UNIQUE COMPETITION WINNER

Fred J. Abendroth, Dem. '26, was recently announced the winner of first prize for "The Home in the Sky" competition held in Cleveland under the auspices of the Cleveland Chapter of American Institute of Architects, Better Homes Association and the Builders Exchange. There were about 2500 entries in this state-wide competition for this unique house. Abendroth's design is now being built on the top floor of the new Builders Exchange as the central feature of the building's art exhibition.

The space occupied by this house is about thirty by forty foot floor area and is about thirty-five feet high. To accommodate it an open court has been constructed from the seventeenth floor to the top of the building, with a gallery around it. The home will be completely furnished.

In 1928 Abendroth won second prize in a Clay League competition in Cleveland, and last July he won a regional prize in the National Home Owners' Institute, Inc.

Chandler C. Cohagen, Iktinos.

Sigma Upsilon Delegate to Nationalization Conference, Past Grand Council Member, Author of Fraternity Formal Ritual. Practicing Architect in Billings, Montana.

ALPHA RHO CHI MEDAL

At the convention of Alpha Rho Chi held this year at the University of Illinois, it was voted to establish a medal award called the Alpha Rho Chi medal. This medal is to be offered annually to all recognized schools of architecture in the United States of which there are approximately forty, for award in each school to a graduating student chosen by the faculty. The basis of the award is to be leadership, service to his department and school, and professional promise. In offering this medal, the fraternity desires to embody in it some of the ideals of Alpha Rho Chi in such a way that it will become recognized as one of the most respected and coveted honors offered to graduating architectural students. The idea of such an award has been endorsed thoroughly by many professors in schools of architecture.

The medal itself will be bronze, the design being especially executed by Mr. Merrell Gage, the well known sculptor. The medal will be cast direct from his model.

society was recognized by the faculty. During the time of organization, meetings were held in the Y. M. C. A. at the University. The society secured a house the first summer of 1914. Arcus was limited to its membership to sophomores, juniors, and seniors.

Brother W. M. Wadsworth, of the Arcus Society, was delegated to write to various universities throughout the country and inquire about other architectural societies wishing to go together in forming a national fraternity. Letters were sent to Harvard, Washington University, Georgia School of Technology, Cornell University, University of Pennsylvania, University of California and the University of Michigan. The result was the beginning of correspondence between Brother C. C. Cohagen, of Sigma Upsilon at Michigan, and Brother Leo M. Bauer, of Arcus at Illinois.

Faculty members of Arcus were Dr. N. C. Ricker, L. H. Provine, and A. H. Kimball.

In February, 1914, correspondence with L'Ogwe and Gargoyles at Cornell for a time showed considerable promise, and Cleveland, Ohio, was selected originally as a meeting place for the first conference, when it was expected that three local societies (Michigan, Illinois and Cornell) would form the nucleus for the first architectural fraternity. Greeley of Cornell reported in late March that they would be unable to send a delegate to the conference, and the meeting place was changed to Chicago.

April Eleventh.

The conference was called for April 10-14, 1914, at the Hotel Sherman, Chicago. Mr. Chandler C. Cohagen, of Sigma Upsilon, and Mr. Leo M. Bauer, of Arcus Society, were delegated to this meeting. A name for the new fraternity was first discussed. Names of secular nature were presented by the delegates, and, only one of Greek origin was offered by the Illinois delegate, the name being, "Alpha Rho Chi," an admirable selection by Dr. Nathan Clifford Ricker, of the faculty of the University of Illinois.

Division of Duties.

The constitution, by-laws, emblems, and other insignia of both societies were totally disregarded, and only those retained that might be sufficiently suitable and pleasing for the new fraternity. The Arcus Society was allowed to draft the national constitution and by-laws. The Sigma Upsilon Society was the local chapter constitution and by-laws: the Arcus Society the official badge, the Sigma Upsilon Society the coat of arms. It proved, however, that the Arcus Society revised the Sigma Upsilon design for the coat of arms, which was adopted afterward by the first Grand Council in session at Ann Arbor, Mich., in mid-November, 1914. The colors, maroon and

nary blue, formerly of the Arcus Society, were retained by the new fraternity (Sigma Upsilon colors being blue and gold). The motto, "Fidelitas, Amor et Artes," resulted from a combination of the mottos of the two societies. The Arcus Society was directed to draft the charter forms, and Sigma Upsilon the certificate of membership. The Sigma Upsilon flower was adopted as the fraternity flower.

