ANTHEMIOS JUBILEE CONVENTION HOST

The Fifteenth Annual Convention of Alpha Rho Chi Fraternity held at the University of Illinois on Dec. 30 and 31, 1929, proved to be a most delightful and beneficial gathering for the eight active chapters and three alumni delegates. The Grand Council representative, active delegates and alumni were guests of our co-mother chapter, Anthemiou, in their fine new seventy-five thousand dollar chapter home.

The first session was called to order the morning of Dec. 30 by the Grand Council delegate, Brother Ely. All delegates responded to roll call.

Brother Robert B. Mitchell, Anth. '28, was elected President of the Convention, and Brother J. Burson Rout Jr., Anth. '30, was elected Secretary of the Convention.

Reports.
The report of the Grand Council was presented to the Convention by the Grand Council delegate. This report is printed in full elsewhere in this issue. The report of The Archi Staff followed.

Part of the report follows.

"Few brothers realize the time and effort expended by your past editor, Brother Horace Tousley, in establishing permanent and usable Archi records, such as we received from him last winter. Brother Tousley rendered a great service to his Fraternity, which should feel grateful for what this pioneer did."

Reports from all the chapters were read and filled with the Convention President.

The report of the Alpha Rho Chi Exhibit was next submitted to the Convention. This report is presented elsewhere in this issue.

Unfinished business from the last Convention was next considered.

Medals Approved.
Brother Ely reported that sister pins are now available from Burr-Peterson & Auld Co. These pins are exact reproductions of the fraternity badge only reduced about half size.

Brother Ely reported that progress is being made by Brother Baker (Androni­cus) and Parr (W. G. E.) on the standard­ized bookkeeping system and that this system will probably be available to chapters wishing to take advantage of this service by June 1, 1930. The in­centive is to make it optional for chapters to use this standardized bookkeeping service. Many chapters now have their books audited every month by professional or university auditors and no doubt will continue as long as that particular method is satisfactory.

The Convention voted to authorize Brother Anis (W. G. S.) to have a design made at his discretion for a proposed medal and to expend not to exceed $800 for this purpose. This medal as proposed at the last Convention is to be furnished in the name of the Fraternity to all schools of architecture, and is to be awarded for excellence in support of the department of architecture.

Brother Ely reports that progress is being made toward the future publication of a fraternity song book. The Archi has been and will continue to publish songs until a sufficient number of them are received to make it possible to publish a leather-bound book of Alpha Rho Chi Songs.

The Anthemiou and Iktinos delegates reported progress has been made on a fraternity history, and that this material will be ready for publication in the April issue of The Archi.

Arms Revision.
Brother Ronan, Dem., submitted a report on the design of the insignia of our fraternity. In the discussion which followed, it was brought out that the winged lions, which are symbolical of strength and swiftness, complicate the design, that they are placed back to back, and should be omitted. Heraldically they are supporters, and supporters are normally used only in coats of arms of persons of high rank.

The Convention moved that the Grand Council appoint a committee to draw or have drawn one or more revised designs for the Fraternity arms; that these designs be sent to the chapters for inspection at least two months before the sixteenth convention; that a heraldic and esoteric description of the design accompany them; all in order that delegates may

(Continued on Page Two)

FANNING SAILS FOR EGYPT

Ralph S. Fanning, Anth, professor of fine arts at Ohio State University, sailed for a nine months trip to Egypt, Palestine and Italy last month. He will accompany Dr. H. H. Powers, former president of the Bureau of University Travel, author and frequent contributor to the Atlantic Monthly. Brother Fanning will illustrate Dr. Powers' writings.
NEW RUSHING RULES AT TEXAS

The Digerocrates Chapter of the University of Texas will be governed by a new set of rushing rules that go into effect February 20, 1930, the date set as the beginning of the three-day rush period this year.

The rules accepted as final state that all fraternities shall give the Dean a list of rushees two days after receiving list of eligibles. The Dean will send rushees letters informing them of the fraternities wanting dates with them. The rushees must accept dates with at least two fraternities and not more than ten, if more than one asks for dates. An impartial committee shall be appointed by the Dean, to appointment by lot the dates among fraternities requesting and receiving them. The Dean shall send fraternities cards showing all dates with rushees as soon as possible, and also giving names of other fraternities having dates with the rushee. The fraternities and rushees will have duplicate cards. At the end of rush week the fraternities shall turn in a list of the rushees whom they desire to pledge. The Dean shall send to each rushee a list of fraternities wishing to bid him. The card will be signed by the rushee immediately upon delivery. A messenger sent from the Dean’s office shall deliver and return the list. The rushee goes to the selected fraternity house at seven o’clock.

QUARTET ARRANGEMENT

Quartette arrangements for “The Rose of Alpha Rho Chi,” song published in the December Arch, are now available upon application to the Editorial Manager.

CONVENTION HOST

(Continued From Page One)

be prepared to take definite action on these designs at the sixteenth convention.

