

# AMENOPHIS

## 2019 CONVENTION REPORT

The Amenophis chapter is about to reach its second year charter anniversary! We have been very busy recruiting new members as we represent this new organization on SIU's campus. We are thrilled to have increased our pledge class size each semester and look forward to those to come!

We really pushed this year to get as much school funding for convention costs as possible and ended up getting enough to fund a majority of 11 brothers trips!

We have also been testing various events for professional, philanthropy, recruitment, brotherhood, and fundraising to see what works and what does not. We have successfully created an inventory of costumes and props for initiation that can be used for several years and pride ourselves in our execution of the rituals. This year has been full of learning opportunities that will help the Amenophis chapter flourish in the years to come!