First Grand Council.

The delegates to the Chicago Conference empowered the societies which they represented to choose the officers of the Grand Council for the ensuing year. Arcus Society was given the elective power of the Worthy Grand Architect, L. Bauer was W. G. A. selected, and Professor A. H. Kimball selected as first Grand Lecturer.

The Sigma Upsilon Society was given the elective power of Worthy Grand Scribe, a position being selected, and the Worthy Grand Estimator, G. M. McConkey being chosen. The Sigma Upsilon Society is given credit for the drafting of the formal ritual, C. C. Cohagen as chairman of that committee being given credit as the author. The chapter names were selected by the two organized chapters from a list of names of prominent master architects, the list having representatives at each institution. The Illinois chapter chose the name Anthemios and the Michigan chapter Ikhnos. It was the original intent to use the Greek spelling of all architect names selected for future chapters. Both Anthemios and Ikhnos chapters were incorporated according to their respective state laws.

The original National Articles of Association were lost in the mails and new articles were issued. L. M. Bauer, C. C. Cohagen, A. H. Kimball, G. W. McConkey, A. E. Benson, and C. W. Ditchey were named incorporators on the latter document.

Installation.

The Anthemios chapter was formally installed May 22, 1914, and the Ikhnos chapter June 5, 1914. The original intent was to announce and install the two chapters simultaneously, but exigent conditions at Illinois made it necessary to make public announcement and incorporate a week before originally planned.

L. M. Bauer was president of Arcus and H. J. Trum was president of Sigma Upsilon at the time of installation.

Clair W. Ditchey of Ikhnos followed Brother Trum, and Arthur E. Benson ruled Anthemios after Brother Bauer had completed his term of office.

To Brother Bauer and Cohagen the fraternity awards the title of "Founders," a small reward, we believe, to these two men who so freely gave their time and energy in the early days of the Alpha Rho Chi Fraternity.

To Dr. Ricker and Professor A. H. Kimball of Illinois we are indebted for many things concerning the organization and development of Alpha Rho Chi.

To Professor Herbert R. Cross we are indebted for our official fraternity song. To C. C. Cohagen and G. M. McConkey we are indebted for much of our ritual, and to Brother Bauer for the designs of the pin and arms we are too many times indebted.

Environs Note: For the above information and other material in this issue we are indebted to the following: Original correspondence and sketches by courtesy of J. R. Routh, Anthemios chapter; original minute book of Sigma Upsilon by J. C. Crissman, Ikhnos chapter. First Convention reports and Volume I. of Architect through courtesy of W. S. Gould, Demetrius chapter.

A P X MEDAL
(Continued From Page One)

The medal is being financed by the various active and alumni chapters who are taking voluntary subscriptions from their members. Mr. Verle L. Annis, W. G. S., and the Los Angeles alumni chapter have charge of this campaign.

It may be impossible to arrange for distribution of the medal to all schools of architecture this year, but it can be awarded in all those schools having active chapters of Alpha Rho Chi if the required amount of money is pledged.

EDITOR’S MAIL BOX

Iktinos—Michigan.

Malcolm G. Simons, '14, Alumni Architect of the Texas chapter, plans to collect all the San Antonio boys and journey to Austin for the annual Founders Day Banquet April 11th.

In a recent number of the Michigan Society of Architects Bulletin we find the following comment on two Iktinos men: “Clair Ditckey, who can lecture on a film so many can understand it.” “Emil Lorch, a professor with the presence of mind.”

Samuel L. Holmes, '15, writes that “nothing unusual here in Detroit, except we are trying to collect some cash to buy some dining room chairs for the house at Ann Arbor.”

Carl C. F. Kressbach, '25, is now located in Jackson, Mich., in the office of Stevens and Wood, Architects. Jan. 4, 1929, Brother Kressbach was married to Miss Lucille Browning of Detroit. Brother Harry B. Tour, Anth., is also working in the same office with Kressbach.

Paeonios—K. S. A. C.