Under New Business open meeting was declared for discussion of methods used in pledge classes.

The discussion of expansion which followed indicated that a majority of the chapters are satisfied with the number we now have and do not favor any further expansion. The Grand Council officers differ on this subject, believing in thorough trial and investigation of prospective chapters with a steady expansion. The Grand Council recommended no action taken.

Open discussion on Hell Week showed that all of the universities have placed limitations on the time that may be spent on such ceremonies, the time being 26 hours. All chapters have abandoned out-of-the-chapter-house stunts with the exception of a mid-night ride into the country where allowed by universities.

No action taken.

Open discussion on the substitution of Greek letters for the names of chapters. The Andronicus chapter delegate suggested the use of Greek letters along with our Architec’s chapter names. The adding of Greek letters would only make more clerical work. No action taken.

A. I. A. Membership

Brother Pickens, of the New York Alumni Chapter, in a letter to the convention, recommended action looking toward a closer alliance with the American Institute of Architects. Motion carried that the Convention go on record as recommending to all our members that they apply for Institute membership as soon as they are eligible; and that they also apply for junior member-ship until they have attained the necessary age and responsibilities to become active or associate members; the Secretary of the Convention notifying the Institute in writing of this Convention’s resolution.

Open discussion of rushing and pledging followed. No action.

Professor Relford Newcomb, past Grand Lecturer, a hard worker for Anthemos chapter, was confined in a hospital during this convention. A letter expressing the Convention’s regrets at his absence and their wishes for his speedy recovery was sent Professor Newcomb.

Convention then declared recess at five o’clock, and re-assembled the next morning at nine o’clock.

Traveling Exhibition

A motion was carried which the Committee on the Alpha Rho Chi Exhibit reported as follows:

“The traveling exhibit committee hereby recommends that each chapter request and sponsor a placing of the exhibit in their department at a convenient date, also try to place it in the most advantageous location in the state, especially in schools where a petition for a chapter would be desirable.”

“It is further recommended that each chapter support and contribute to this exhibit more liberally in the future.”

It hereby resolved that the Fifteenth Annual Convention of Alpha Rho Chi go record as most heartily endorsing and congratulating the New York Alumni Chapter on their most successful efforts to promote an annual traveling exhibition of work of Alpha Rho Chi members.

“The delegates here assembled from the various chapters do assure the wholehearted support of the chapters which they represent in fostering this annual traveling exhibit and in placing it in the most advantageous locations.”

Parr Re-elected.

Brother Harold L. Parr was re-elected to serve as the Worthy Grand Estimator for the next three years.

Brother Olsen of Mnesicles extended the invitation of the Minnesota chapter to hold the Sixteenth Annual Convention at Minneapolis. The invitation was accepted.

Open meeting was declared for the discussion of pledge ceremony. Most chapters are now using the new ceremony which was published in the revised ritual issued the past Autumn.

Discussion on collection of chapter assessments. One of the most successful chapters as a method of collecting bills, has the delinquent sign a note and make a payment at the local bank.

The discussion of chapter traditions and methods of training members for offices followed.

Letters and telegrams were read from Brothers Cass Gilbert, Parr, Bauer, Lindeberg, Gerlach and Anthemos Alumni Association.

Convention adjourned at eleven o’clock.
ALPHA RHO CHI HISTORY

It was suggested at the recent convention that pledges, initiates, active members, and alumni members be given periodic examinations regarding some of the historical background of our Fraternity. As a result of this suggestion, the committee on selection and hanging has decided to publish ten questions with authentic answers in each number. Additional questions will be welcomed by the Editor.

1. When was the national name of our Fraternity selected and who was given credit as the author?

The name proposed by the two men who were of a Greek nature and only one of a Greek nature was suggested. The name, Alpha Rho Chi, was the selection of the late Dr. Nathan Clfford Ricker, of the faculty of the University of Illinois.

2. What was the national name of our Fraternity selected and who was given credit as the author?

The name proposed by the two men who were of a Greek nature and only one of a Greek nature was suggested. The name, Alpha Rho Chi, was the selection of the late Dr. Nathan Clifford Ricker, of the faculty of the University of Illinois.

3. What was the name of the local Michigan chapter?

Sigma Upsilon Society of the University of Michigan.

4. How was the national name of our Fraternity selected and who was given credit as the author?

The names proposed by the two men who were of a Greek nature and only one of a Greek nature was suggested. The name, Alpha Rho Chi, was the selection of the late Dr. Nathan Clfford Ricker, of the faculty of the University of Illinois.

5. What duties were assigned the Arcus Society necessary for the establishment of the Fraternity?

The Arcus Society was allowed to draw the national constitution and by-laws of the official badge, and the coat of arms. The colors, maroon and navy blue, were adopted by the new Fraternity. The charter forms were drafted by the Arcus Society. The Arcus Society was general of the power of the W. G. A. who in turn was given the appointive power of the Grand Architect.

