought to an end a very beautiful friendship between an 80-year-old man and college men many, many years his junior.—Ohio State Alumni Monthly.
**ALPHA RHO CHI**

**QUARTETTE**

**WORDS BY PROF. HERBERT R. CROSS.**

1. Alpha Rho Chi, to thee, Our dear fraternity,
   Sweet songs of loyalty Gladly we raise,
   As in our mystic band, Hand grasping brother's hand
   Heart unto heart we stand, Thy name we praise.

2. What tho' each one a lone Helpless and weak be shown,
   As in the arch each stone Useless a part;
   Yet with his fellows met And in the fair curve set
   Each mighty aid shall get, Each strength impart.

3. Alpha Rho Chi, all hail! Thine arch shall never fail,
   However the world assail It's fabric high;
   Founded on pillars strong, No force shall do thee wrong
   Sound shalt thou stand and long, Alpha Rho Chi.