Harold A. Barr, formerly of the faculty, reports that he is not missing as stated in last Archi but is still in Port Arthur, Texas, and has been with the Texas Company the last few years. The History Questions and Songs appeal to him immensely and he suggests the immediate publication of a Pledge Manual. Barr writes, “Any time anyone is down this far South be sure and look me up and please don’t let Uncle Sam’s mail carriers or anyone else make you think I am lost because I am not. The mail man sees that the little Income Tax notice comes very promptly to my door. There’s something in that for him.”

Demetrios—Ohio State

Tao Sigma Delta, national honorary fraternity in architecture and allied arts, elected Professor W. C. Roman Grand Chapter Scribe at Grand Chapter meeting held in Detroit last December.

Marion F. Ross, '23, was married Feb. 14, 1930, to Miss Thelma Erna Derrer of Columbus.

Anthemios—Illinois.

John R. Tanner, '15, a charter member of the Anthemios chapter, after demobilization in France, entered the Ecole des Beaux Arts in Paris (1919). Brother Tanner was the victim of a serious illness which necessitated five years of treatment in Switzerland (operation and sun baths, et cetera), all due to the unfortunate results of appendicitis operation. In 1929 Tanner finished at the school and received his diploma, and for the last year has been practicing in Paris. Brother Tanner was married on Aug. 9, 1927, to Miss Julia Jottay of France.

Pencil Points.

The February and March issues of Pencil Points published items of interest to members of Alpha Rho Chi. The March issue has a full-page cut of the Illinois convention picture.

EXHIBITION ON DISPLAY AT

CHICAGO ARCHITECTS

CLUB APRIL 6 to 20.

The Alpha Rho Chi Traveling Exhibition, recently hung in New York, will be displayed at the Chicago Architects Club, 1801 Prairie Avenue, for two weeks commencing April 6th, 1930. The Chicago Alumni Association invites all members and friends to attend and inspect this fine exhibition.

The following Committee Chairmen have been appointed: R. W. Hammett, General; P. E. Wicklund, Exhibition Hanging; G. L. Lindeberg, Publicity; S. L. Tesone, Entertainment.
**OFFICIAL FRATERNITY SONG**

Reproduction of original letter (8½“x11”) submitted to the Grand Council in November, 1914, at Ann Arbor by the Song Committee. The Grand Council Officially adopted the song above, which was written by Professor Herbert R. Gross, of the Department of Fine Arts, University of Michigan.

**ALPHA RHO CHI HISTORY**

**QUESTIONS**

Correction to Question 10 published in the February issue of The Archi. The answer to this question was inadvertently published incorrectly.

10. Who were the authors of the major part of the Ritual?
The authors of the major part of the ritual were Chandler C. Cohagen, Chairman of the Committee; David H. Williams, and George M. McCorky, all members of the Iktinos chapter.

11. Where and when was the third chapter of Alpha Rho Chi placed, and what was the name of the local chapter?
Demetrios chapter at Ohio State University was the third chapter, the charter being granted Feb. 25, 1916. The local chapter previous to national affiliation was Tau Epsilon Chi. A previous charter granted to T E Chi April 16, 1915, was not recognized by the Fraternity Faculty Board at Ohio State University due to irregular procedure in securing permission.

12. Is the Grand Lecturer a member of the Grand Council? How is he selected? Who is the present Grand Lecturer?
The Grand Lecturer is a national officer but not a member of the Grand Council. He is appointed by the Worthy Grand Architect to serve for one year. Brother A. S. Phillips, Anth. 23, is the present Grand Lecturer. He is located in New York.

13. Has the expansion of the Fraternity taken place as originally conceived by the Founders?
We believe not. The original movement toward nationalization was initiated by Illinois and Michigan, but all leading architectural schools in the country having local societies were invited to join and it was the intent to found and install all societies at the same time in 1914. At least ten schools were invited to join in this nationalization movement sixteen years ago. Today we have only a total of ten chapters.

14. When was annual chapter inspection inaugurated, and how are expenses met for this service?
The annual chapter inspection was authorized at the Fourteenth Convention at Los Angeles. The first inspection was inaugurated at the Fall of 1929. The expense for the first inspection was paid from current Grand Council Funds, as no special provision was made at the convention to defray expenses incurred for this purpose.