6. What duties were assigned the Sigma Upsilon Society necessary for the establishment of the Fraternity?

The Sigma Upsilon Society drafted the local chapter constitution and by-laws. The colors, maroon and navy blue, were adopted by the new Fraternity. The certificate of membership was drafted by Sigma Upsilon. The Sigma Upsilon Society was granted the executive power of the W. G. A. and W. G. E. and W. G. F.

7. Which chapter was given credit for the motto?

The motto, "Pictor, Amor et Artis," resulted from a combination of the mottos of the two societies.

8. Who was the first Worthy Grand Architec, Worthy Grand Scribe, and Worthy Grand Estimator, and where is each of the above located now?

Worthy Grand Estimator—C. M. McConkey, I. K., Practicing Architect in Annapolis, and teaching at University of Michigan.

9. Who was the author of the Fraternity Song and when was it written?

Professor Herbert R. Cross, then of the Department of Fine Arts, University of Michigan, was the author of "Alpha Rho Chi." Written in the year 1914.

10. Who was the major part of the Ritual?

The late Nathan Clifford Ricker, of the faculty of the University of Illinois.

REPORT ON EXHIBIT

To the 15th Annual Convention of Alpha Rho Chi:

We are glad to submit a favorable report of the Alpha Rho Chi Exhibit, as it has just been hung in the club rooms of the Architectural League of New York. We take this method of thanking those who have so kindly contributed to its success, and we urge that it be established as a regular periodical fraternity activity.

Our Master Architect, Brother Cass Gilbert, was of decided assistance to us in not only furnishing financial assistance, but also permitting us to hang a number of his water color sketches. He was present when the exhibit was hung and gave valuable suggestions.

Most of the active chapters furnished material for the exhibit, but we were forced to make personal contacts with various alumni in order to collect material from them. Of course, placed quite an unexpected burden on the entire New York chapter. In future, these matters could easily be taken care of by active and alumni chapters.

The committee on selection and hanging used about two-thirds of the material available, but when the exhibit is shipped to other chapters everything will be sent and each chapter may make its own selection as to what is most desirable for that particular locality.

May we urge you to take advantage of this excellent display of the work of our members. Those who wish to make arrangements to show the exhibit will please get in touch with one of the three men listed: George Merkle, 535 W. 24th St., New York City; H. MacI.; Davidson, 101 Park Ave., New York City; Walter A. Taylor, 23 F. 26th St., New York City.

The exhibit will remain on display here until January 4, after which it will be rented to any chapters who ask for it. They will be responsible for packing it and shipping it to its next destination.

ANDRONICUS CHAPTER HOUSE

University of Southern California.
2621 Menlo Ave., Los Angeles, Calif.
Leased by Active Chapter.

FORMAL DINNER DANCE

AT CHICAGO

The business session of the Convention was adjourned at noon Dec. 31, 1929, and the delegates and Anthemiros active chapter members sojourned in a body to Chicago. Brothers Hammett and Lindeberg met the train and assigned the delegates to homes of the alumni members.

The formal dinner dance was held at the Architects Club of Chicago, the feature of the dinner being roast turkey. The feature of the dance—it was New Year's Eve in Chicago, need we tell more?

FORMER ANTHEMIOS CHA­
TER MEMBER INITIATED

The Anthemiros Chapter presented the formal ritual work Monday, Dec. 30, 1929, for the benefit of the delegates and alumni.

Edgar N. Drew, a charter member of Arcus Society, who had graduated before 1914, was the candidate. By previous Convention action, Brother Drew had been issued a certificate of membership ten years ago, but had never taken the formal work himself.

A. I. S. C. FELLOWSHIP

AWARD

Francis Dickerson, Dem. '27, was awarded the fellowship offered by the American Institute of Steel Construction last Fall. His research work will be regarding wind stresses on tall buildings. The American Insurance Union Building, Columbus, Ohio, a structure 550 feet high, will serve as the research laboratory, and the work will be carried on under the direction of Professor Clyde T. Morris of the Civil Engineering Department, Ohio State University.

Dickerson received his Architectural degree in 1927, and his Architectural Engineering degree in 1929, both from Ohio State University. He is now enrolled in the university where he is working for a master's degree.
From a recent letter received by a member of the Grand Council from Case Gilbert acknowledging receipt of the Convention report, we quote the following: "I should say that, considering all the facts in the case, the Fraternity was in a very good condition for a society no older than it is, and we have reason to congratulate the Fraternity upon its progress and its development." It was present at a very small and select exhibition of the members of the Alpha Phi Chi held in the club rooms of the Architectural League of New York a fortnight ago and I was very much struck with the excellent work of the members as shown in that exhibition. The various sketches in pencil and black and white were especially interesting and attractive, and, in fact, many of the exhibits were of quite admirable character. "I should have been very happy to be present at the Convention in Chicago, but I think the Fraternity will understand that it is difficult for me to make long trips away from New York as I already have to do a great deal of traveling here."

EDITOR'S MAIL BOX

Anthemios.

Arthur Lee, 26, is a general contractor in Hudson, Wis. James A. Boyd, 25, is now practicing architecture in Little Rock, Ark. The Boys announce the birth of Martha Opal last June, 23, 1929. Lester H. Christen, 18, sales manager for the Virginia Steel Company in Richmond, Virginia, was married last March to Miss Frances L. Saunders. Gustave H. Deuchler, 18, of Aurora, Ill., sent in his life subscription last month.

Iktinos.

Roger L. Waring is leaving St. Louis and will be located in San Antonio, Texas. Waring is a field superintendent for the South Western Bell Telephone Company of St. Louis.

Walter R. Thompson, Ex. 27, upon leaving school, went to Detroit and worked for Malcolmson & Higgins, Architects, until 1927, when he joined the Simon J. Murphy Company. He is now managing three of their office buildings in Detroit.

Pimnesics.

R. S. McNary, at a regular meeting of the Michigan Society of Architects at the Sarah Club in Detroit, in commenting upon conditions, remarked, "the depression has even struck the student business.

Demetrios.

Herbert A. Scofield, Ex. 29, is now located in Dayton, Ohio.

Masics.

Chester L. Carjola, 28, spent last summer in New Mexico and Arizona. Carjola is now located in Santa Barbara, Calif.

First Prize Award at Ohio State University, Homecoming, Nov. 23, 1929.

Ogden F. Beeman, '28, writes "have been connected with the State College of Washington for nearly six years. The head of the department, Stanley A. Smith, also acts as architect for all college buildings. We have assisted him in various capacities from chief draftsman to superintendent and everything in between on the following major buildings: The Commons, Dairy Manufacturers Building, Women's Dormitory, Home Economics Building, Men's Gymnasium, and College Hospital. At present am on the instruction staff of the Department of Architectural Engineering." Beeman sends a new address for Fred J. Romanus, Anth., as Tacoma, Wash.

Kallikrates.

Philip N. Dunbrille, Ex. 29, sent as the address of Ralph G. Gulley, '26, as care of the American Express Company, Paris, France. Gulley is staying in Europe for eighteen months on two scholarships awarded him at Harvard last spring. Upon his return he is to be head of the Architectural School at Rensselaer Polytechnic Institute at Troy, New York.

Christmas Cards.

A very fine lot of Christmas cards was received here, the cards from the Andronicus and Dinocrates chapters being especially fine. The Andronicus card was a cut of the Architectural Building printed on a parchment paper. The Dinocrates card was an excellent sketch printed on a reflected blue print paper and each hand colored. Cards from the Paenonios and Demetrios chapters were received also. Amnis, Ely, and Moorman sent individually designed cards, Amnis' card being a linoleum print.

GRAND COUNCIL REPORT TO CONVENTION

D. P. Ely.

The report to the Fifteenth Annual Convention of the Grand Council covers the subjects prescribed by the Fraternity By-Laws as follows:

Condition of the Fraternity.

The condition of the Fraternity, in our opinion, may be described as fair. Grand Council inspections, held this fall, showed five chapters to be in excellent condition, two good, one fair, two poor. On the whole, our active chapters have made progress. Alumni activity is apparently confined to scattered individuals and can be rated as fair only. The Archi is appearing with regularity and for the first time has paid a way for one year. The Grand Council is functioning with efficiency and the general financial condition of the Fraternity is good.

Transactions of Grand Council Since Fourteenth Convention.

Jan. 8, 1929, Appointed Brother E. E. Eggert as Editor of Archi to succeed Brother H. W. Tonsley, resigned.

Sept. 1, 1929, issued new Ritual.

Sept. 15, 1929, issued new sheets for Hand-Book.

Nov. 30, 1929, attendance at meeting of the Professional Inter-Fraternity Conference at Chicago, Brother Ely representing the Fraternity.

A complete seven-page report of the Worthy Grand Estimator followed. The Polyklorites Chapter owes the Grand Council some $200; Paenonios ranked second with a $100 debt. The remaining chapter debts to Grand Council were $50 or under. The Demetrios Chapter, who at last year's convention had a $500 debt, came to the convention this year with a clean slate, being indebted to the Grand Council only $100.

Recommendations for the Good of the Fraternity.

The Grand Council had no specific recommendations to make to the Convention.

Petitions for New Chapters.

No petitions are at hand at present. No developments have occurred in respect to schools mentioned in the 1928 report. Activity is being carried on by the Worthy Grand Scribe in regard to possible expansion at a number of schools, but there are no details ready as yet for publication.

CONVENTION EXPENSE

A preliminary draft received from Harold L. Parr, W. G. E., estimates the cost per capita of the last Convention to be $5.75. This is the lowest it has been for some time. The tenth convention cost $6.98 per capita; the eleventh, $6.73; the twelfth, $6.20; the thirteenth, $9.41; and the fourteenth, $11.31.
CONVENTIONALITIES

We believe the success of the "Jubilee Convention" was due in a large part to the hard work of the Anthemios Worthy Architect, Buford L. Pickens.