15. Does Alpha Rho Chi have alumni dues?
No. Alpha Rho Chi does not have national alumni dues. Many individual alumni chapters assess their individual members small sums annually to defray expenses, but the incorporated alumni chapters do not pay dues either individually or as a chapter to the national organization.

**EXHIBITION AT TEXAS**

Jack Atchley

The Alpha Rho Chi Traveling Exhibit was a huge success during the time it was in Austin. The chapter received much praise and publicity from the Austin papers and from our won campus daily paper. The Exhibit was first displayed in B. Hall, where it was studied for a week by the students of Architecture. Later it was moved to the chapter house. Open house was held Sunday, February 23, from 2 until 9 o'clock. About two hundred and fifty visitors were entertained and all were very much pleased with the drawings. The exhibit is truly a fine thing for the A P X chapters and one of the best ever shown here.

**TEXAS ROUND-UP**

April 11, 12 and 13, 1930, has been set as the time for the reunion of all students, ex-students, faculty members and graduates at the University of Texas. The Round-Up promises many things of interest to all returning alumni, the formal opening of the Union Auditorium-Gymnasium, speeches by University president, prominent faculty members and the Governor of Texas, Year Book beauty selection, Engineers Power Show, pageants, basketball, Triangular Track Meet, baseball, band, glee clubs, music and dances. In general three days of continuous pleasure for those who are wishing for a good chance to take a spring vacation and mingle once more on the campus of their undergraduate days.

A STATEMENT BY THE GRAND COUNCIL

The attention of every member is urged to the following statement:

I Grand Council Income.
Annual chapter dues—$10 @ $300 $300
Profit from initiates membership certificates—$90 @ .75 $67.50
For G. C. general use $600
II Grand Council Expenditures.
Salaries—$50 @ $150 $75
Annual chapter inspections 175
General expenses, including mimeo., printing, travel, telegrams, etc. 300
Possible net annual surplus $35
III Projects.
The following projects are being delayed by lack of funds.
1. Scholarship medals. (Initial cost $300-400) This is the proposed medal for distribution in all architectural schools as a group. It is given by the Alpha Rho Chi Fraternity to honor men who have achieved a high degree of scholarship.
2. Faced with a monthly deficit of $72.50, the Grand Council is forced to forego the publication of the Alumni Newsletter.
3. Increases in Grand Council Salaries. Members of the Grand Council are averaging from four to ten hours per week at Fraternity work throughout the year, not including time spent at Conventions and Fraternity and inter-fraternity conferences; they furnish, furthermore, their own office and filing space, typewriters, etc. It seems evident that Grand Council members should receive a larger compensation if the existing structure of efficiency is to be maintained.

IV Remedies.
The Grand Council does not recommend an increase in active chapter dues nor the inauguration of a system of alumni dues although both of these suggestions would be in line with the policy of many fraternities.

The Grand Council does recommend greater activity by the Fraternity toward expansion. Fifteen chapters could be operated as easily and efficiently under the present national organization as ten, but with 50% more income.

There seems little hope for expansion however if we permit the enthusiastic missionary attitude of our founders and early members to be exchanged for one of smug and complacent disinterest.

A further weakness to be noted is the fact that the Council is forced to use every available dollar for Archi operation. Thus The Archi now receives not only interest from the endowment fund but interest from all G. C. funds as well.

The Grand Council recommends the following for consideration by our members:

We are planning to again send a copy of The Archi to all members in the hope that we may be able to impress non-subscribing members with the idea that their failure to support has consequences more far-reaching than the personal one of non-delivery of the magazine. With this effort toward reaching our non-subscribers we are closing our campaign for subscriptions.

We trust that through this statement we have enabled our members to more clearly see the problems which are facing the Fraternity.

The chapter is making plans for the traditional Founders Day Program.

Brother Carlson, our new Associate Worthy Architect, dropped out of school for this semester and Brother Keck was elected to the vacancy. Brother Waldo (Jehu Wakefield) Winter was elected to fill the office of Worthy Clerk which was vacated by Brother Keck.

This week end saw Tommy Clinton and Bob Maddrey back again in Champain and Raring to go.

John English '28, who is in the State Architect's office in Springfield, dropped in with Glen Yockey '28 who is working for Herman Nitsch Corp. of Moline, Ill., with headquarters in Memphis, Tenn. Bill Fraser, '25 of Davis Junction, III., dropped in the other day for a short visit.

Bob Mitchel '28 is back in the house now. Bob has accepted a position in the landscape architecture school as a professor of something or other.

The boys in the house are looking forward to April 4th for the Fine Arts dance. Alpha Rho Chi along with Scarab, Gargoyle and other fine arts organizations is sponsoring the dance.

Plynn Prize Winner:

Emory (Popgun) Searcy '28, Anthemos Champion poker player, has been offered the Plynn Prize of $500 for six months study in Europe.

We have heard from Bill Crane '28 who at the time was stranded and penniless in Florence and waiting for the next installment of his prize money before he can continue.

AMOR

by The Old Timer

Amor is what makes strong men give away their fraternity pins but for the purpose of this discussion it can be limited to the masculine gender.

The O. T. has heard it said that Amor or brotherly love isn’t what it used to be in the fraternity, what with the increase in chapter membership and the distractions of University life.

He hopes this is not true because in his case his most lasting friendships originated in the Fraternity and he hopes that the remaining members will be equally fortunate.

Amor, in his opinion, is what distinguishes a fraternity from a club or society. The close friendship and mutual experiences of fraternity life seem to us to be worth all the effort and money that the fraternity may have.

The Old Timer hopes that the traditional fellowship or Amor of our Fraternity is still being maintained wherever Alpha Rho Chi men are found.

Oris Winn '28 is hitting the high and low spots of Europe in a Ford and gossip has it that he is spending much time and cash entertaining Senoritas, etc.

Brother Mac Wallingford has been in the hospital entertaining the nurses. He is back with us now, however.

Bros. Pickens and Routh attended the Pan-Hel Ball. Sorority connections secured Brother Schaffer a bid also.

Brothers Genschelitz and Schuefer played soldier for an evening by attending the Military Ball.

The Freshmen have given the house a loud speaker which has been installed in the dining room and connected to the radio unants.

Brother Purdy rated ½ mention on the A. I. C. Steel Bridge competition and Brother Harmon received ½ mention on the 22nd Paris Prize Preliminaries.

Annual J-Hop.

Iktinos held its annual J-Hop House-party during the week-end of February 14, 15, and 16. A good majority of the chapter members were in attendance, plus several of the more recent alumni from Detroit. Everyone purports to have had a very good time. The house had as its guests and chaperones Mr. and Mrs. Frank Andrus, 23, and Mr. and Mrs. Frederick Aldrich of the faculty.

Our semi-annual initiation will begin on March 9 and end Friday evening, March 14. The initiation banquet will be held Saturday evening at the chapter house as a formal welcoming of our new members.

This semester brings three old members back into our active list: namely, "Bus" Cummings, of oratorical fame, who has returned from service in Detroit; Stan Podd from Buffalo; and Barney Campbell, formerly of New Castle, Pennsylvania, and Yale of Rochester, New York. Also as new tenants we welcome Scotty Seaton, from Belfast, County Down, Ireland, and more recently from Bannochbairn, Scotland, who apparently claims no preference; Robley Saunders, formerly of the University of Pennsylvania; and Wilson Collins, from Keokuk, Iowa.

Annual Formal

Demetrios held its annual formal February 15th at the Deshler-Wallick Hotel. From the cocktail of the dinner to "Home Sweet Home" of the orchestra the party was one grand success. The alumni was well represented in Dick Gisomine who came from Toledo to attend the affair, Howard LeFevre, Dick King, and Marion Ross. Brothers Ross and King were quite charming. They probably were comparing notes for the left behind and drinking malt tonic. It is rumored that on complete recuperation Keener is going to Cincinnati as the official tester of some brewer there.

Demetrios has stepped into another realm and returned victorious. This time it's intramural athletics. During the past quarter the boys won four games and lost none in their basketball division; thereby winning the second place since the start of the school year. If the pace continues, we know it will, we will have to reinstate the mantel or, worse, move out to make room for the trophies.

Beaux Arts Ball

J. J. Matter

Everyone in the chapter is working hard on our annual Beaux Arts Ball which will be given from midnight to dawn on Friday, March 28. The executive committee is composed of Brothers Hunt, Ladewig, and Arbogast. The theme chosen for this year is: "A Night Club in 1960." This futuristic theme seems to add greatly to the interest of everyone, so much desired. The costumes to be worn seem rather vague and indefinite, but any costumes would be overshadowed by the brilliant and unique effects we hope to achieve.