Brother Gould upheld the Ohio Spats tradition.

Professor Stanley White acknowledged a gift to the Illinois chapter of a holly wreath, donated by Mrs. White during her absence as several Anthemios boys passed out the front door.

Brother Spann is planning an European trip this summer from the profits on convention photographs.

Brother Jones returned to North Dakota thoroughly sold on the idea that every alumni should try to return to a national convention sometime during his life time.

The new Anthemios chapter home is all that advance press notices claimed. It is a home of which the Illinois boys are, and rightly should be, proud.

CONVENTION DELEGATES

Grand Council: Dwight E. Ely

Anthemios: John E. Spann

Alumni Delegate: Truman J. Strong

Iktnos: John C. Crissey

Demetrios: William S. Gould

Alumni Delegate: Ello E. Eggert

Mnesicles: Clarence J. Olsen

Alumni Delegate: Paul W. Jones

Kalikratess: No Delegate

Andronicus: Herbert B. Pratt

Paeonios: Howard Baker

Dinocrates: Theodore H. Allen

Polykleitos: Edward H. Reimann

Theron: No Delegate

CHAPTERS

SOCIAL ACTIVITIES

ANTHEMIOS

R. W. Crain

Notwithstanding the hard work and long hours of the architects, Anthemios manages to hold her own with her social activities. After the regular registration time rushing, our first social function is the APX Smoker for all freshmen and new men registered in Architecture, Architectural Engineering, and Landscape Architecture. We use this means to get acquainted with all the new men of the departments in which we are interested. We have as many of our faculty men present, and furnishing a varied entertainment.

By a university regulation, we are only allowed four dances a year, two each semester. The years we play Ohio, we have a dance in their honor. Demetrios, not to be outdone, reciprocates the following year. Till this year we have not had a "traditional" dance, but this fall we had a "Beaux Arts Ball" which we hope will establish a precedent, and in time be known throughout the campus as the traditional "APX Beaux Arts Ball." Of the remaining three dances, two are informal, and one formal. The "formal" is traditional as much as it is a yearly affair. It is the big dance of the year. This starts about six-thirty in the evening with dinner, and ends, all too soon, at midnight another university regulation.

Initiation comes twice a year, February and May. At this time we have a banquet in honor of the initiates with talks by the toastmaster, faculty members, W. A., and a representative for the initiates.

At Christmas Santa Claus comes to Anthemios with a present for each one. At this time the pledges put on a play which invariably is very much burlesque.

Founder's Day is observed with a banquet at which time we have an honorary member or an alumnus speak.

Mother's Day, Dad's Day, and Homecoming means the pleasure of entertaining our parents and alumni, each one being a very enjoyable week-end.

Throughout the year we keep in close touch with our faculty and friends by having them over to the house for meals as often as possible.

Delta Sigma Pi and Alpha Omega Vhi, professional commercial and agricultural fraternities, are right across the street from us, making an all-professional trio. The three of us get together and have lots of good times. When one of the houses, has a dance, the others are invited. We play indoor-ball, touch-ball, and basketball together, and recently the Delta Sigma Rhos conceived the good idea of having the boys from the different groups who were to attend a formal school dance, getting together with their dates for dinner at one of the houses. The boys from that house, not attending the dance, would eat at one of the other houses, the different ones taking turns having the formal dinner.

At our last meeting we had election of officers. Juniors were selected for all the positions so that they may all be on to their jobs next year when the seniors are gone and unable to advise them. Those elected were: John E. Spann, W. A., Sigfred E. Carlson, W. A. A., Eugene L. Chapman, W. E., John L. Bloom, W. S., and William F. Keck, W. C.

At this time Anthemios wishes to say that she enjoyed very much being host to the fifteenth Annual Convention of Alpha Rho Chi. A few of the boys were unable to get back to Champaign for the Convention, but those of us who were here, are glad we were able to meet and know the brothers from our other chapters. If all the delegates enjoyed themselves as much as we did, the Convention was a success in every way, even though Herb Pratt almost froze to death, and spent a lot of his time dreaming of the bright sunshine of Southern California.
NOTES AND COMMENTS

The Double Decker

You come back to your fraternity house during the football season, perhaps stop at the house some evening for a meal, and attend an active chapter meeting, but all of these do not quite revive the old feeling you had for the house during your four years at the university. This holiday season we attended the Convention and really found just what that something was that was missing, a double deck bed, something we had almost forgotten existed, a piece of furniture that one's mind associates almost exclusively with a fraternity house. Try it sometime—it's a good tonic.

Fraternity Leaders

Several of the delegates to the Convention mentioned that they were not satisfied with the inactive attitude and support received from some of their alumni members. We believe the same as the Grand Council delegate who answered this question by saying that in most cases the inactive alumni were the first to back out on even the pledge. If your chapter wants active and hard working alumni, you must start with the pledges. Give them a thorough historical background, get them interested in their future fraternity, train them to be efficient officers in the pledge chapter. When the pledge becomes an active, this training cannot stop, but must be carried on each year until graduation.

An active man who has held most of the responsible offices your chapter offers, and one who knows the history both national and local, can use the various Grand Council regulations without referring to the handbook every time. A man who knows the constitution and by-laws without consulting the original, a man who has learned to respect the rights of others, who know how to adapt himself to various conditions, cannot be otherwise than an active alumni and booster for your chapter after he is graduated. Start with your pledges, don't neglect the actives, and then you shall reap the harvest of good hard working alumni.

Chapter Expansion

The Convention delegates seemed to be satisfied with the number of chapters we have now and are not favorable to expansion. The architect who spends his office hours gazing out of a window admiring a job he did five years ago will get no place in this age of competition. Any local architectural club established in recognized architectural schools that can measure up to our standards and is willing to establish a chapter house of its own should be approached in regard to affiliation with our fraternity.

Alpha Rho Chi Exhibit

The New York Chapter has done more than its share of the work in assembling and displaying the exhibition in a prominent Architectural League Building. Every active chapter can best show its appreciation of the work of these men by arranging for the display of these drawings in some prominent place in its respective university. The New York boys worked hard to put this first exhibition across and no doubt were a little disappointed with the weak support received from some of the active chapters. We believe, however, that these men will be amply repaid for their untiring efforts in 1929, when they view the exhibition in the years to come.

Architectural Schools

Add to the list of universities giving a complete course leading to an architectural degree, published in October, 1929, Archi the following:

State College of Washington (Architectural Engineering only).

University of Idaho.
IKTINOS
Robert S. Chamberlin

The social program of a chapter begins informally with the opening day of Freshman Week in September. Rushing is limited to formal dinners and the usual aftermath of bridge and the theatre. Active rushing ceases at the end of two weeks.

The fall pledge dance is next on the list and is usually held the first big game of the season. This dance is strictly informal and may be attended by members, pledges, and their guests. Usually not more than two dances during the football period are held, but this is not an iron-clad rule and has had its exceptions from time to time when the spirit of the chapter became socially aggressive. The annual Homecoming regular fall football season feature. All alumni, active and passive, are recipients of personal letters of invitation to this party, and usually the exodus to Iktinos is very gratifying. It has been the policy of the chapter to encourage and stimulate a genuine spirit of interest in the activities of both the active chapter and the alumni; for this reason the weekend of Homecoming has come to be recognized by us as one of the truly big events of our social calendar.

The formal fall pledge banquet is held shortly after the completion of the football season on the night following the ceremony of formal pledging.

It has become traditional to have our own private Christmas party on the night before school adjourns for the holidays. We say "private" because it is decidedly exclusive to all but members and pledges—very staid. This affair is very informal and the occasion for gifts for the Christmas tree immediately after dinner at night. It might well be added that the so-called "gifts" and anonymously greeted greetings which everyone receives are never taken too seriously, as the gifts and rhymes, albeit very appropriate and rhythmic, are not always elaborate or daintily phrased, and therefore of a somewhat deliberate nature.

The J-Hop house party is the first formal chapter function of the year and is closed to all but members and pledges. It is always held coincident with the week-end of the J-Hop, which usually comes in February. The party begins on Friday afternoon when all the guests are informally welcomed and introduced at tea and bridge. A formal dinner dance is held at the house during the evening. Special permission is granted by the University so that the closing time for this occasion is extended from the usual 1 A. M. to 3 A. M., at which time the house is forsaken by all males. The remainder of the night and the following morning are utilized in gaining much needed sleep. Saturday noon there is a luncheon at the house. The afternoon is spent at bridge, the Michigan Union Opera, or, weather permitting, perhaps cutting riding. At night there is a formal dinner and dancing until twelve. Dinner on Sunday marks the close of the J-Hop House party.

The initiation banquet for the fall pledge class is held at the close of the week-end. An afternoon of this banquet, providing the new members have retained sufficient stamina, is a theatre stag party to Detroit. It might be added that it is not to become traditional for half of the active chapter to attempt to make this trip in one lone taxicab.

In March on the week-end preceding spring vacation we have our annual Greenwich Village party which is in the nature of a semi-costume house dance. The Greenwich party is held on Friday and Saturday nights. The first night is an "open house" party, and the second is closed to all but members. The house is decorated entirely from ceiling to floor with decorated panelled frames and lighting fixtures. Each room is of a different character from the others. The work of painting and decorating for this affair is begun about three weeks before the party. The work is apportioned to committees of six or more men for each room, thus stimulating a lively spirit of completion in ideas and execution. The party itself is a decidedly fitting climax after the long period of preparation. Everyone attending must wear a smock and Windsor tie by way of costume to carry out the character of the party. At midnight artists' palettes and individual generous supplies of multi-colored grease paint are distributed among the dancers. If anyone is in doubt as to the outcome, let him add to one typical capacity house dance several tons of confetti and an equal quantity of grease paint, mix thoroughly to the somewhat frenzied tempo of the classic Tiger Rag from a hot band, and at length put on the porch to cool. The Iktinos Greenwich Village party has come to be popularly regarded as the finest of its kind on the campus. May brings Mothers Day, the occasion for a reception and banquet for all mothers of chapter members who can attend.