Our initiation was held Thursday, January 30. The newly initiated Brothers are William T. Munford, James E. Shoemaker, William L. Webb, and William J. Bowen. It might be added that we claim to hold the record on the number of "Bills" in any chapter; there are at present six of them in this chapter. We had planned to hold our initiation banquet on the following Friday, but the severest snow storm seen for many years made it impracticable to have it at this time. Several alumni and visitors are inspecting offices. Brother L. H. Christ, who was going to drive up from Richmond, but the snow made that impossible.

Increased Department Facilities

The facilities of the Department have been greatly increased during the past year: an enlarged drafting room, new studios for charcoal and watercolors, and an excellent library. Our only handicap now is that the Department is still included in the College, but next year we hope to be classed as an entirely separate school. Our laboratory is the possessor of a new electric phonograph which helps everyone keep up during "charrettes."

During the past month we were to welcome back several of our alumni for a few days' visit. Among them were Paul Ed. '27, Lucien Dent '29 and Chris Heritage, ex '29. Chris has been doing Class A Projects at George Washington University this winter and hopes to get his degree this June. We are always glad to have these old men drop in to see us while they are in town, and now we extend a special invitation to all our alumni and the whole fraternity to come to the University for the Beaux Arts Ball.

PAEONIOS

Clarence A. Rinard Charter granted Feb. 9, 1923.

Beaux Art Problems.

This year the Architecture department at Kansas State has entered the B. A. L. D. and has started on its way to a good position among the other colleges in the New York school. I am proud to say that the A P X men have the edge in points brought in so far.

We have a new house mother this semester. It was hard to see Mother Hughes leave after being with us since the founding of our chapter. Mother Wingfield promises well to be an excellent successor.

Informal Sunday evening bridge parties have become quite the thing at Paconios. Those seeming to have the best time are the pledges who are just learning to play. They get quite a kick out of bringing in some poor little sorority pledge and helping her master the intricacies of the game with themselves. These little affairs together with our Tuesday evening open houses for sororities help to break the humdrum of the daily grind.

Our Annual Spring Bow-Tie Brawl has turned into a formal this year. That's quite a leap from the rowdy Night Club brawl we had last year. Two other big dances on the hill this Spring involve A P X. Bob Lockard, one of our pledges, is chairman of decorations for the Engineers' St. Pats Prom to be held March 22, and ye "Archi" correspondent himself has a similar position for the Architects' Beaux Arts Hall. Both of these dances are outstanding in this year's parties at Kansas State, even outshining the Ags' Barnwarming.

Several weeks ago we took it upon ourselves to construct a new chapter room in the basement. Accordingly, Saturday was declared "labor day" and everybody worked. When the actives were through in the basement, the pledges began to make the upstairs look as if a Kansas dust storm had struck it.

DINOCRATES

Jack Atchley

Dinocrates Chapter was founded April 2, 1924. A list of the charter members follows:

Carl R. Olson, '28, is now supervising engineer on the construction of a new library at Alpine, Texas. Carl is with the McKee Construction Company, of El Paso, Texas, and has been "getting over in a big way."

Our Founders Day Program comes at the same time as the Famous Texas Round-Up, a get-together of Texas Alumni. Our chapter house will be open April 11, 12, and 13 to welcome Alumni, Dads and Mothers. Dinocrates hope again to take the loving cup for the best designed house decorations.

POLYKLITOS

Edward H. Riedmayer

Polyklitos Chapter of Alpha Rho Chi was founded in May, 1924. The Charter members are:

EDITOR'S NOTE: A late letter from Brother Riedmayer states that the Polyklitos chapter has just pledged nine men, the majority being sophomores and freshmen. This is indeed promising news inasmuch as the Carnegie chapter has been inactive during the last five years. At the last Convention their delegate was denied power of official vote due to their status with Grand Council last January.

AN ARCHI TOAST

MELODY IN SECOND TENOR

Here's a toast to Alpha Rho Chi, Our fraternitiy.

Ours are hearts which fondly love thee Bound by loyalty.

Hail to the colors! Red and blue, Hail to Fidelity!

With the cup of friendship lifted Here's a health to thee.