Formal initiation for the spring pledge class usually comes in the middle of May.

With the coming of June the social program of Iktinos draws to a fitting close with the Spring Formal in honor of departing seniors.

DEMETRIOS
W. T. Halligan

The social calendar of Demetrios is not very crowded due to the general complaint of all of us engaged in the study of architecture and its related courses, but when time for such diversions comes it is known that we play just as hard as we work.

In presenting our social activities it is best to describe them in their chronological order.

At the beginning of the school year after all the hand shaking and the friendships which was dormant during the three months vacation is relit the boys settle down to the annual problem of rushing. The principle method of becoming acquainted with the new men is during a smoker and a dance. Talent in the house is used to entertain them throughout the smoker, and for the dance the social committee has a twofold duty; one in arranging for the orchestra etc, and getting dates for the frosh.

Initiation comes about the sixth week of school. The "Hell Week" has been cut down to an infernal thirty-six hours, but each of these hours is sixty minutes of concentrated and very impressive activity (usually or otherwise). The initiation season is brought to a formal close with the initiation banquet at which the new initiates are presented with their badges and "awed" by the speeches of the W. A. and some faculty member.

A hard times party usually breaks up the grind before the Homecoming Season. It is a very popular dance but proves to be very hard on the general furniture and the health of the participants.

Very much enthusiasm is worked up for the homecoming game. The returning alumni, visiting brothers, house decorations, dance arrangements, and hot discussions as to the outcome of the game keeps us stepping lively. The dance is usually held outside of the house, thereby saving considerable time for everyone except the social committee who make innumerable trips between the house and the hall in the act of decorating it.
realize the true value of these conventions, not only to those individuals who are fortunate enough to be able to attend but also to the various chapters and the national organization as well. The opportunity of attending any of these has been enjoyed by only a few of us, but let's hope that at some time or another each and every one of us will have had that privilege.

It was not long ago that the Scarabs held there national convention at Minnesota, and desiring to have the fraternities better understand and appreciate one another, we entertained all the delegates and active chapter members one noon at our chapter house, where we all enjoyed a lunch and visit. We all felt that the results were as desired and suggest it as one means of placing the two fraternities on a more friendly basis, for, after all, most architects have the same ideals, ambitions, and aspirations and should cooperate and be the very best of friends.

We are also taking another step which we hope will not only strengthen the fair name of Alpha Rho Chi in the department but will also stimulate a greater interest in architecture. We are offering a prize to be given in books to the winners in certain specified design problems in the sophomore, junior, and senior classes in respectively the fall, winter, and spring quarters, thus awarding a prize to a different class each semester.

It pleases us all to announce that Professor Harlow C. Richardson is now a Faculty member of our Fraternity. Mr. Richardson, who has always shown a great interest in our chapter and who has always been one of our warmest friends, is in charge of the English Department of the Engineering College as well as summer school sessions at Minnesota.

We seem to feel a better spirit of co-operation, a warmer spirit of fellowship, or in other words a better fraternity spirit at Mnesicles this year. This is apparent not only in scholastic endeavors but in others as well. In the Float Parade at Homecoming this past fall it was only thru the able leadership of "Fridley" and the co-operation of all that we were able to place second in the judgment. It was also thru this same spirit of co-operation that we were able to win in the All University championship again in bowling, the professional championship in golf, runners up in volleyball, and mighty good contenders in basketball which series has not yet been completed.

Several of our men have recently "lost their badges," but we hope the disease is not contagious. Bob Cerny, Wayne Wilson, and Ed. Barber have all succumbed. The symptoms are also apparent on several others. This is the only bad news that we have to offer.

K. G. Smith of Dometrios was advised to leave school three weeks before the close of the quarter due to his physical condition. We're all looking forward to Keener's return in the very near future.

**Mnesicles**

Milton V. Bergstedt

As I sit down at my desk under the light of my little lamp, away up in Minnesota, I realize that at this very moment the Fifteenth Annual Convention of Alpha Rho Chi is well under way down in Champaign, Illinois. Few of us can
They had to march for several miles with only a breechcloth and coat of black makeup on head to foot for clothes. The prince rode upon a large elephant which was a part of the float. It was a new experience for him and one he doesn't care to have repeated. The slaves seemed dissatisfied too, as they had a hard time getting the paint on their bodies.

We are glad to report that the alumni are becoming more active. During homecoming week many old and familiar faces were seen. Among those were Curtiss Chambers, Lionel Banks, and Lee Ellis, all with their recent brides. The two Freds, Hageman and Olsson, were down from Santa Barbara, and also Francis Parsons from Santa Maria. Merrill Baird and Cecil Strawn were also there for the Homecoming dinner.

At their last meeting the Alumni Association elected new officers, Bob McVicar, head, Quincy Ellwood, secretary, and Grant Latta, treasurer. With the association behind them, these officers are going to try to make the old fraternity spirit stronger. A new innovation this year is in the holding of lunches every Tuesday noon at the College Inn, Roosevelt Hotel, for those alumni working in or near Hollywood, and lunches every Thursday noon at the French Restaurant for those working in or near Los Angeles.

There is not much news about any of the alumni as they seem very bashful. We hope they will overcome this and let us hear more about themselves and what they are doing. An unverified rumor has been received that Theodore Pletsch has been married. This is true, the active chapter wishes to offer congratulations and hopes he will come around to the house sometime with some cigars. Graham is always so much attached to Europe on his trip last summer that he wants to make another soon. In the recent Monolith Midwest Small Homes Competition, Norman Low received Honorable Mention, and Lee Ellis and Kenneth Wing received mentions. Roswell Allison, who has moved back to Los Angeles from San Francisco, has been around to the house quite often, and we are glad he is back in the city again. Ivo Clarich recently had a 73 at the Pasadena Golf Club, just three above par. He has been playing in the seventies and low eighties right along. Joe Lempman may usually be found at the house on Tuesday mornings, although he is always asleep. It seems that he has a big poker shille at every Monday night.

The Mothers' Club has been very active this year and has done many little things around the house to improve it. They recently worked very hard at a rummage sale to raise some money to spend on us. We hope they keep up the good work.

PAEONIOS
H. E. Martin

Paeanios has been very busy all fall. During the first week of the semester we had a smoker. We had several new men and the faculty members with us. An enjoyable evening was had by all.

Each week we have been inviting some sorority over to the house for an hour's dance. A great deal of enthusiasm is created this way. The boys all seem to be sorry when the hour is up. We usually try to have in a few new men these evenings. It seems to make quite an impression on them.

Our Homecoming party was our big event this fall, on the evening of the Oklahoma U. football game. Although we came out a one point loser there was a lot of enthusiasm there. Good music and a great many of our graduates far and near helped put the party over.

Our Christmas banquet was held at a downtown hotel this year. Everyone brought a prospective pledge. The faculty members were all present, and interesting talks were given by each.

We are making plans for our "Bow Tie Brawl" held each spring. This is our biggest and best party of the year.

Brother Rinard was elected to Sigma Tau, honorary engineering fraternity. He is the only member we have in the house.

George Jelinek believed in starting the new year out right. Any way Dan Cupid's arrow hit him square. Josephine Fisk was the lucky bride. They are living happily here in Manhattan.

The boys are looking forward to several free smokes after the Christmas vacation, as it was hinted around that several of the pins would be missing, especially Pinch Bicker's.

POLYKLITOS
Edward H. Heldmeier

Last November, during that part of the month when we all think of Turkey day, the chapter of Polyklitos met at Fort Pitt. It was a banquet. It also was a pep meeting for the coming rushing season. After hearty participation of a steak dinner and all, as well as the traditional banquet held at the monthly meeting of the chapter, we were able to write a full page on our social events.

MNESEICLES ALUMNI
Frank S. Moorman

The regular annual meeting of Mnesicles Alumni Association was held at the chapter house in Minneapolis on the evening before homecoming. This meeting followed the traditional banquet held jointly by the actives and alumni. After the announcement of the purchase of a new kitchen stove for the house (?), the following officers were elected:

President—Siegbert Stolle
Vice-President—Glynn Shifflet
Secretary—Gilman Holien
Treasurer—Chester Dock

The incoming officers took their honors with great modesty. Their zeal was unmistakable and their neckties brilliant. The suggestion that was brought up at the meeting that a concentrated effort be made to create a lot of enthusiasm amongst the alumni, and one definite scheme proposed was to have each man take turns in entertaining at his home for a social get-together. (Morrell Madison modestly stepped up and entertained for the first time shortly after and gave the ladies a fine evening. The author's turn comes next.)
Pledges Dropped

The W. C. E. should be promptly notified when the chapters drop names of their rolls. Use Form E-2.

Iktonos—Michigan

New Pledges

Not until W. C. E. receives Form E-1 directory card for the fraternity directory from the active chapter does a man's name appear in this, the official list of the Grand Council.

BROTHERS ALL

1. Brothers all, we sing in praise to Alpha Rho Chi;
2. Strong the arch which stands above thee Alpha Rho Chi;
3. Tho' the years bring pain or pleasure Tho' death be nigh;

Songs of fellowship we raise to Alpha Rho Chi.
Strong the hearts which fondly love thee Alpha Rho Chi.
Memories of thee we'll treasure Alpha Rho Chi.

Friendship's bond will ne'er be broken, Raise your glasses high in token
Of a loyalty unspoken; Alpha Rho Chi.
